PEMAKLUMAN / ANNOUNCEMENT

Jabatan Perangkaan Malaysia (DOSM) telah melancarkan OpenDOSM NextGen sebagai medium yang menyediakan katalog data dan visualisasi bagi memudahkan pengguna menganalisis pelbagai data dan boleh diakses melalui portal <https://open.dosm.gov.my>.

Kerajaan Malaysia telah mengisytiharkan Hari Statistik Negara (MyStats Day) pada 20 Oktober. Tema sambutan MyStats Day adalah "Statistik Nadi Kehidupan".

The Department of Statistics Malaysia (DOSM) has launched OpenDOSM NextGen as a medium that provides catalogue data and visualisations to facilitate users' analysis and can be accessed through <https://open.dosm.gov.my>.

The Government of Malaysia has declared National Statistics Day (MyStats Day) on October 20th. MyStats Day theme is "Statistics is the Essence of Life".

KATA PENGANTAR

Penerbitan ini memaparkan statistik bagi sektor pembinaan yang disusun daripada **Survei Pembinaan Suku Tahunan**. Kontraktor utama dengan projek bernilai RM500,000 dan ke atas yang berdaftar dengan Lembaga Pembangunan Industri Pembinaan (LPIP) Malaysia diliputi dalam survei ini.

Data yang dilaporkan adalah berdasarkan kepada nilai kerja pembinaan bagi tempoh rujukan suku tahun pertama 2008 hingga suku tahun keempat 2024. Ia juga memuatkan maklumat pembinaan mengikut jenis aktiviti, negeri dan pemilik projek iaitu kerajaan, swasta dan perbadanan awam. Data tersebut digunakan bagi tujuan membuat perancangan pembangunan dan penggubalan dasar serta pengunjuran dan analisis ekonomi oleh kerajaan dan penyelidik.

Nota teknikal berkaitan dengan objektif, skop dan liputan serta konsep dan definisi yang digunakan turut dimuatkan dalam penerbitan ini bagi meningkatkan kefahaman berkenaan dengan data tersebut.

Jabatan Perangkaan Malaysia merakamkan penghargaan atas kerjasama yang diberikan oleh responden dan juga semua pihak yang telah menyumbang secara langsung dan tidak langsung dalam menjayakan penerbitan ini. Setiap maklum balas dan cadangan untuk penambahbaikan penerbitan ini pada masa akan datang amat dihargai.

DATO' SRI DR. MOHD UZIR MAHIDIN

Ketua Perangkawan Malaysia

Februari 2025

PREFACE

*This publication presents statistics for the construction sector, compiled from the **Quarterly Construction Survey**. Main contractor with projects worth RM500,000 and above, registered with the Construction Industry Development Board (CIDB) Malaysia is covered in this survey.*

The data presented is based on the value of work done for the reference period from the first quarter 2008 to the fourth quarter 2024. It also presents the construction data by type of activity, state and project owner, namely government, private sector and public corporation. The data is used for planning and policy formulation as well as for economic projection and analysis by the government and researchers.

Technical notes related to the objective, scope and coverage together with concepts and definitions used, are also included in this publication to enhance the understanding of the data.

The Department of Statistics Malaysia gratefully acknowledges the co-operation rendered by the respondents as well as all parties who have contributed directly and indirectly in making this publication a success. Every feedback and suggestion towards improving future publication is highly appreciated.

DATO' SRI DR. MOHD UZIR MAHIDIN

Chief Statistician Malaysia

The background of the slide is a sepia-toned photograph of a large-scale construction project. On the right side, a tall building is under construction, completely encased in a dense network of metal scaffolding. To the left, a long construction crane extends its arm across the frame. The ground in the foreground is a flat, dusty construction site. The overall atmosphere is one of industrial activity and development.

RINGKASAN PENEMUAN

1. Prestasi Sektor Pembinaan

Nilai kerja dalam sektor Pembinaan berjumlah RM42.0 bilion (ST3 2024: RM41.1 bilion) pada suku keempat 2024, mencatatkan pertumbuhan yang ketara sebanyak 23.1 peratus, meningkat daripada 22.9 peratus pada suku sebelumnya. Berasaskan suku tahun ke suku tahun, nilai kerja pembinaan meningkat sebanyak 2.4 peratus pada suku tahun keempat 2024 seperti di Carta 1.

