SUMMARY OF FINDINGS

RINGKASAN PENEMUAN

1. PENGENALAN

Ekonomi dunia menghadapi pelbagai cabaran dan peluang pada tahun 2022. Meskipun serata dunia sedang mengalami pemulihan daripada COVID-19, kesannya tidak sekata di mana terdapat rantau yang mengalami pertumbuhan pesat manakala yang selainnya berhadapan dengan cabaran. Pemulihan ekonomi pasca-pandemik terbukti lebih mencabar daripada yang dijangkakan dengan ketidakpastian yang berterusan telah menjejaskan rantaian bekalan perdagangan. Akibatnya, ekonomi global mengambil masa yang lama untuk pulih, lantas meluaskan lagi jurang antara kumpulan yang paling terkesan iaitu kumpulan berpendapatan rendah serta pemilik perniagaan kecil dan sederhana.

Selain itu, dunia turut berdepan dengan kemelut pergolakan geopolitik, terutamanya pencerobohan Rusia ke atas Ukraine pada Februari 2022. Pergolakan ni menyebabkan krisis kemanusiaan yang semakin membimbangkan serta menjejaskan rantaian bekalan pelbagai komoditi penting, terutamanya yang telah memberi kesan kepada harga minyak mentah Brent. Harga minyak telah melonjak dari harga terendah pada USD9.12 per tong pada April 2020 hingga harga tertinggi pada USD133.18 per tong pada Mac 2022 (**Carta 1**). Oleh itu, kos pengeluaran telah meningkat merentasi pelbagai sektor ekonomi yang telah memberi kesan kepada kebanyakan negara, termasuk Malaysia.

Carta 1: Harga Minyak Mentah Brent Harian (USD per tong), 2013 - 2022

Ketegangan geopolitik lain telah menekan keadaan ekonomi pada tahun 2022. Konflik perdagangan antara United States dan China telah memberi tekanan yang ketara kepada pasaran kewangan. Keadaan ini telah mengakibatkan ketidakstabilan yang ketara dalam pasaran saham dan instrumen kewangan lain, seterusnya meningkatkan ketidakpastian di kalangan pelabur dan perniagaan, terutamanya di negara membangun.

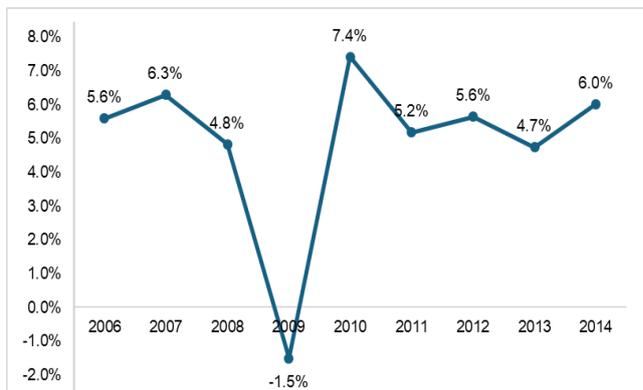

Seperti negara-negara lain, Malaysia turut menghadapi cabaran ekonomi pada ketika itu. Dari segi pertumbuhan ekonomi, Malaysia mengalami peningkatan ekonomi yang ketara kepada 8.9 peratus pada 2022, berbanding 3.3 peratus pada tahun sebelumnya, meningkat daripada pertumbuhan negatif 5.5 peratus pada 2020 (**Carta 2**). Melalui perbandingan di antara keadaan ekonomi 2022 dengan kemelesetan ekonomi pada tahun 2009 yang disebabkan oleh krisis kewangan global, Malaysia menunjukkan pemulihan yang lebih pantas pada 2010, mencapai kadar pertumbuhan sebanyak 7.4 peratus selepas pertumbuhan negatif sebanyak 1.5 peratus pada 2009 (**Carta 3**).

Meninjau prestasi mata wang dalam tempoh dua dekad ini, jelas menunjukkan bahawa Ringgit Malaysia mengalami penyusutan yang ketara pada tahun 2022 berbanding tahun 2009. Keadaan ekonomi global merupakan salah satu faktor yang mempengaruhi penyusutan ini. Berbanding dasar tambatan yang dilaksanakan pada tahun 1999 akibat Krisis Ekonomi Asia, Ringgit mencatatkan RM3.80 pada tahun 1999 berbanding RM4.40 setiap US Dollar pada tahun 2022, menyusut 15.8 peratus seperti yang ditunjukkan dalam (**Carta 4**).

