PELANCONGAN DOMESTIK MALAYSIA, 2021

Perbelanjaan pelancongan domestik 2021 turun 54.5 peratus untuk merekodkan RM18.4 bilion, namun dijangka akan pulih pada tahun 2022

PUTRAJAYA, 29 JUN, 2022— Perbelanjaan pelancongan domestik menurun 54.5 peratus untuk merekodkan RM18.4 bilion (2020: RM40.4 bilion), terendah sejak survei ini dijalankan pada 2008. Laporan **SURVEI PELANCONGAN DALAM NEGERI (DTS) 2021** yang dikeluarkan secara rasmi hari ini, menyediakan statistik ketibaan pelawat, perbelanjaan pelancongan, corak perjalanan dan profil sosial & demografi pelawat domestik. Sekatan sempadan, peraturan standard prosedur dan *lockdown* yang berterusan kesan daripada kemunculan varian baharu COVID-19, seperti Omicron dan Delta terus memberi impak kepada pelancongan domestik pada 2021. Bencana banjir yang berlaku pada akhir tahun 2021 di kebanyakan kawasan di Semenanjung Malaysia menyebabkan perjalanan domestik menjadi lebih teruk.

Ketua Perangkawan Malaysia, Dato' Sri Dr. Mohd Uzir Mahidin menambah, “Jumlah ketibaan pelawat domestik mencatatkan 66.0 juta pelawat berbanding 131.7 juta pelawat tahun sebelumnya, menurun 49.9 peratus. Jika dibandingkan dengan 2019 (sebelum pandemik COVID-19), jumlah ketibaan domestik menurun sebanyak -72.4 peratus. Begitu juga, perbelanjaan turun 82.2 peratus berbanding 2019.

Mengulas lanjut mengenai prestasi pelancongan domestik Malaysia pada 2021, prestasi rendah tersebut disebabkan oleh perbelanjaan pelawat pelancong domestik yang jatuh -68.0 peratus, manakala pelawat harian turun -36.3 peratus. Ini selari dengan pertumbuhan negatif dalam jumlah pelancong domestik dan pelawat harian yang masing-masing mencatatkan -67.8 peratus, dan -40.2 peratus. Dalam tempoh ini, bilangan perjalanan domestik turun -50.7 peratus untuk merekodkan 72.4 juta

perjalanan berbanding 147.0 juta perjalanan pada 2020. Perjalanan bermalam turun -67.8 peratus (15.5 juta perjalanan), manakala perjalanan harian menurun -42.4 peratus (56.9 juta perjalanan).

Dari segi perbelanjaan, dapat dilihat bahawa terdapat perubahan struktur di mana peratusan pelancong harian melepas perbelanjaan pelancong bermalam dengan merekodkan 59.8 peratus (2020: 42.7%). Membeli-belah merupakan komposisi terbesar daripada jumlah perbelanjaan dengan sumbangan 50.3 peratus (2020: 52.6%), diikuti oleh makanan & minuman, 15.1 peratus (2020: 18.5%), dan pembelian bahan api kenderaan 11.1 peratus (2020: 9.0%). Membeli-belah juga kekal sebagai tujuan paling popular untuk pelawat domestik sejak 2020, menyumbang 36.4 peratus (2020: 42.3%). Melawat saudara-mara & rakan-rakan menyumbang 24.2 peratus (2020: 32.0%), namun jauh lebih rendah jika dibandingkan dengan tahun sebelum pandemik yang mencatatkan 42.3 peratus. Situasi dijangka ini adalah disebabkan oleh sekatan antara daerah dan antara negeri yang menyebabkan orang ramai tidak dapat melawat saudara mara. Sementara itu, terdapat trend menaik bagi rawatan perubatan dan hiburan/menghadiri acara khas/ sukan yang menunjukkan peningkatan berbanding tahun lepas, masing-masing mencatatkan 10.3 peratus dan 5.4 peratus.

Disebabkan oleh penutupan sempadan antarabangsa Malaysia di mana orang ramai tidak dapat melancong ke luar negara, dapat dilihat bahawa pelawat domestik mengikut pendapatan isi rumah RM5,001 hingga RM10,000 menunjukkan peningkatan ketara dengan merekodkan sumbangan tertinggi sebanyak 30.4 peratus berbanding tahun sebelum pandemik (2019: 23.3%). Sementara itu, perjalanan pelawat domestik mengikut pendapatan isi rumah antara RM1,001 hingga RM3,000 menurun 6.4 peratus daripada 2019 kepada 29.3 peratus.