Carta 1: Nilai kerja pembinaan dan perubahan peratus, ST1 2021 - ST4 2024

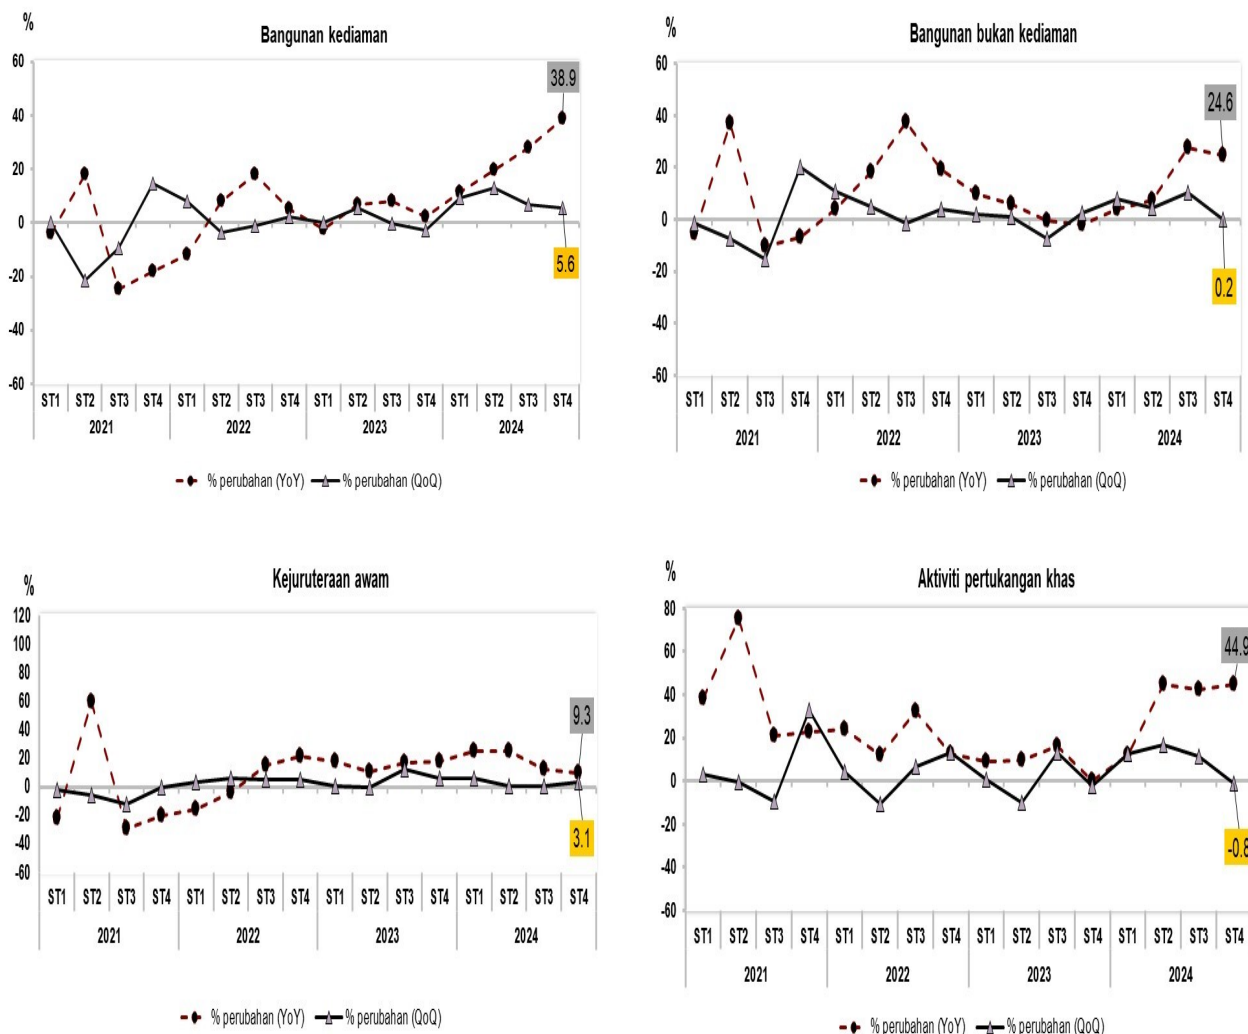

2. Prestasi mengikut Subsektor

Prestasi yang memberangsangkan ini didorong terutamanya oleh peningkatan kukuh dalam subsektor Aktiviti pertukangan khas dan Bangunan kediaman, yang masing-masing mencatatkan pertumbuhan dua digit yang ketara sebanyak 44.9 peratus (ST3 2024: 42.6%) dan 38.9 peratus (ST3 2024: 27.8%). Subsektor Bangunan bukan kediaman turut menyumbang kepada pertumbuhan dengan peningkatan sebanyak 24.6 peratus (ST3 2024: 27.7%). Sementara itu, subsektor Kejuruteraan awam terus berkembang, walaupun pada kadar yang lebih perlahan, dengan kadar pertumbuhan positif sebanyak 9.3 peratus (ST3 2024: 12.0%) seperti di Carta 2.

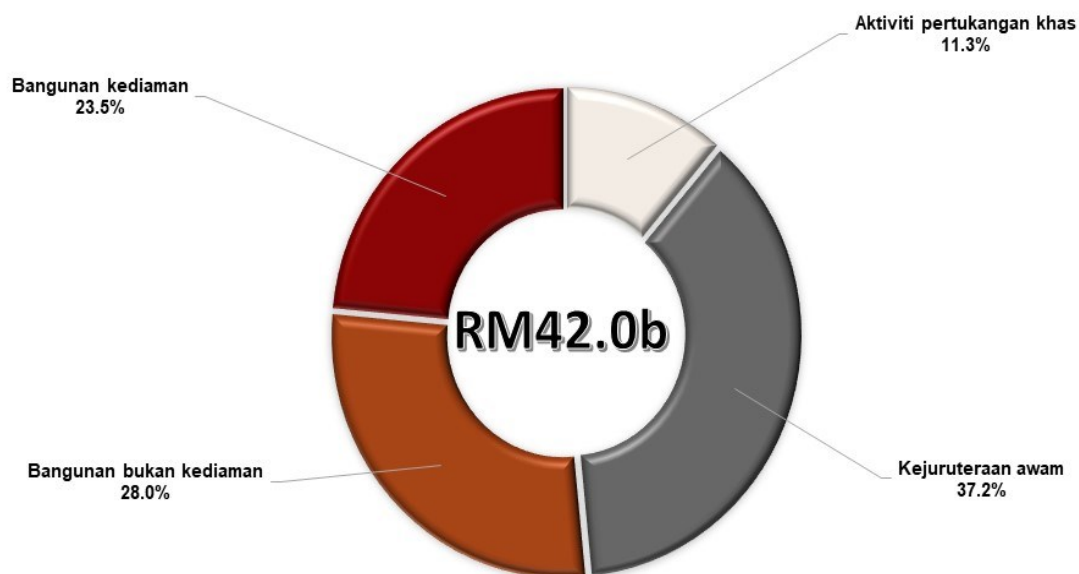

Subsektor Bangunan kediaman dan Kejuruteraan awam mencatatkan pertumbuhan sederhana dalam perbandingan suku ke suku tahun masing-masing pada 5.6 peratus (ST3 2024: 6.6%) dan 3.1 peratus (ST3 2024: 0.1%). Pada masa yang sama, subsektor Bangunan bukan kediaman meningkat secara perlahan sebanyak 0.2 peratus (ST3 2024: 10.5%). Sementara itu, subsektor Aktiviti pertukangan khas menurun secara perlahan sebanyak 0.8 peratus (ST3 2024: 11.2%) seperti di Carta 2.

Carta 2: Perubahan peratus tahunan mengikut subsektor, ST1 2021 - ST4 2024

Subsektor Kejuruteraan awam kekal sebagai penyumbang utama nilai kerja pembinaan, dengan sumbangan terbesar sebanyak 37.2 peratus. Ini diikuti oleh subsektor Bangunan bukan kediaman dengan sumbangan sebanyak 28.0 peratus. Pada masa yang sama, subsektor Bangunan kediaman dan Aktiviti pertukangan khas masing-masing menyumbang sebanyak 23.5 peratus dan 11.3 peratus seperti di Carta 3.