Carta 4: Pergerakan USD/RM bagi tempoh 1999-2023

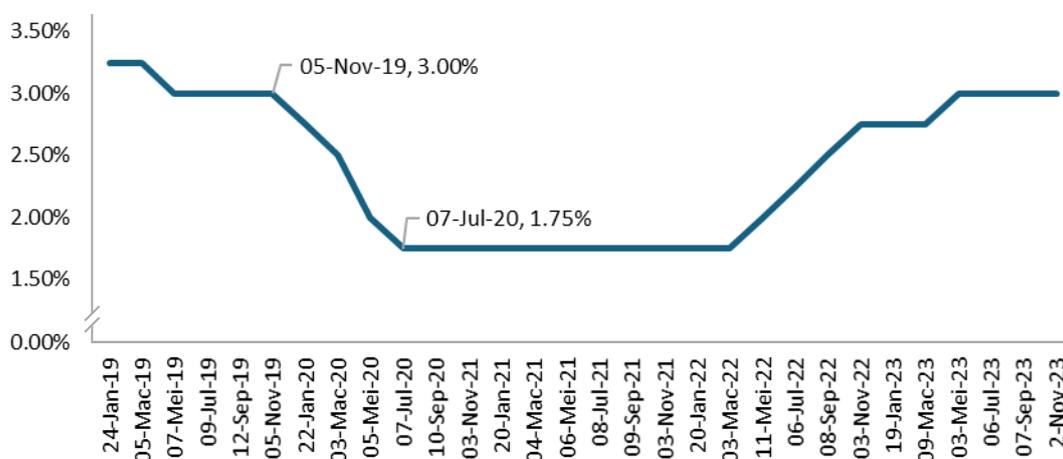

Sumber: Bank Negara Malaysia

RINGKASAN PENEMUAN

Selaras dengan dasar monetari, Kerajaan telah menyelaraskan semula Kadar Dasar Semalaman (OPR) sepanjang tempoh pemulihan. OPR merupakan kadar faedah penting yang ditetapkan oleh Bank Negara Malaysia yang mempengaruhi kadar faedah semalaman. Malaysia mengalami penurunan ketara dalam OPR kepada kadar terendah dalam sejarah, menyusut daripada 3.00 peratus sebelum pandemik kepada 1.75 peratus dalam tempoh lapan bulan (**Carta 5**). Langkah ini dilaksanakan untuk meredakan kesan ekonomi ke atas perniagaan dan isi rumah dengan tujuan meningkatkan kuasa membeli dan merangsang aktiviti ekonomi yang lebih baik. Pengurangan OPR secara signifikan menurunkan kos pinjaman bagi perniagaan dan isi rumah.

Carta 5: Kadar Dasar Semalaman (OPR) 2019-2023

Sumber: Bank Negara Malaysia

Selain menyelaraskan semula dasar monetari, Kerajaan secara proaktif telah merumus dan melaksanakan langkah-langkah pemulihan. Usaha ini merangkumi penyediaan bantuan kewangan kepada kumpulan yang terjejas, melabur dalam infrastruktur dan meningkatkan kapasiti modal insan untuk mengurangkan pengangguran dan mengurangkan kesan ke atas pendapatan isi rumah.

