**INDEKS PENGELUARAN PERINDUSTRIAN MALAYSIA
NOVEMBER 2025**

**Indeks Pengeluaran Perindustrian Malaysia meningkat 4.3 peratus
pada November 2025, didorong oleh momentum positif
dalam kesemua sektor**

PUTRAJAYA, 9 JANUARI 2026 – Indeks Pengeluaran Perindustrian Malaysia meningkat 4.3 peratus tahun ke tahun pada November 2025, didorong oleh momentum positif dalam kesemua sektor. Jabatan Perangkaan Malaysia (DOSM) melaporkan dalam keluaran **Indeks Pengeluaran Perindustrian (IPP), Malaysia November 2025** pada hari ini. Penerbitan ini memaparkan statistik IPP yang terdiri daripada tiga sektor iaitu Perlombongan, Pembuatan dan Elektrik.

Mengulas laporan tersebut, Dato' Sri Dr. Mohd Uzir Mahidin, Ketua Perangkawan Malaysia berkata, “Indeks Pengeluaran Perindustrian (IPP) kekal positif pada November 2025, mencatatkan pertumbuhan 4.3 peratus tahun ke tahun (Oktober 2025: 6.0%). Kenaikan tersebut terutamanya dipacu oleh sektor Pembuatan yang meningkat 4.9 peratus (Oktober 2025: 6.5%) dan pertumbuhan 2.3 peratus dalam pengeluaran sektor Perlombongan (Oktober 2025: 5.8%). Selain itu, output Elektrik meningkat 2.7 peratus berbanding 1.8 peratus yang direkodkan pada bulan lalu. Perbandingan dengan bulan sebelumnya, IPP menurun kepada negatif 1.1 peratus daripada positif 2.1 peratus pada Oktober 2025.”

Ketua Perangkawan mengulas lanjut, “Pertumbuhan stabil dalam output sektor Pembuatan disokong oleh industri berorientasikan eksport, meningkat sebanyak 5.0 peratus berbanding positif 7.2 peratus yang direkodkan pada Oktober 2025. Peningkatan ini terutamanya dipacu oleh pertumbuhan dua digit dalam Pembuatan komputer, produk elektronik & optikal yang merekodkan kenaikan 10.7 peratus (Oktober 2025: 14.2%); diikuti oleh Pembuatan kelengkapan elektrik iaitu 13.9 peratus (Oktober 2025: 9.3%). Tambahan pula, Pembuatan jentera & peralatan t.t.t.l. turut mencatatkan momentum positif yang berterusan sebanyak 9.0 peratus berbanding 11.3 peratus pada bulan terdahulu. Ini adalah selari dengan prestasi eksport negara yang mencatatkan pertumbuhan lebih perlahan iaitu 7.0 peratus pada November 2025 selepas mengalami pertumbuhan 15.7 peratus pada bulan sebelumnya.

Perbandingan bulan ke bulan, industri berorientasikan eksport menurun kepada negatif 1.8 peratus daripada positif 0.9 peratus pada Oktober 2025.

Sementara itu, industri berorientasikan domestik bertumbuh sederhana sebanyak 4.6 peratus berbanding peningkatan 4.9 peratus yang dicatatkan pada Oktober 2025. Pertumbuhan berterusan ini didorong terutamanya oleh momentum stabil yang direkodkan dalam Pembuatan produk prosesan makanan; dan Pembuatan produk logam yang direka, kecuali mesin & kelengkapan masing-masing mencatatkan kenaikan 9.5 peratus dan 5.1 peratus. Berbanding dengan bulan sebelumnya, industri berorientasikan domestik memulih kepada 2.3 peratus berbanding negatif 1.2 peratus yang dicatatkan pada bulan terdahulu.”

Dato' Sri Dr. Mohd Uzir Mahidin turut menambah, “Pengeluaran sektor Perlombongan pada November 2025 bertumbuh dengan kadar lebih perlahan iaitu 2.3 peratus disumbangkan oleh pertumbuhan dalam kedua-dua komponen iaitu indeks Minyak Mentah & Kondensat meningkat 4.3 peratus dan diikuti oleh indeks Gas Asli yang menaik 1.0 peratus. Berbanding bulan sebelumnya, indeks Perlombongan merosot 3.1 peratus berbanding positif 10.1 peratus yang direkodkan pada Oktober 2025. Sementara itu, penjaan Elektrik meningkat 2.7 peratus tahun ke tahun pada November 2025. Perbandingan dengan Oktober 2025, indeks Elektrik menurun 3.0 peratus.”