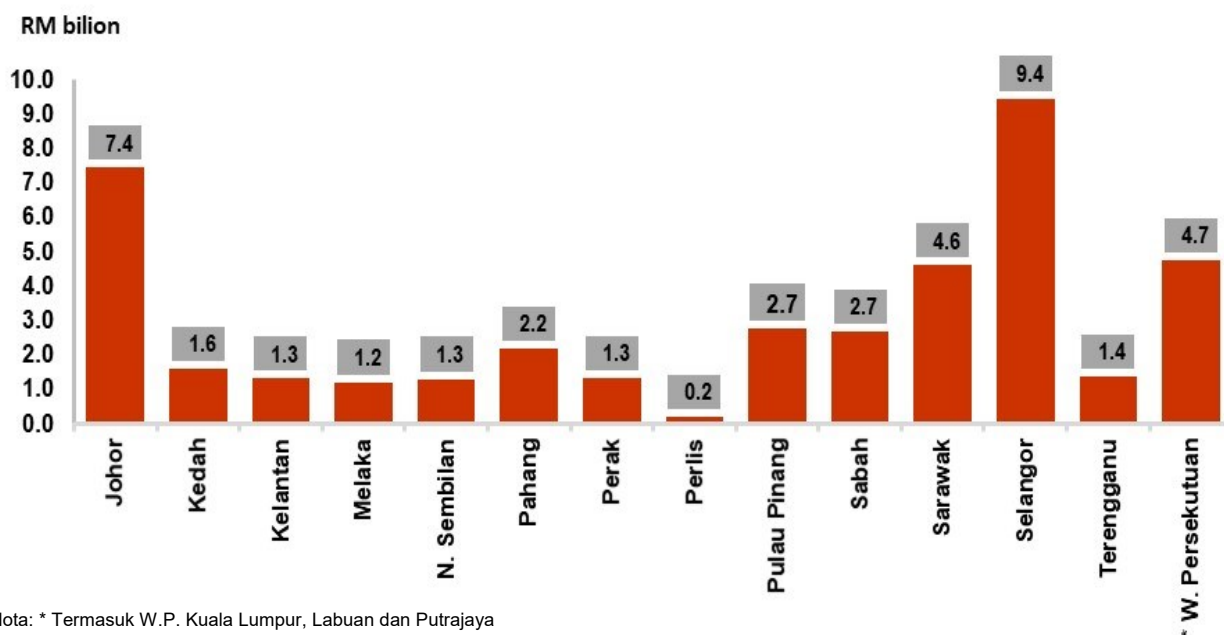

Carta 3: Peratus sumbangan nilai kerja pembinaan mengikut subsektor, ST4 2024

3. Nilai Kerja Pembinaan mengikut Lokasi Projek

Selangor merekodkan nilai kerja pembinaan tertinggi iaitu sebanyak RM9.4 bilion atau 22.5 peratus. Sementara itu, Johor menduduki tempat kedua dengan nilai RM7.4 bilion atau 17.7 peratus. Pada masa yang sama, nilai kerja di Wilayah Persekutuan adalah RM4.7 bilion (11.3%), manakala Sarawak mencatatkan RM4.6 bilion (10.9%). Keempat-empat negeri ini secara kolektif menyumbang RM26.2 bilion atau 62.3 peratus daripada nilai kerja pembinaan seperti di Carta 4.

Carta 4: Nilai kerja pembinaan mengikut lokasi projek, ST4 2024

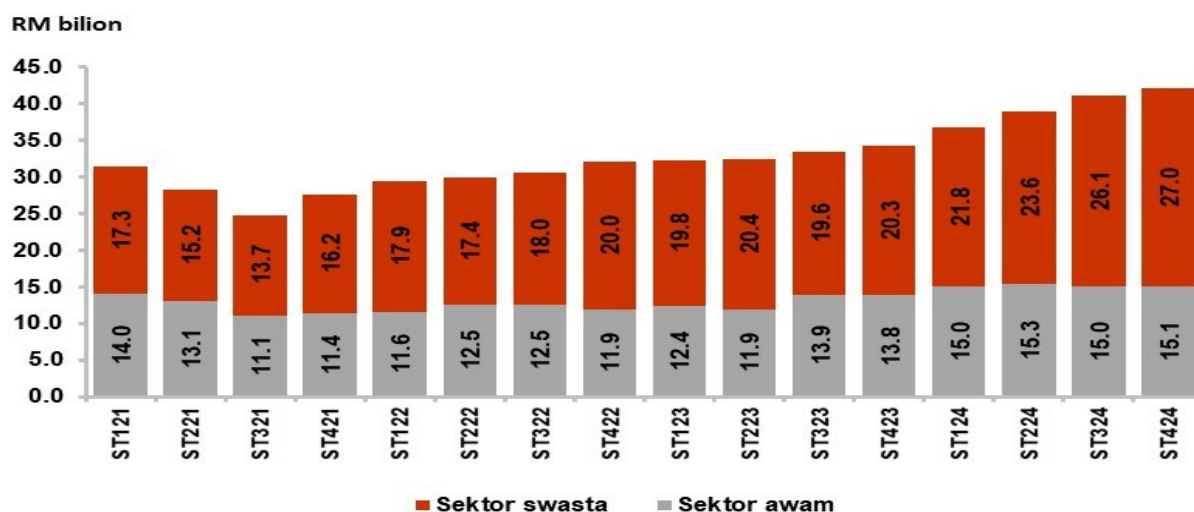

Nota: * Termasuk W.P. Kuala Lumpur, Labuan dan Putrajaya

4. Pembinaan mengikut Pemilik Projek

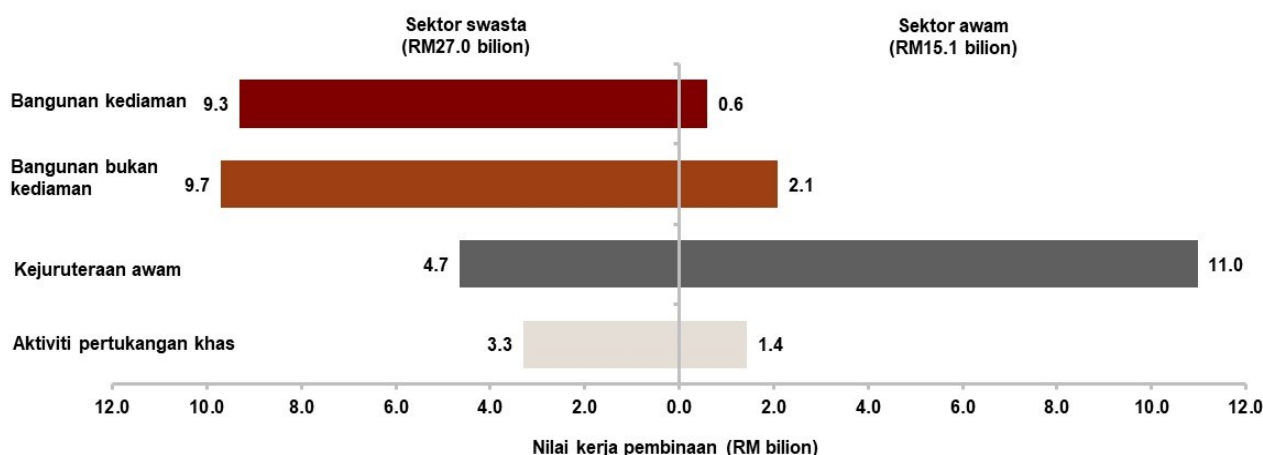

Sektor swasta terus menjadi pemacu utama pertumbuhan pada suku ini, menyumbang RM27.0 bilion atau 64.2 peratus daripada jumlah nilai keseluruhan. Sektor swasta mencatatkan pertumbuhan yang ketara sebanyak 32.9 peratus (ST3 2024: 33.3%). Sebaliknya, sektor awam yang menyumbang 35.8 peratus atau RM15.1 bilion mencatatkan pertumbuhan yang lebih perlahan sebanyak 8.8 peratus (ST3 2024: 8.1%). seperti di Carta 5.