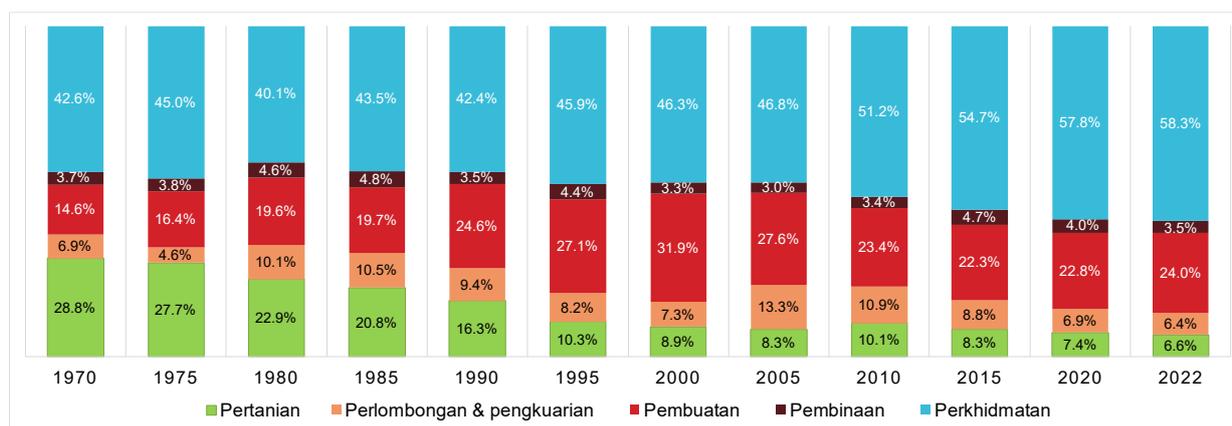

Bagi mendapatkan pemahaman yang lebih baik terhadap struktur ekonomi bagi tahun 2022, Jabatan Perangkaan Malaysia (DOSM) telah menjalankan Banci Ekonomi 2023. Inisiatif ini bertujuan untuk mendapatkan gambaran yang lebih mendalam mengenai pertumbuhan ekonomi dan mengenal pasti sebarang ketidakseimbangan yang memerlukan perhatian serta memberikan gambaran yang lebih jelas tentang keadaan ekonomi negara. Data yang dikumpul daripada banci ini berfungsi sebagai asas bagi Kerajaan, pelabur dan penyelidik untuk membuat keputusan yang lebih baik dan pembentukan strategi dan dasar yang berkesan untuk menggerakkan ekonomi negara ke hadapan.

Oleh itu, laporan ini membentangkan statistik keseluruhan sektor ekonomi berdasarkan penemuan Banci Ekonomi 2023. Ia merangkumi lima (5) sektor utama iaitu Pertanian, Perlombongan & pengkuarian, Pembuatan, Pembinaan dan Perkhidmatan, yang meliputi 1,174 industri.

2. PRESTASI KESELURUHAN EKONOMI

Sepanjang lima dekad yang lalu, struktur ekonomi Malaysia telah berubah dengan pesat. Daripada berpaksikan sektor Pertanian yang penting untuk pembangunan luar bandar, ekonomi mula beralih ke asas perindustrian pada akhir 1980-an. Seperti yang digambarkan dalam **Carta 6** di bawah, menjelang tahun 1990, sumbangan nilai tambah sektor Pembuatan telah meningkat kepada 24.6 peratus (1985: 19.7%), mengatasi sumbangan sektor Pertanian, yang telah menurun kepada 16.3 peratus (1985: 20.8%). Pada tahun-tahun berikutnya, sektor Perkhidmatan berkembang pesat, muncul sebagai industri dominan dalam ekonomi Malaysia dan menyumbang 51.2 peratus pada 2010. Dalam dekad ini, struktur masyarakat yang kompleks telah memacu pertumbuhan sektor Perkhidmatan, yang menyumbang hampir 60.0 peratus pada 2022. Peningkatan ini sebahagian besarnya didorong oleh perkembangan pesat ekonomi digital berikutan pandemik COVID-19, yang mempengaruhi landskap sektor Perkhidmatan global dan Malaysia.