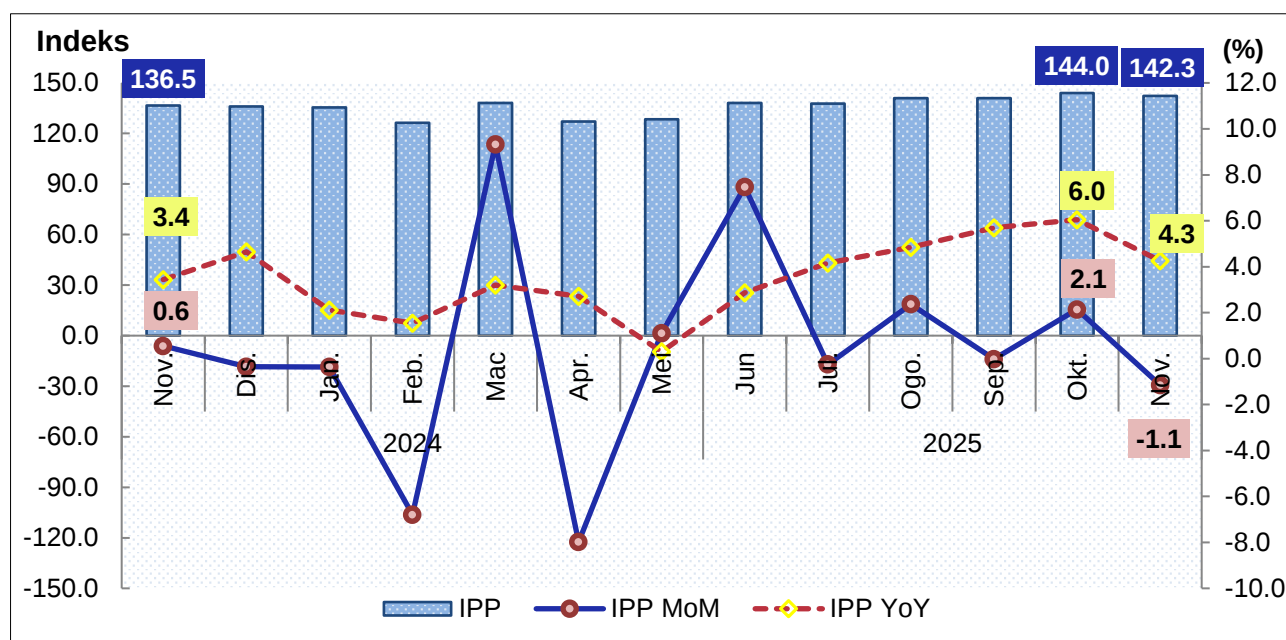

Melihat kepada prestasi beberapa negara lain, IPP mencatatkan pertumbuhan sederhana bagi China (4.8%) dan Singapura (14.3%) pada November 2025. Sebaliknya, Vietnam (10.8%), Taiwan (16.4%) dan Korea Selatan (-1.4%) menunjukkan trend peningkatan pada bulan ini. Selain itu, Japan (-2.1%) dan Thailand (-4.2%) mengalami penurunan pertumbuhan pada November 2025.

Merumuskan kenyataannya mengenai prestasi IPP bagi sebelas bulan pertama tahun 2025, Ketua Perangkawan berkata, “IPP bertumbuh pada kadar lebih perlahan iaitu 3.5 peratus berbanding tempoh yang sama tahun sebelumnya (Januari - November 2024: 3.6%) dipengaruhi oleh indeks Pembuatan (4.3%), diikuti oleh indeks Perlombongan dan indeks Elektrik masing-masing merekodkan pertumbuhan 0.9 peratus dan 0.5 peratus.”

