Indeks Harga Pengguna (IHP) meningkat 1.6 peratus pada Mac 2026 berbanding 1.3 peratus pada Februari 2026. Ini menggambarkan kenaikan inflasi secara keseluruhan selaras dengan peningkatan indeks harga di peringkat nasional susulan ketidakpastian pergerakan harga komoditi global.

Jangkaan masa hadapan yang positif menggambarkan keyakinan berterusan dalam kalangan peniaga terhadap perkembangan aktiviti ekonomi. Sentimen ini selaras dengan prestasi sektor Pembuatan yang kekal stabil dengan kapasiti penggunaan industri 85.1 peratus pada ST1 2026, sekali gus mencerminkan tahap operasi yang mampan dan berdaya tahan dalam kalangan pengusaha industri di negeri ini. Tambahan itu, nilai kerja pembinaan bagi sektor pembinaan merekodkan RM10.9 bilion pada ST1 2026 (ST4 2025: RM11.0 bilion).

Selangor portrays mixed economic performance with steady business outlook despite increased inflation

PUTRAJAYA, 21 MAY 2026 – Selangor recorded mixed socioeconomic performance in the First Quarter of 2026 (Q1 2026), with increased inflation, steady labour market, positive business sentiment and an increasing population growth rate. This performance is highlighted in the publication **State Socioeconomic Indicators, Selangor First Quarter 2026**, released today by the Department of Statistics Malaysia (DOSM). The publication is a rebranding of State Pocket Stats, which has been further enhanced through the inclusion of selected key indicators highlighting economic and social statistics at the state level. Among the key economic indicators are production in selected Agriculture sub-sectors, inflation, external trade and the labour market, while key social indicators include population, as well as household income and expenditure. This publication aims to provide better understanding while serving as a reference for general users.

Malaysia's economy expanded by 5.4 per cent in the first quarter of 2026 (Q1 2026: RM437.7 billion) compared to 6.2 per cent in the previous quarter (Q4 2025: RM457.9 billion). According to the Chief Statistician of Malaysia, Dato' Sri Dr. Mohd Uzir Mahidin, "Malaysia's economy continued to expand in the first quarter of 2026, reflecting the resilience of economic fundamentals and stable growth conditions amid a challenging global environment."

The Consumer Price Index (CPI) rose by 1.6 per cent in March 2026, compared to 1.3 per cent in February 2026. This reflected the overall rising inflation in line with the increase in the national price index following uncertainties in global commodity price movements.

Conversely, imports increased by 5.0 per cent to RM88.7 billion (Q1 2025: RM84.5 billion) during the same period. This performance reflected encouraging trade activities despite slower exports growth.

Referring to the labour market, Selangor maintained a stable labour force participation, supported by continuous economic activities. The labour force recorded 4.14 million persons (Q4 2025: 4.11 million persons), while the labour force participation rate (LFPR) stood at 78.0 per cent (Q4 2025: 77.8%). In line with this scenario, the number of employed persons recorded 4.05 million persons (Q4 2025: 4.03 million persons), while the unemployment rate was 2.0 per cent (Q4 2025: 2.1%).

The positive outlook indicates sustained confidence among businesses towards the developments of economic activities. This sentiment is consistent with the stable performance of the Manufacturing sector, with an industrial capacity utilisation at 85.1 per cent in Q1 2026, reflecting sustainable and resilient operational levels among industrial players in the state. In Addition, the value of work done in the construction sector recorded RM 10.9 billion in Q1 2026 (Q4 2025: RM11.0 billion).