Carta 6: Evolusi Ekonomi Malaysia 1970 - 2022

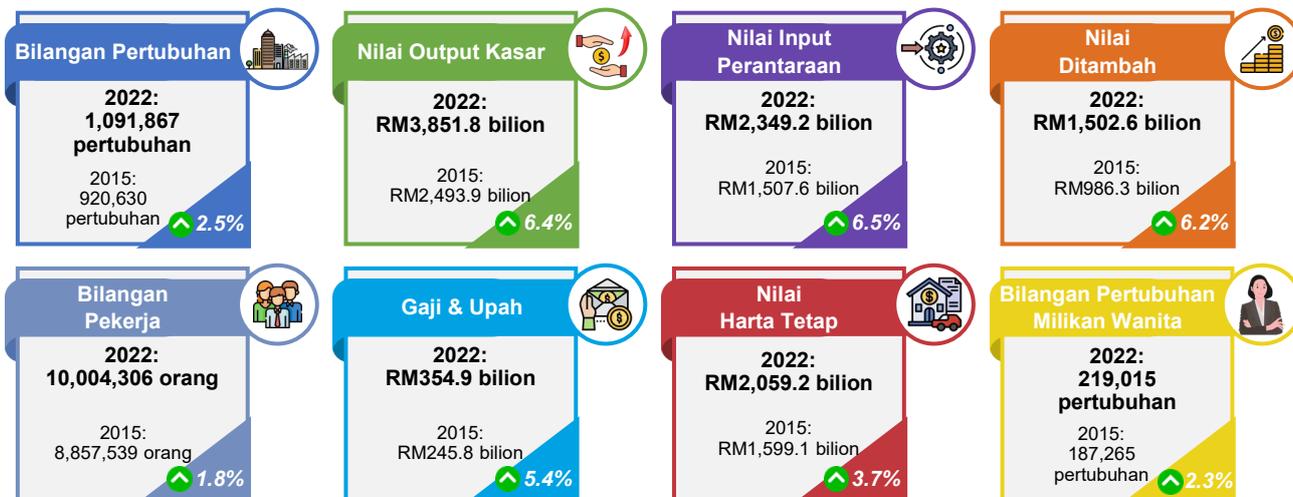

Sumber: Jabatan Perangkaan Malaysia

Statistik utama sektor ekonomi Malaysia secara keseluruhan pada tahun 2022 menunjukkan prestasi yang memberangsangkan. Bilangan pertubuhan pada tahun 2022 merekodkan 1,091,867 pertubuhan berbanding 920,630 pertubuhan pada tahun 2015. Nilai output kasar mencatatkan RM3,851.8 bilion pada tahun 2022 berbanding RM2,493.9 bilion pada tahun 2015 (**Paparan 1**). Input perantara meningkat daripada RM1,507.6 bilion kepada RM2,349.2 bilion, atau pertumbuhan tahunan 6.5 peratus bagi tempoh 2015 ke 2022. Seterusnya, nilai ditambah mencatatkan nilai sebanyak RM1,502.6 bilion pada tahun 2022 berbanding RM986.3 bilion pada tahun 2015. Bilangan pekerja yang terlibat pada tahun 2022 ialah seramai 10,004,306 orang, lebih tinggi daripada 8,857,539 orang pada tahun 2015. Bilangan pekerja yang lebih tinggi mendorong kepada jumlah gaji & upah lebih tinggi pada tahun 2022 iaitu sebanyak RM354.9 bilion berbanding RM245.8 bilion pada tahun 2015. Bilangan pertubuhan milikan wanita mencatatkan 219,015 pertubuhan pada tahun 2022 berbanding 187,265 pertubuhan pada tahun 2015.

Ini diikuti dengan sektor Perkhidmatan (2.2%), Pertanian (1.6%) dan Pembuatan (1.5%) seperti yang digambarkan dalam **Paparan 2**.