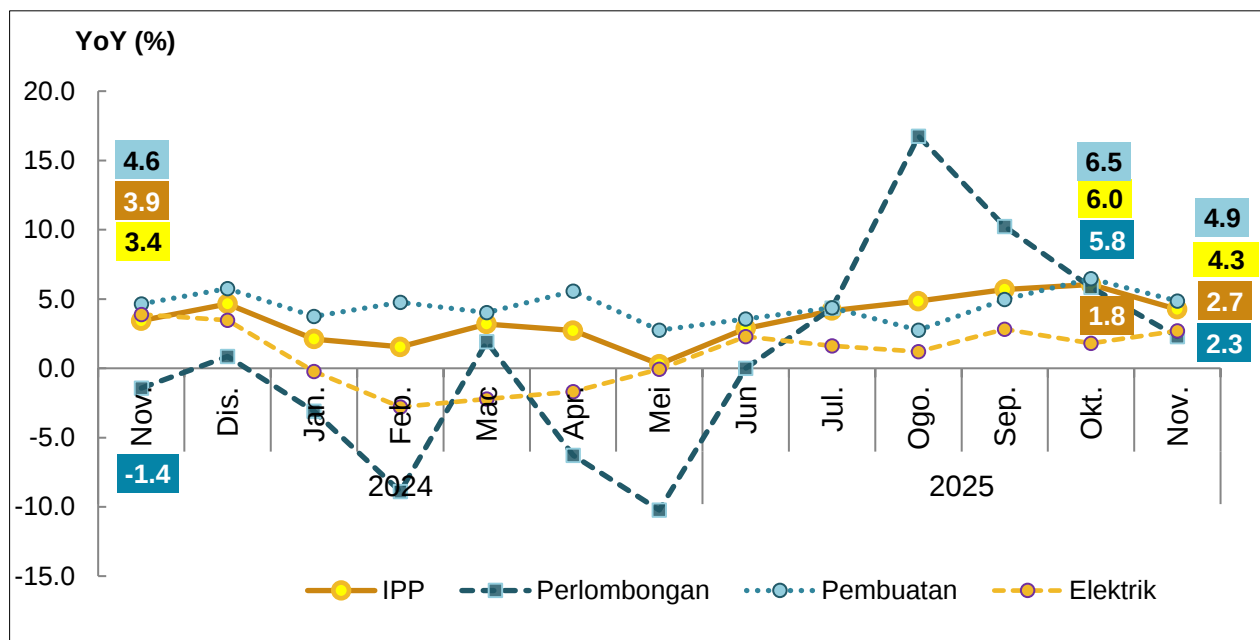

Malaysia buat julung kalinya telah menduduki tangga pertama (1) di peringkat global dalam laporan dwi-tahunan Open Data Inventory (ODIN) 2024/25 yang dikeluarkan oleh Open Data Watch (ODW), mengatasi 197 negara lain. Pencapaian ini merupakan lonjakan ketara daripada kedudukan ke-67 dalam penilaian ODIN 2022/23.

INDEX OF INDUSTRIAL PRODUCTION MALAYSIA NOVEMBER 2025

Malaysia's Industrial Production Index rises 4.3 per cent in November 2025, induced by positive momentum in all sectors

PUTRAJAYA, JANUARY 9, 2026 – Malaysia's Industrial Production Index rises 4.3 per cent year-on-year in November 2025, induced by positive momentum in all sectors. The Department of Statistics, Malaysia (DOSM) reported today in the release of the **Industrial Production Index (IPI), Malaysia, November 2025**. This publication presents IPI statistics, consisting of three sectors namely Mining, Manufacturing and Electricity.

Commenting on the report, Dato' Sri Dr. Mohd Uzir Mahidin, the Chief Statistician said, "The Industrial Production Index (IPI) remained positive in November 2025, registering a year-on-year growth of 4.3 per cent (October 2025: 6.0%). The increase was primarily driven by the Manufacturing sector which up by 4.9 per cent (October 2025: 6.5%) and a 2.3 per cent grew in the Mining sector output (October 2025: 5.8%). In addition, the Electricity output rose by 2.7 per cent compared to 1.8 per cent recorded in the previous month. In comparison with the preceding month, the IPI turned downward to the negative 1.1 per cent from positive 2.1 per cent in October 2025."

The Chief Statistician further commented, "The steady output growth in the Manufacturing sector was supported by the export-oriented industries, which increased by 5.0 per cent as against positive 7.2 per cent recorded in October 2025. This increased was driven primarily by a double-digit growth in the Manufacture of computer, electronics & optical products which recorded an increase of 10.7 per cent (October 2025: 14.2%); followed by the Manufacture of electrical equipment at 13.9 per cent (October 2025: 9.3%). Moreover, the Manufacture of machinery & equipment n.e.c. also registering a sustained positive momentum at 9.0 per cent compared to 11.3 per cent in the last month. This was consistent with the country's export performance, which registered a slower growth at 7.0 per cent in November 2025 after experiencing 15.7 per cent in the preceding month. On a month-on-month basis, export-oriented industries turned downward to negative 1.8 per cent from positive 0.9 per cent in October 2025.

In the meantime, the domestic-oriented industries grew modestly by 4.6 per cent as opposed to the increase of 4.9 per cent registered in October 2025. The sustained growth was particularly induced by the stable momentum recorded in Manufacture of food processing products; and Manufacture of fabricated metal products, except machinery & equipment which registered increases of 9.5 per cent and 5.1 per cent, respectively. In comparison with the preceding month, the domestic oriented industries rebounded to 2.3 per cent as against a negative 1.2 per cent registered in the previous month.”