Carta 5: Nilai kerja pembinaan mengikut pemilik projek, ST1 2021 - ST4 2024

Nilai kerja pembinaan subsektor Bangunan bukan kediaman dan Bangunan kediaman kekal signifikan bagi projek yang dimiliki sektor swasta iaitu masing-masing menyumbang sebanyak 36.0 peratus (RM9.7 bilion) dan 34.5 peratus (RM9.3 bilion). Selain itu, projek milikan sektor awam pula disokong oleh subsektor Kejuruteraan awam dengan sumbangan sebanyak 72.9 peratus (RM11.0 bilion) seperti di Carta 6.

Carta 6: Nilai kerja pembinaan mengikut pemilik projek dan subsektor, ST4 2024

5. Nilai Kerja Pembinaan Tahunan

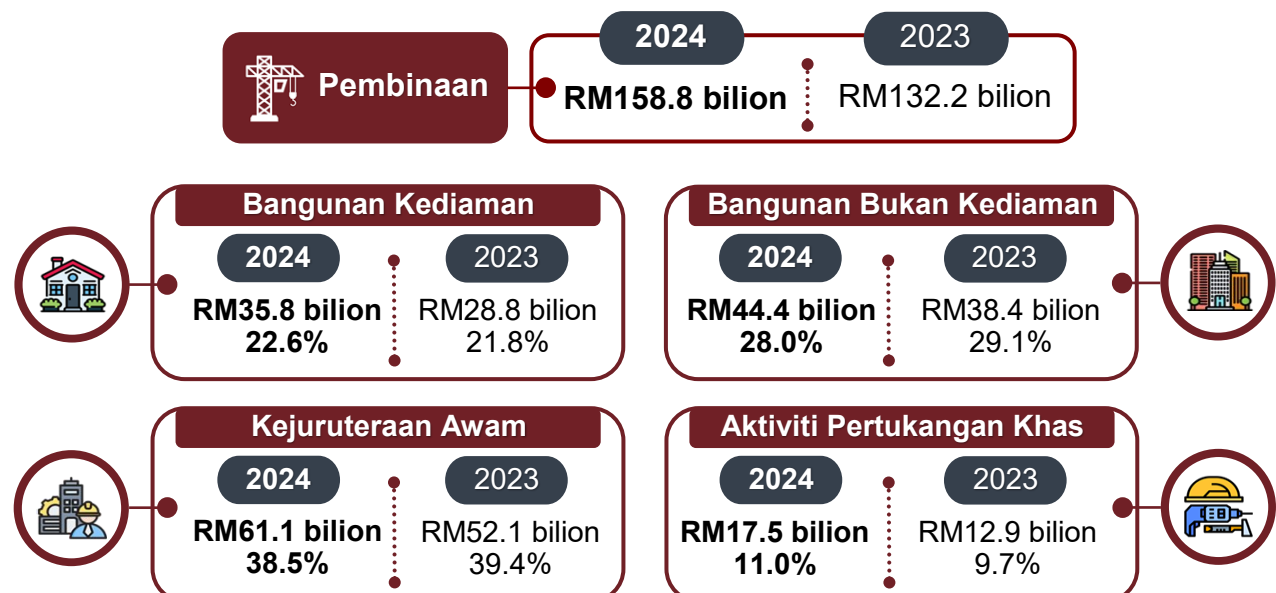

Pada tahun 2024, nilai kerja pembinaan mencatatkan pertumbuhan dua digit sebanyak 20.2 peratus (2023: 8.4%) kepada RM158.8 bilion berbanding RM132.2 bilion pada tahun sebelumnya seperti di Carta 7.