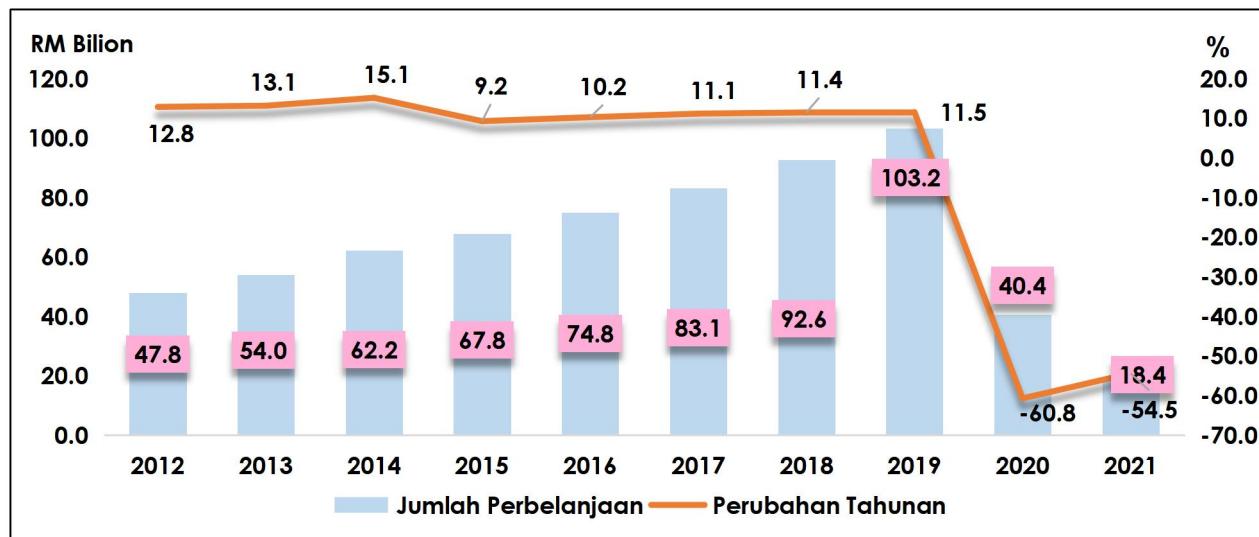

Dato' Sri Dr. Mohd Uzir Mahidin turut menekankan, "negeri yang paling ramai dikunjungi pelawat domestik pada 2021 ialah Selangor dengan 10.2 juta, diikuti oleh W.P Kuala Lumpur, dan Sarawak masing-masing 9.1 juta, dan 6.5 juta pelawat domestik."

Ketua Perangkawan merumuskan, “Dengan peralihan kepada fasa endemik seperti yang diumumkan oleh kerajaan, ia berkemungkinan akan menyumbang kepada pemulihian industri pelancongan Malaysia dan dijangka menyaksikan pertumbuhan positif pada 2022 yang diterajui oleh sektor domestik. Ini selari dengan indikator kadar penghunian bilik hotel yang ditunjukkan pada suku pertama 2022. Pelonggaran peraturan perjalanan rentas negeri telah memberi impak yang ketara, terutamanya kepada industri berkaitan pelancongan domestik.”

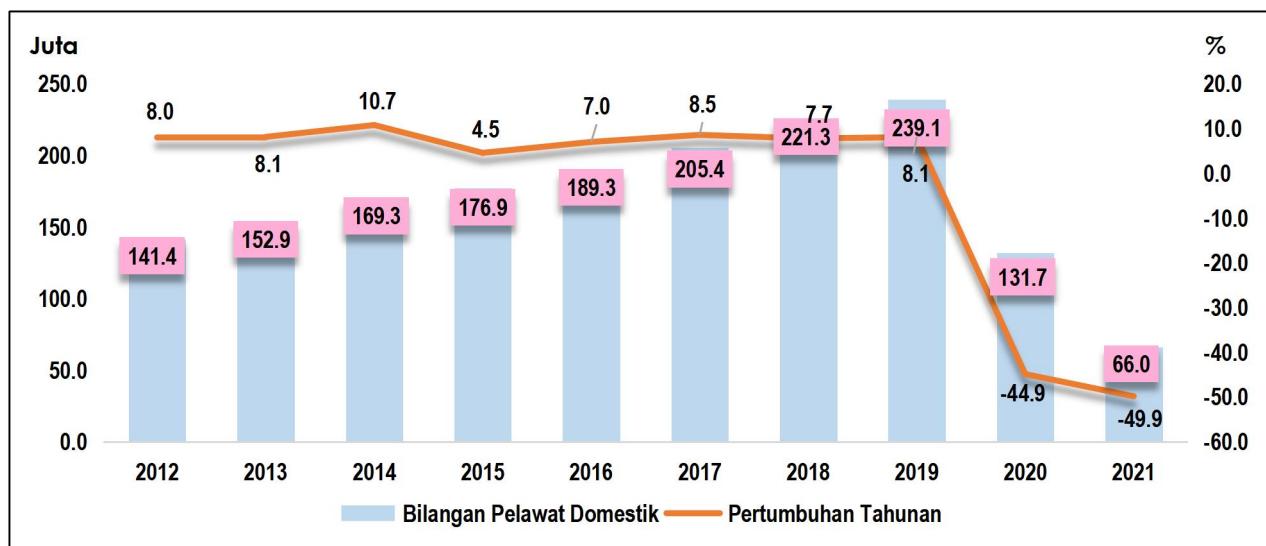

Jabatan Perangkaan Malaysia (DOSM) sedang menjalankan Survei Pendapatan, Perbelanjaan Isi Rumah dan Kemudahan Asas (HIES/BA) 2022 bermula dari 1 Januari 2022 sehingga 31 Disember 2022 dan Survei Ekonomi Tahunan 2022 (AES 2022) bermula 15 April hingga 30 September 2022.