Paparan 2: Bilangan Pertubuhan mengikut Sektor, 2015 dan 2022

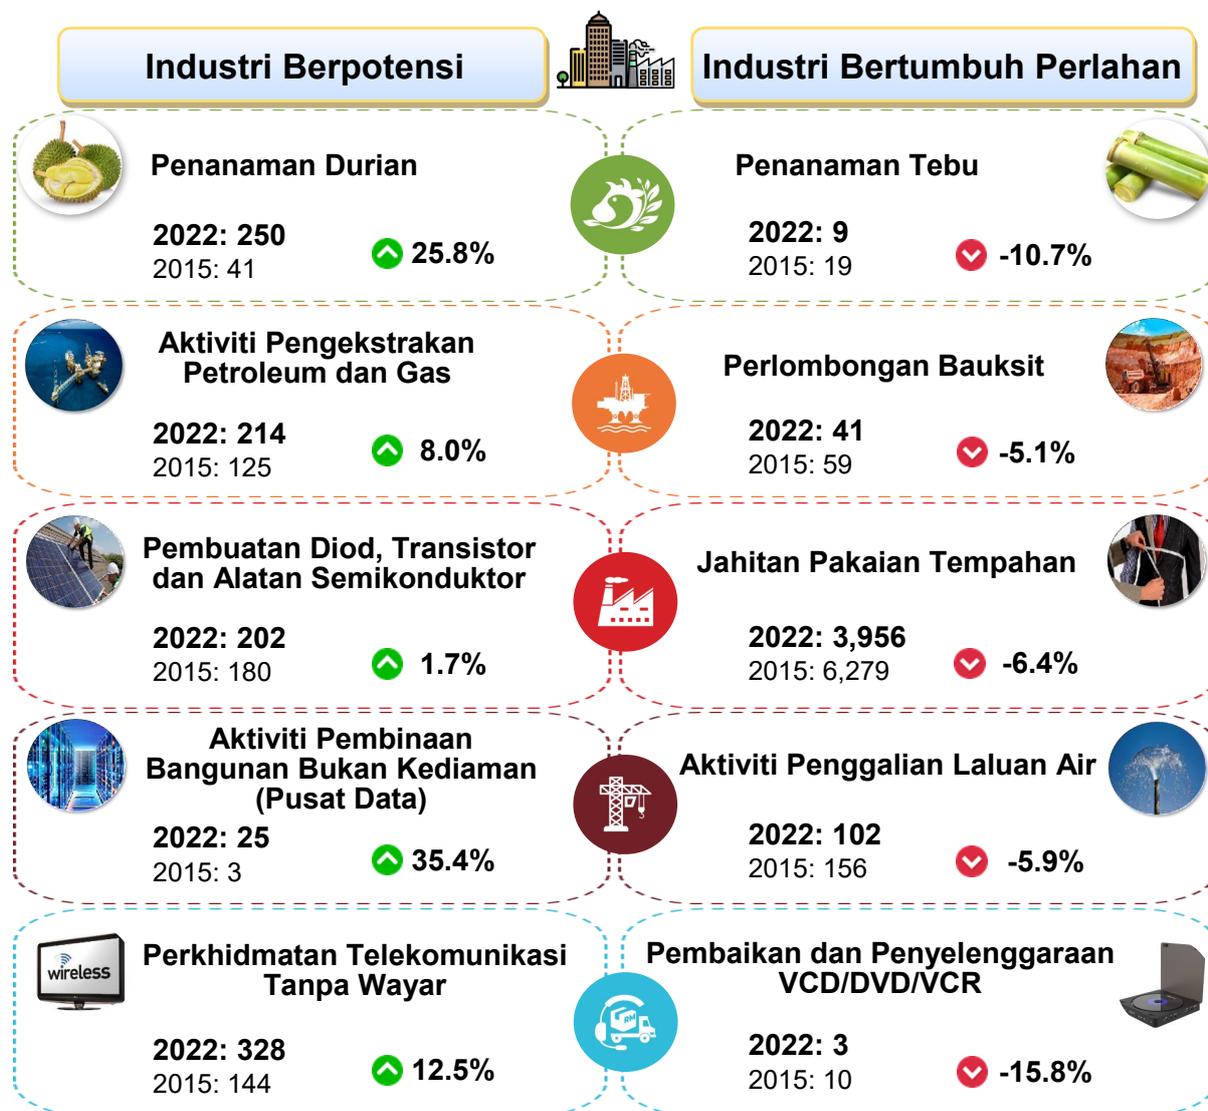

▲ CAGR 2022/2015

RINGKASAN PENEMUAN

Banci Ekonomi 2023 menunjukkan pertumbuhan beberapa industri, didorong oleh peralihan pasca COVID-19 ke arah pendigitalan, perubahan dalam citarasa pengguna dan trend global. Selaras dengan pendigitalan, peningkatan ketara telah dikenal pasti dalam banci termasuk Perkhidmatan telekomunikasi tanpa wayar dan aktiviti Pembinaan bangunan bukan kediaman yang dirangsang oleh pertumbuhan dalam pusat data. Sementara itu dalam faktor perubahan citarasa pengguna, peningkatan dalam aktiviti Penanaman durian telah mencapai tahap baharu di Malaysia dan pasaran global. Aktiviti Perkhidmatan pengestrakan minyak dan gas serta Pembuatan diod, transistor dan alatan semikonduktor menunjukkan pertumbuhan dalam bilangan pertubuhan, disokong oleh aliran global semasa.