Carta 7 : Nilai kerja pembinaan dan perubahan peratus tahunan, 2015 - 2024

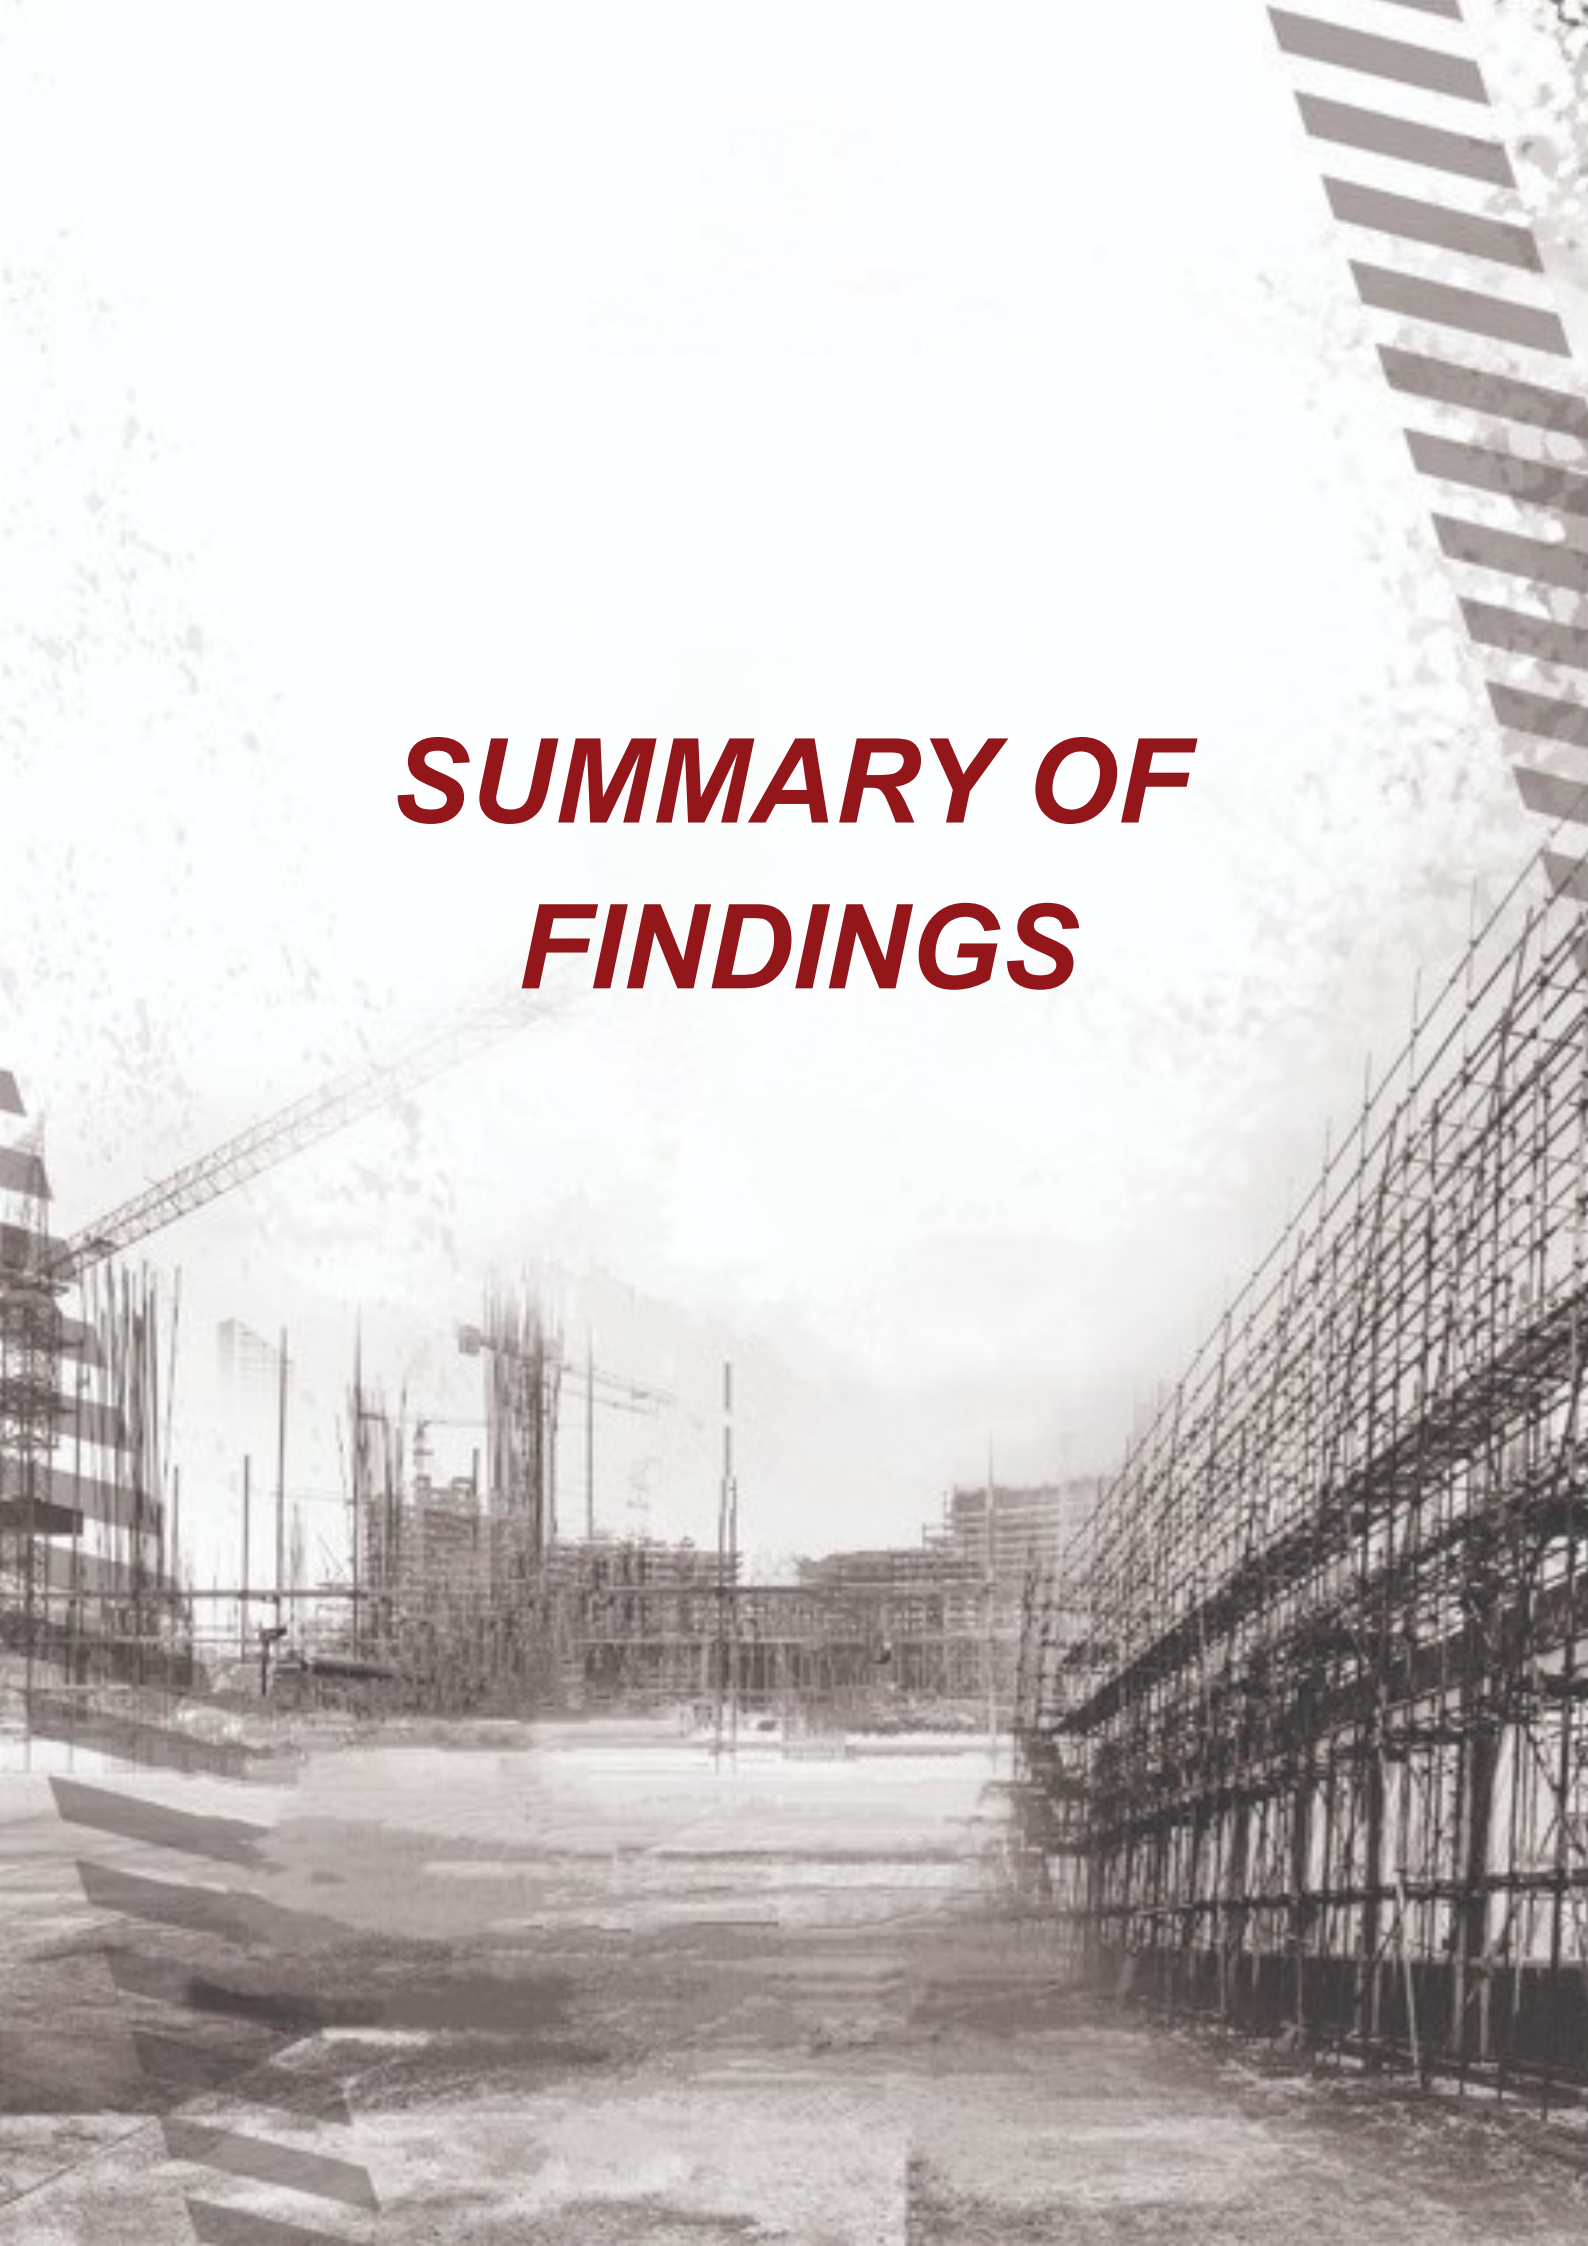

Semua subsektor mencatatkan pertumbuhan yang positif dalam nilai kerja pembinaan seperti berikut: Subsektor Aktiviti pertukangan khas (35.9%), diikuti oleh Bangunan kediaman (24.5%), Kejuruteraan awam (17.3%) dan Bangunan bukan kediaman (15.5%). Subsektor Kejuruteraan awam dan Bangunan bukan kediaman mewakili lebih dua pertiga daripada jumlah nilai kerja pembinaan pada 2024 seperti di Paparan 1.

Paparan 1 : Sumbangan nilai kerja pembinaan mengikut subsektor pembinaan, 2024 dan 2023

SUMMARY OF FINDINGS

1. Performance of The Construction Sector

The value of work done in the Construction sector reached RM42.0 billion (Q3 2024: 41.1 billion) in the fourth quarter of 2024, reflecting a significant increase of 23.1 per cent, up from 22.9 per cent