ASEAN MALAYSIA CHAIRMANSHIP 2025

The 8th Meeting of the Working Group on Sustainable Development Goals Indicators (WGSDGI8)

The Department of Statistics Malaysia (DOSM) successfully hosted the **8th Meeting of the Working Group on Sustainable Development Goals Indicators (WGSDGI8)** from 5 - 6 August 2025 in Putrajaya. The WGSDGI, a key entity under the ASEAN Community Statistical System (ACSS), plays a vital role in strengthening ASEAN's data ecosystem. It leads regional efforts to **harmonize methodologies, align indicators and build statistical capacity across Member States** — ensuring that SDG data remains transparent, comparable and actionable.

WGSDGI8 convened 29 delegates from ASEAN Member States (AMS) and the ASEAN Secretariat (ASEANstats), with virtual participation from Cambodia, Lao PDR, and Myanmar. As a collaborative platform, the WGSDGI focuses on supporting the achievement and monitoring of SDG indicators across ASEAN. Its meetings serve to **review progress, address challenges and coordinate efforts** among Member States, UN agencies and international organizations in tracking SDG implementation.

This year's meeting aimed to:

- Finalize agreement on the ASEAN Statistical Indicators Core Set (ASI-CT)
- Discuss the ASEAN SDG Indicators Progress Report 2025
- Review the WGSDGI Multi-Year Plan (MYP) 2026–2030
- Update the 2026 Annual Work Plan (AWP)
- Assess evolving needs and expertise under the ASEAN Help ASEAN Framework (AHAF)
- Review ASEAN–UN Women collaboration on Gender Statistics
- Present progress on the pilot study for Small Area Estimation (SAE)

"To fulfil the commitment to 'leave no one behind', a clear understanding of the current situation requires **relevant, reliable and timely indicators**, as well as data that reflects not only **regional performance** but also the **lived experiences of the people**. Therefore, AMS play an important role in this effort and the National Statistics Offices (NSOs) serve not only as data producers but also **strategic enablers of evidence-based development**"

YBhg. Dato' Sri Dr. Mohd Uzir Mahidin,
Chief Statistician Malaysia & Chair of the 15th Session of the
ASEAN Community Statistical System Committee (ACSS15)

INCLUSIVENESS AND SUSTAINABILITY

Statistics Bloom in Harmony

Doesn't matter far or near
Strength in numbers
we don't live in fear

Birds of feather flock together
Statistics our form of adour
We, will always live it up

Prechorus

So let us live in solidarity
And in the world arena we'll succeed
It is statistics that will come to be
The reason we will bloom in harmony

Chorus

Everybody undivided
Data's where our hearts reside in
There will always be a bind

Just like fire that ignites
That's how brightly lit our dreams are
We'll reach higher than the stars

Sending love to one another
Leaving no one in a slumber
We will stand with unity

Mustering our courage while
Embracing our disparities
We'll achieve our victory

One dream with unity
One love with harmony

Thank you