Namun begitu, Banci Ekonomi 2023 mencatatkan penurunan dalam bilangan pertubuhan terutamanya dalam aktiviti Pembaikan dan penyelenggaraan aktiviti VCD/DVD/VCR, Jahitan pakaian tempahan, Perlombongan bauksit dan Penanaman tebu seperti ditunjukkan dalam **Paparan 3**.

SUMMARY OF FINDINGS

1. INTRODUCTION

The world economy was marked by challenges and opportunities in 2022. While recovery from the COVID-19 pandemic continued in many parts across the globe, it was unevenly distributed with some regions experiencing rapid growth while others faced setbacks. The post-pandemic economic recovery proved less seamless than anticipated with the prevailing uncertainty further disrupting the trade supply chain. As a result, the global economy took significant time to bounce back, whilst widening the gap among the most affected groups namely low-income earners as well as small and medium-sized enterprise owners.

Moreover, the world grappled with geopolitical turmoil, particularly on Russia's invasion of Ukraine in February 2022. The tension escalated into a costly humanitarian crisis and disrupted the supply chain of numerous essential commodities, particularly impacting Brent crude oil prices. The price surged from its lowest price of USD9.12 per barrel in April 2020 to its peak of USD133.18 per barrel in March 2022 (**Chart 1**). As such, production costs surged across various economic sectors, affecting many countries, including Malaysia.

Other geopolitical tensions have strained the economic conditions in 2022. Trade disputes between the United States and China have pressured financial markets significantly. These circumstances have resulted in substantial volatility in stock markets and other financial instruments, amplifying uncertainty among investors and businesses, especially in developing countries.

SUMMARY OF FINDINGS

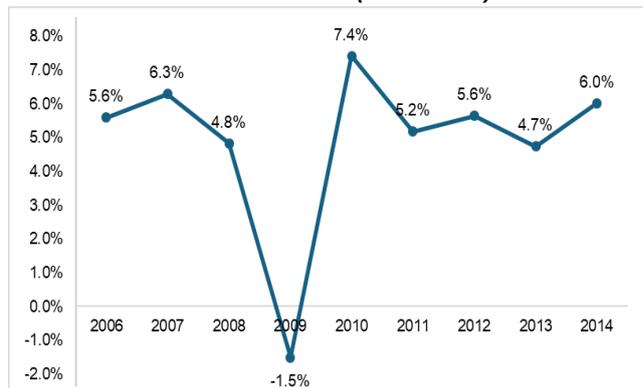

Like other countries, Malaysia faced economic challenges during this period. In terms of economic growth, Malaysia's economy experienced a notable improvement of 8.9 per cent in 2022, compared to the previous year of 3.3 per cent, rebounding from a negative growth of 5.5 per cent in 2020 (Chart 2). Comparing the 2022 economic condition with the economic recession in 2009 due to the global financial crisis, Malaysia demonstrated a swifter recovery in 2010, achieving a growth rate of 7.4 per cent following negative growth of 1.5 per cent in 2009 (Chart 3).

Looking at the currency performance over two decades, it is evident that the Malaysian Ringgit experienced significant depreciation in 2022 as compared to 2009. Global economic conditions were one of the factors that influence this depreciation. As against the pegging policy, which was implemented in 1999 due to the Asian Economic Crisis, the Ringgit posted RM3.80 in 1999 as opposed to RM4.40 per US Dollar in 2022, depreciating by 15.8 per cent as depicted in Chart 4.

SUMMARY OF FINDINGS

In line with the monetary policy, Government has realigned its Overnight Policy Rate (OPR) throughout the recovery period. The OPR, a pivotal interest rate set by Bank Negara Malaysia, influences overnight market interest rates. Malaysia experienced a significant decline in the OPR to its lowest rate in history, from 3.00 per cent prior to the pandemic to 1.75 per cent in just eight months (**Chart 5**). The measure was implemented to mitigate the economic impacts on businesses and households, aiming to bolster purchasing power and stimulate better economic activity. The OPR reduction significantly lowered borrowing costs for businesses and households.

In addition to realigning monetary policy, the Government has proactively formulated and implemented recovery measures. These efforts encompass providing financial assistance to affected groups, investing in infrastructure and enhancing human capital to alleviate unemployment and mitigate the impact on household income.