in the previous quarter. On a quarter-on-quarter basis, the value of work done increased by 2.4 per cent in the fourth quarter of 2024 as in Chart 1.

Chart 1: Value of work done and percentage change, Q1 2021 - Q4 2024

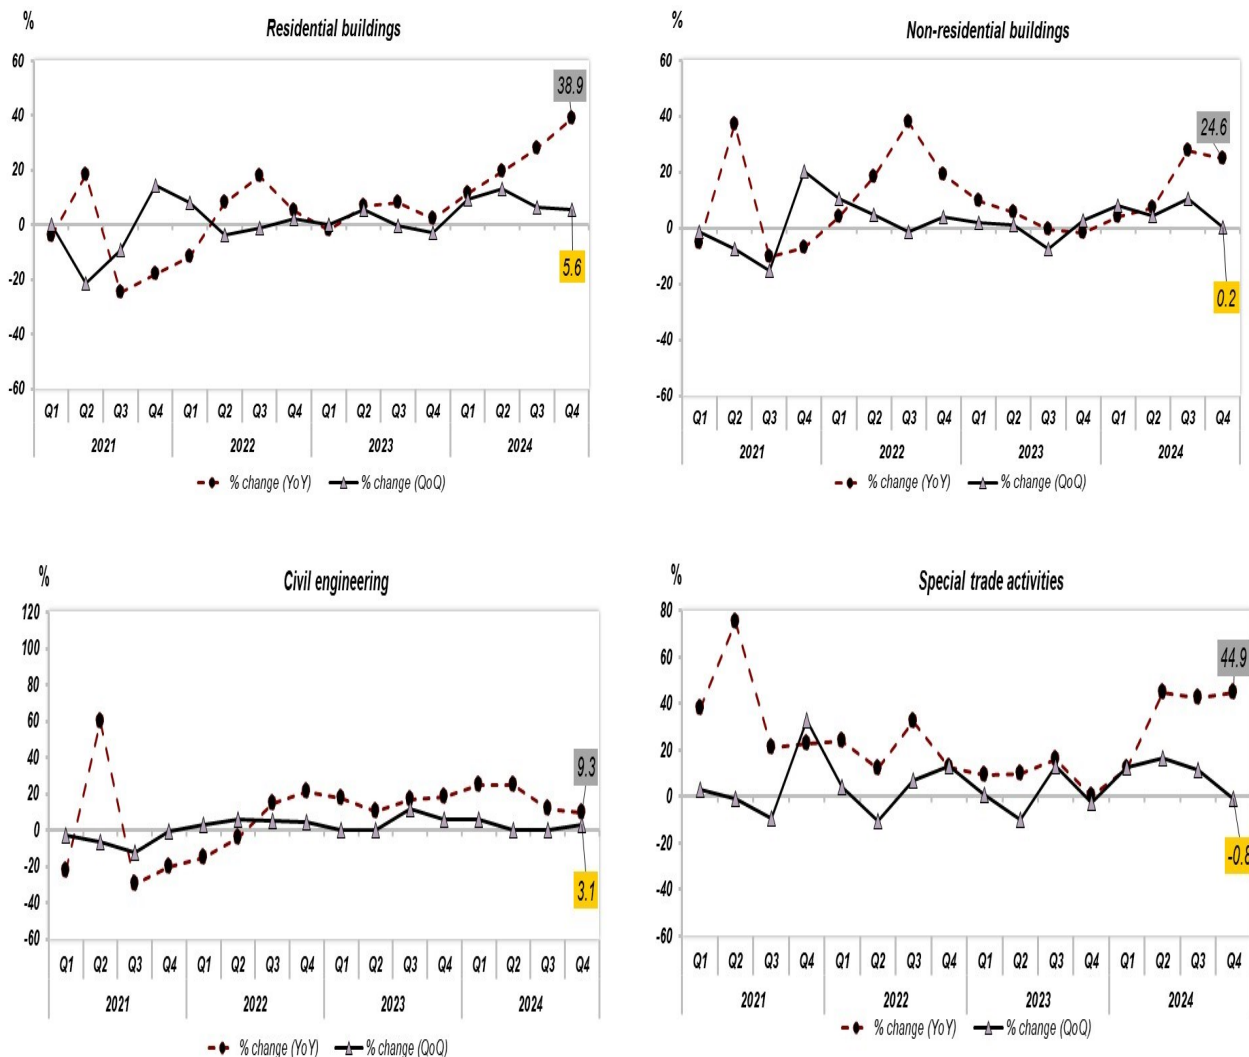

2. Performance by Sub-sector

The vibrant performance was primarily driven by the buoyant performance of the Special trade activities and Residential buildings sub-sectors, which recorded substantial double-digit increases of 44.9 per cent (Q3 2024: 42.6%) and 38.9 per cent (Q3 2024: 27.8%), respectively. The Non-residential building sub-sector also contributed to the growth by recording 24.6 per cent (Q3 2024: 27.7%). In the meantime, the Civil engineering sub-sector remained expanded, albeit at a slower rate, contributing positively with a 9.3 per cent (Q3 2024: 12.0%) growth rate as in Chart 2.

