## **Melangkah Ke hadapan**

Berdasarkan Banci Pertanian 2024, DOSM turut membangunkan Gerbang Digital Statistik Pertanian (TaniStats 2.0) yang telah dirasmikan oleh Ketua Setiausaha Negara, Tan Sri Shamsul Azri Abu Bakar, pada 7 Disember 2025. Inisiatif ini merupakan satu langkah strategik dalam transformasi pengurusan data pertanian negara melalui pembangunan sebuah platform pintar bersepadu yang menggabungkan hasil banci, data pentadbiran dan maklumat rantai bekalan ke dalam satu ekosistem digital bersepadu.

Sektor pertanian kekal sebagai salah satu pemacu utama pertumbuhan ekonomi negara. Ia bukan sahaja memainkan peranan dalam memastikan bekalan makanan yang mencukupi, malah turut menyumbang secara signifikan dalam mengurangkan kebergantungan negara terhadap import, menyokong industri pemprosesan, mewujudkan peluang pekerjaan serta meningkatkan pendapatan isi rumah, khususnya para petani. Melalui banci ini, statistik pertanian tersedia sehingga ke peringkat lokaliti terkecil menyediakan maklumat di peringkat granular yang membolehkan pelaksanaan intervensi yang lebih bersasar dan bersesuaian. Data sehingga ke peringkat terperinci ini akan menyokong perancangan dan pembuatan keputusan yang lebih berkesan oleh pihak berkepentingan dan seterusnya menyumbang kepada pemeraksanaan berterusan sektor pertanian negara.

Dapatan Banci Pertanian 2024 di Negeri Selangor menunjukkan taburan aktiviti pertanian yang tersusun mengikut kekuatan daerah pentadbiran masing-masing. Sabak Bernam dan Kuala Selangor terus kekal sebagai jelang makanan utama negeri dengan tumpuan kepada penanaman padi, buah-buahan serta sayur-sayuran, di samping menjadi penyumbang signifikan kepada pengeluaran hasil perikanan tangkapan. Sementara itu, Kuala Langat dan Hulu Selangor merupakan kawasan tumpuan bagi aktiviti penternakan dan perladangan komoditi seperti kelapa sawit sekali gus menyokong kestabilan rantai bekalan makanan serta industri hiliran berasaskan pertanian.

Secara keseluruhannya, pelaksanaan banci ini akan menjadi pemangkin kepada pembangunan sektor pertanian yang lebih mampan, berdaya tahan dan berdaya saing, seterusnya menyumbang kepada kesejahteraan rakyat serta pertumbuhan ekonomi Selangor secara menyeluruh. Banci Pertanian akan dilaksanakan sekali pada setiap 10 tahun bagi memastikan data adalah relevan dan menggambarkan struktur sektor pertanian negara.

Jabatan Perangkaan Malaysia (DOSM) sedang melaksanakan **Banci Ekonomi 2026 (BE2026)** dengan tema “**Data Nadi Ekonomi Rakyat**”. Pelaksanaan Banci Ekonomi kali keenam ini berlangsung dari **5 Disember hingga 31 November 2026**. BE2026 bertujuan untuk mengumpul data yang menyeluruh dan berstruktur daripada semua pertubuhan perniagaan berdaftar dan tidak berdaftar di Malaysia, bagi menilai prestasi, struktur serta ciri-ciri ekonomi negara secara komprehensif dan berasaskan bukti.

**Malaysia** buat julung kalinya telah menduduki **tangga pertama (1)** di peringkat global dalam laporan dwi-tahunan **Open Data Inventory (ODIN) 2024/25** yang dikeluarkan oleh *Open Data Watch (ODW)*, mengatasi 197 negara lain. Pencapaian ini merupakan lonjakan ketara daripada kedudukan ke-67 dalam penilaian ODIN 2022/23.

**OpenDOSM NextGen** adalah medium yang menyediakan katalog data dan visualisasi bagi memudahkan pengguna menganalisis pelbagai data dan boleh diakses melalui portal <https://open.dosm.gov.my>.

**TaniStats 2.0** merupakan hab utama maklumat pertanian bersepadu yang menyediakan paparan statistik berinformatif, berstruktur dan mesra pengguna bagi memperkukuh pemahaman awam terhadap corak dan perubahan sektor pertanian, sekaligus menyokong inisiatif transformasi digital ke arah dasar yang lebih inklusif dan berasaskan bukti. ## Moving Forward

Based on the Agriculture Census 2024, DOSM has also developed the Agricultural Statistics Digital Gateway (TaniStats 2.0), which was officiated by the Chief Secretary to the Government, Tan Sri Shamsul Azri Abu Bakar, on 7<sup>th</sup> December 2025. This initiative represents a strategic step in transforming the nation's agricultural data management through the development of an integrated smart platform that consolidates census results, administrative data and supply chain information into a comprehensive digital ecosystem.

The agriculture sector remains one of the key drivers of national economic growth. Beyond ensuring adequate food supply, the sector contributes significantly to reducing the nation's dependence on imports, supporting processing industries, creating employment opportunities, and increasing household income, particularly among farmers. Through this census, agriculture statistics are available down to the smallest locality level, providing granular information that enables more targeted interventions. Such detailed data will support more effective planning and decision-making by stakeholders, thereby strengthening the continued development of the national agriculture sector.

The Agriculture Census is conducted once every ten years to ensure that the data remains relevant and reflective of the structure of the agriculture sector. Its implementation reflects the Government's continued commitment to strengthening the national statistical system while supporting food security and public well-being. The findings are expected to strengthen strategic and high-impact agricultural development planning in Selangor.

The agriculture sector in Selangor demonstrates a structured distribution of activities based on the strengths of its administrative districts. Sabak Bernam and Kuala Selangor remain the state's main food-producing areas, focusing on paddy cultivation and other food crop, while also contributing significantly to capture fisheries production. Meanwhile, Kuala Langat and Hulu Selangor serve as key areas for livestock activities and commodity plantations such as oil palm, thereby supporting the stability of the food supply chain and the development of downstream agriculture-based industries.

Overall, the implementation of this census will serve as a catalyst for a more sustainable, resilient, and competitive agriculture sector, contributing to the well-being of the people and the overall economic growth of Selangor.

The Department of Statistics Malaysia (DOSM) is conducting the **Economic Census 2026 (BE2026)**, with themed “**Data Nadi Ekonomi Rakyat**”. The sixth Economic Census, will be carried out from **5<sup>th</sup> January to 31<sup>st</sup> November 2026**. BE2026 aims to collect comprehensive and structured data from all registered and unregistered business establishments in Malaysia to assess the nation’s economic performance, structure and characteristics in an evidence-based manner.

**Malaysia** has, for the first time, successfully secured the **top position** globally in the biennial **Open Data Inventory (ODIN) 2024/25** report released by Open Data Watch (ODW), surpassing 197 other countries. This achievement marks a significant leap from its 67<sup>th</sup> position in the ODIN 2022/23 assessment.

**OpenDOSM NextGen** is a medium that provides data catalogue and visualisations to facilitate users' analysis and can be accessed through <https://open.dosm.gov.my>.

**TaniStats 2.0** is a centralised agricultural information hub that provides informative, structured and user-friendly statistical dashboards to strengthen public understanding of patterns and changes in the agriculture sector, thus supporting digital transformation initiatives towards more inclusive and evidence-based policies.