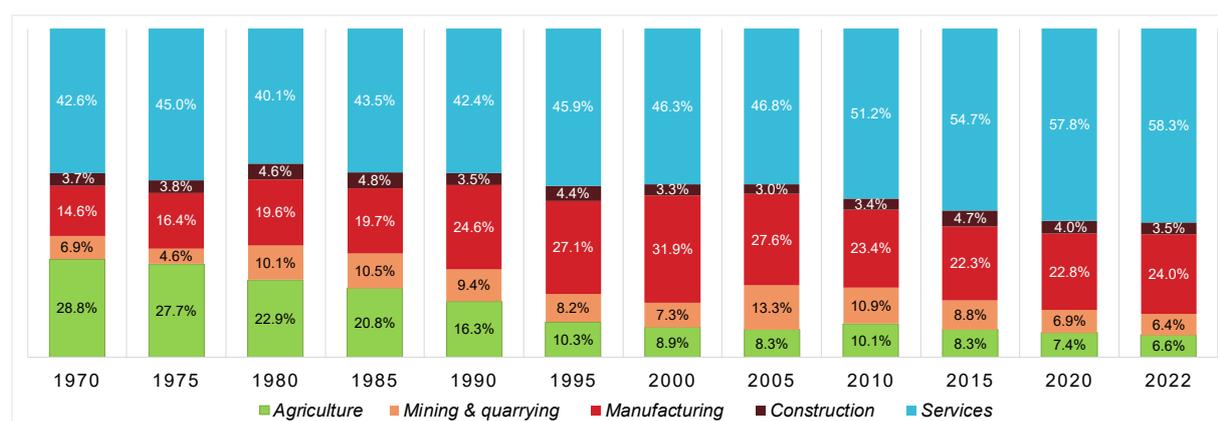

In order to gain a better understanding on the economic structure for the year of 2022, the Department of Statistics Malaysia (DOSM) has conducted the Economic Census 2023. This initiative aims to gain deeper insights on the economic growth and identify any imbalances that require attention as well as providing a clearer picture on the country's economic conditions. The data collected from this census serves as a foundation for the Government, investors and researchers to make informed decisions as well as develop effective strategies and policies to drive the country's economy forward.

Therefore, this report presents the overall economic sectors' statistics based on the Economic Census 2023 findings. It comprises five (5) main sectors namely Agriculture, Mining & quarrying, Manufacturing, Construction and Services, which cover 1,174 industries.

2. OVERALL ECONOMIC PERFORMANCE

Over the past five decades, Malaysia's economic structure has transformed tremendously. Initially anchored in the Agriculture sector which was vital for rural development, the economy began shifting towards an industrial base at the end of the 1980s. As shown in **Chart 6** below, by 1990, the Manufacturing sector's contribution to the value added had risen to 24.6 per cent (1985: 19.7%), exceeding the Agriculture sector's contribution, which had declined to 16.3 per cent (1985: 20.8%). Throughout the years, the Services sector rapidly expanded, emerged as the dominant industry in the Malaysian economy and contributed 51.2 per cent in 2010. In this decade, the complex societal structure has further fuelled the growth of the Services sector, which accounted for nearly 60.0 per cent in 2022. The increase was largely driven by the rapid expansion of the digital economy following the COVID-19 pandemic, influencing the global and Malaysian Services sector landscapes.

Chart 6: The Evolution of The Malaysian Economy 1970 - 2022

Liputan bagi keseluruhan sektor merangkumi 1,200 kategori industri seperti yang ditunjukkan pada **Jadual 1**.

Jadual 1 : Bilangan industri mengikut sektor

| Sektor | Bilangan Industri |

Sumber utama data pentadbiran adalah daripada SSM.

Selain itu, DOSM juga bekerjasama untuk mendapatkan maklumat terkini daripada agensi lain seperti Kumpulan Wang Simpanan Pekerja (KWSP), Jabatan Kastam Diraja Malaysia, Lembaga Hasil Dalam Negeri (LHDN), Pertubuhan Keselamatan Sosial (PERKESO), PBT dan badan profesional. The establishment is requested to give separate returns for each activity in terms of value.