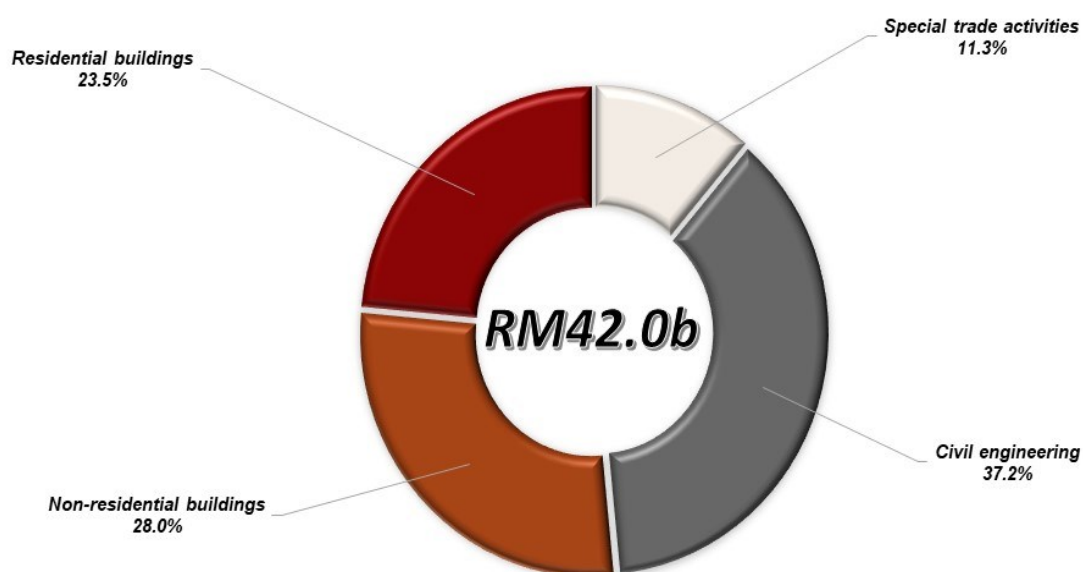

The Residential buildings and Civil engineering sub-sectors recorded modest growth in a quarter-on-quarter comparison of 5.6 per cent (Q3 2024: 6.6%) and 3.1 per cent (Q3 2024: 0.1%) respectively. In the meantime, the Non-residential buildings sub-sector posted a slight increase of 0.2 per cent (Q3 2024: 10.5%). Meanwhile, the Special trade activities sub-sector declined marginally by 0.8 per cent (Q3 2024: 11.2%) as in Chart 2.

Chart 2: Annual percentage change by sub-sector, Q1 2021 - Q4 2024

The Civil engineering sub-sector remained the main contributor to the overall value of construction work done, holding the largest share of 37.2 per cent. This was followed by the Non-residential buildings sub-sector with a share of 28.0 per cent. In the meantime, the Residential buildings and Special trade activities sub-sectors contributed 23.5 per cent and 11.3 per cent respectively as in Chart 3.

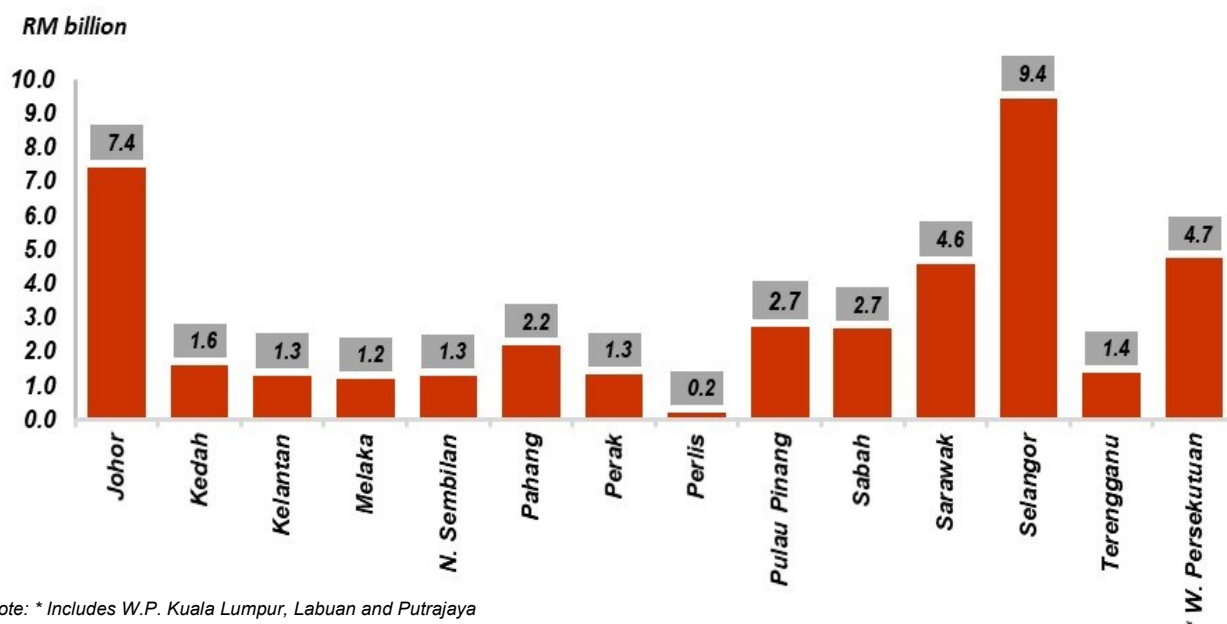

Chart 3: Percentage share value of work done by sub-sector, Q4 2024

3. Value of Work Done by Location of Project

Selangor recorded the highest value of Construction work done at RM9.4 billion or 22.5 per cent. Meanwhile, Johor ranked second with a value of RM7.4 billion or 17.7 per cent. In the meantime, the value of work done in Wilayah Persekutuan was RM4.7 billion (11.3%), while Sarawak recorded RM4.6 billion (10.9%). These four states collectively made up to RM26.2 billion or 62.3 per cent of the total value work done as shown in Chart 4.