Dato' Sri Dr. Mohd Uzir Mahidin also added, “The production of Mining sector in November 2025 which grew at a slower pace of 2.3 per cent, contributed by the growth in both components where Crude Oil & Condensate index increased by 4.3 per cent and followed by the Natural Gas index rose by 1.0 per cent. As compared to the previous month, the Mining index decreased by 3.1 per cent, compared to positive 10.1 per cent recorded in October 2025. Meanwhile, Electricity generation up to 2.7 per cent year-on-year in November 2025. Compared to October 2025, the Electricity index decreased by 3.0 per cent.”

Looking at the performance of several countries, the IPI registered a moderate growth in China (4.8%) and Singapore (14.3%) in November 2025. In contrast, Vietnam (10.8%), Taiwan (16.4%) and South Korea (-1.4%) showed an increased trend during this month. Moreover, Japan (-2.1%) and Thailand (-4.2%) experienced a decline growth in November 2025.

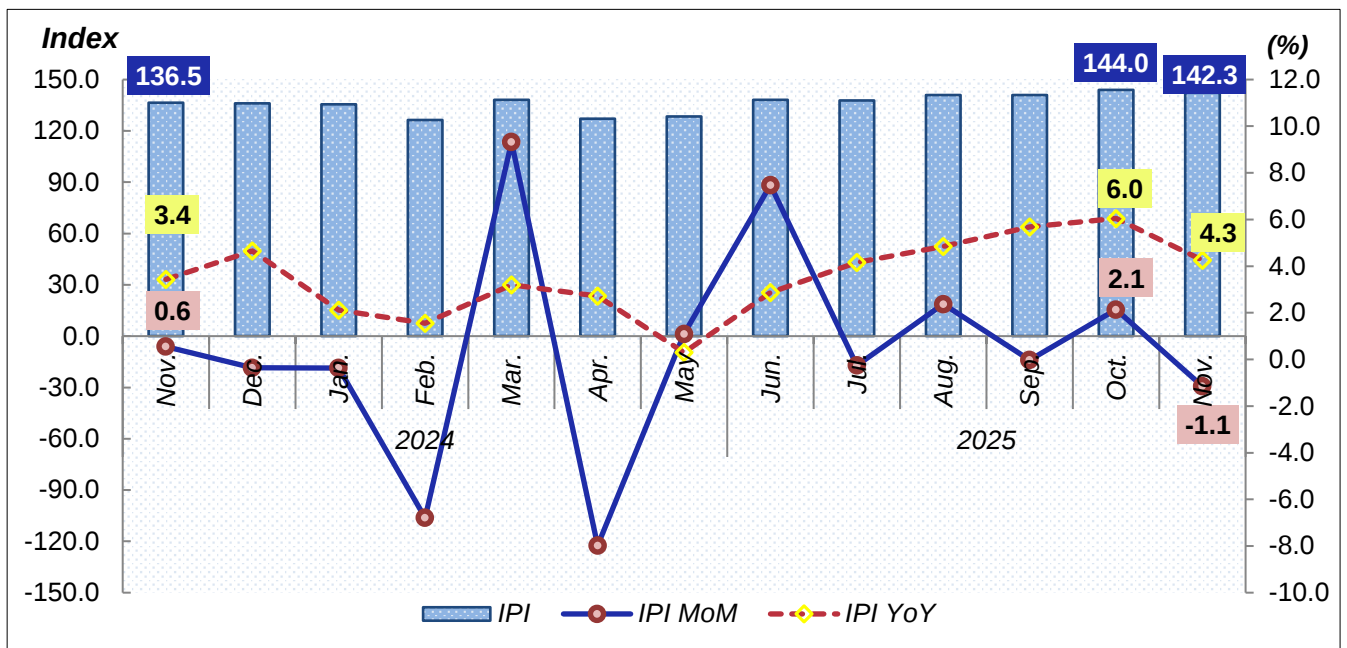

Concluding his statement on the IPI performance for the first eleven months of 2025, the Chief Statistician said, “The IPI grew at a slower rate of 3.5 per cent as compared to the same period of the previous year (January - November 2024: 3.6%), influenced by the Manufacturing index (4.3%), followed by the Mining index and Electricity index recorded a growth of 0.9 per cent and 0.5 per cent, respectively.”

The Department of Statistics Malaysia (DOSM) is conducting the Economic Census 2026 (BE2026), themed “Data Nadi Ekonomi Rakyat”. The sixth Economic Census, running from 5th January to 31st October 2026. BE2026 aims to collect comprehensive, structured data from all registered and unregistered business establishments in Malaysia to assess the nation’s economic performance, structure and characteristics in an evidence-based manner.

Malaysia has, for the first time, successfully secured the top position globally in the biennial Open Data Inventory (ODIN) 2024/25 report released by Open Data Watch (ODW), surpassing 197 other countries. This achievement marks a significant leap from its 67th position in the ODIN 2022/23 assessment.