Chart 4: Value of work done by location of project, Q4 2024

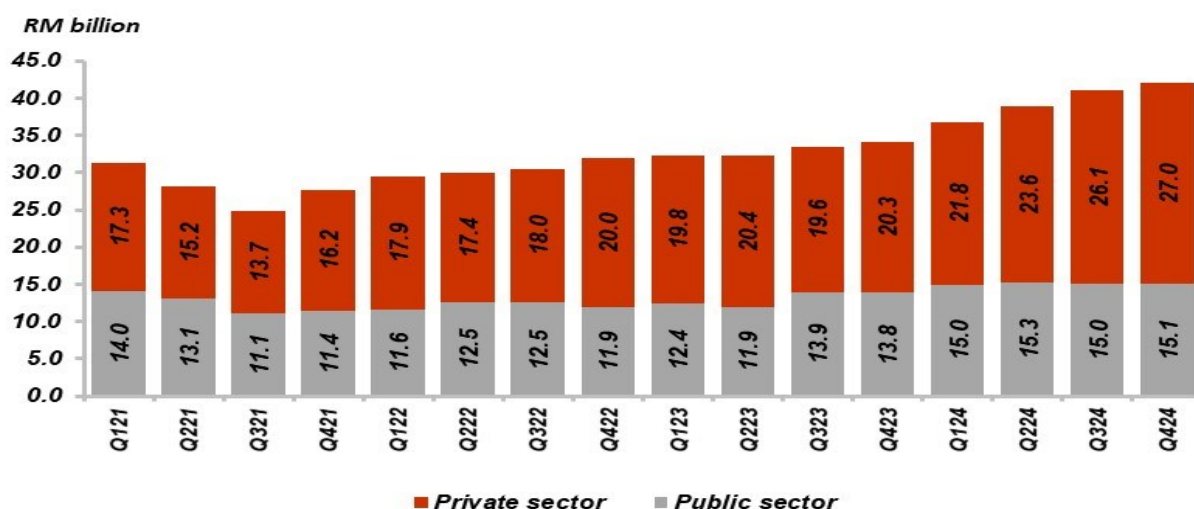

Note: * Includes W.P. Kuala Lumpur, Labuan and Putrajaya

4. Construction by Project Owner

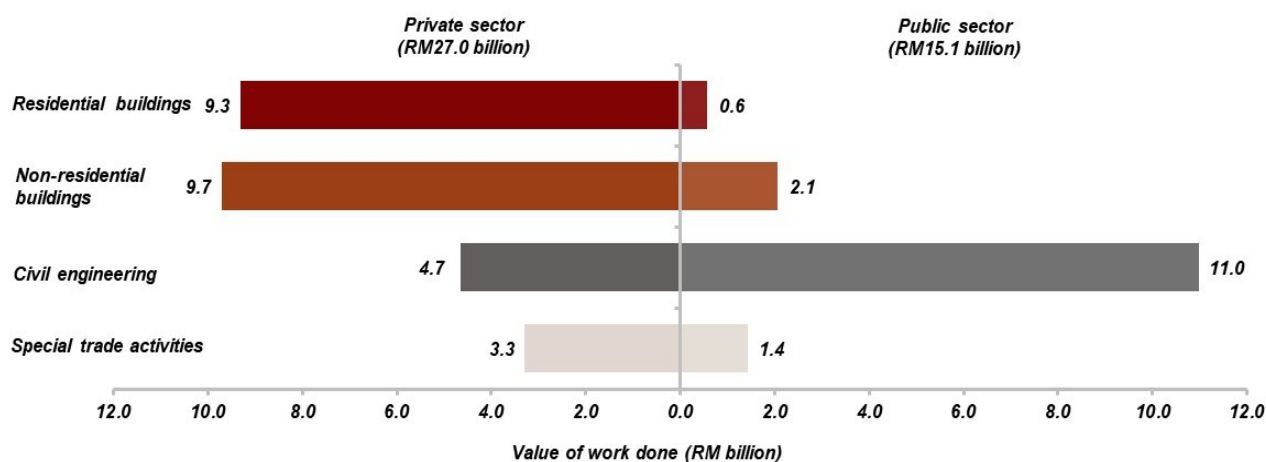

The private sector remained as the main impetus to the growth in this quarter, contributing RM27.0 billion or 64.2 per cent of the total value. The private sector recorded a notable expansion of 32.9 per cent (Q3 2024: 33.3%). In contrast, the public sector, which accounted for 35.8 per cent of share valued at RM15.1 billion, recorded more moderate growth of 8.8 per cent (Q3 2024: 8.1%) as in Chart 5.

Chart 5: Value of work done by project owner , Q1 2021 - Q4 2024

The value of work done in the Non-residential buildings and Residential buildings sub-sectors remained significant in project owned by the private sector, contributing 36.0 per cent (RM9.7 billion) and 34.5 per cent (RM9.3 billion) respectively. Meanwhile, projects owned by the public sector were underpinned by the Civil engineering sub-sector with a share of 72.9 per cent (RM11.0 billion) as in Chart 6.

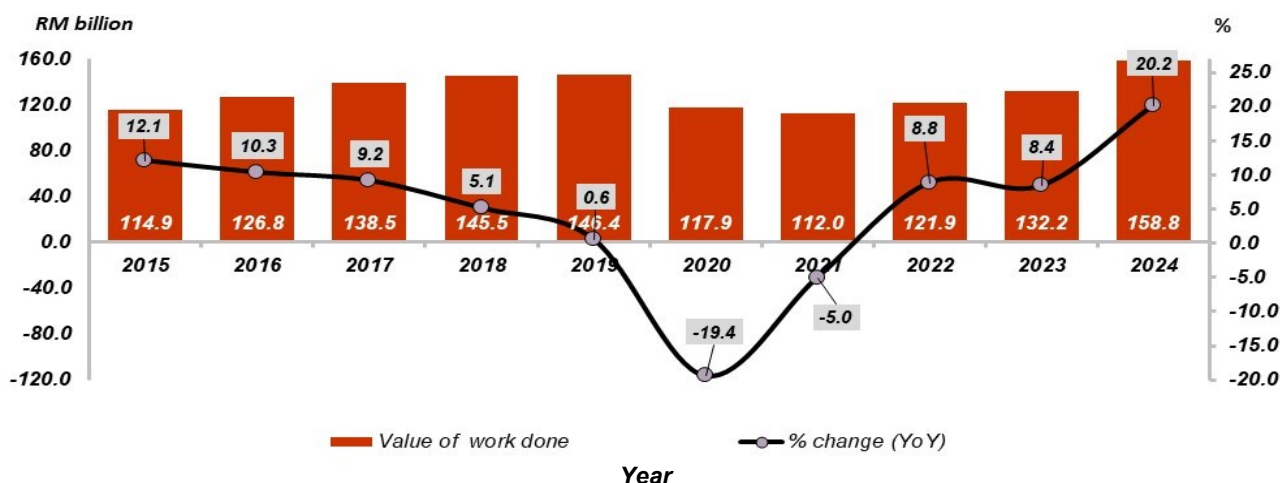

Chart 6: Value of work done by project owner and sub-sector, Q4 2024

5. Annual Value of Work Done

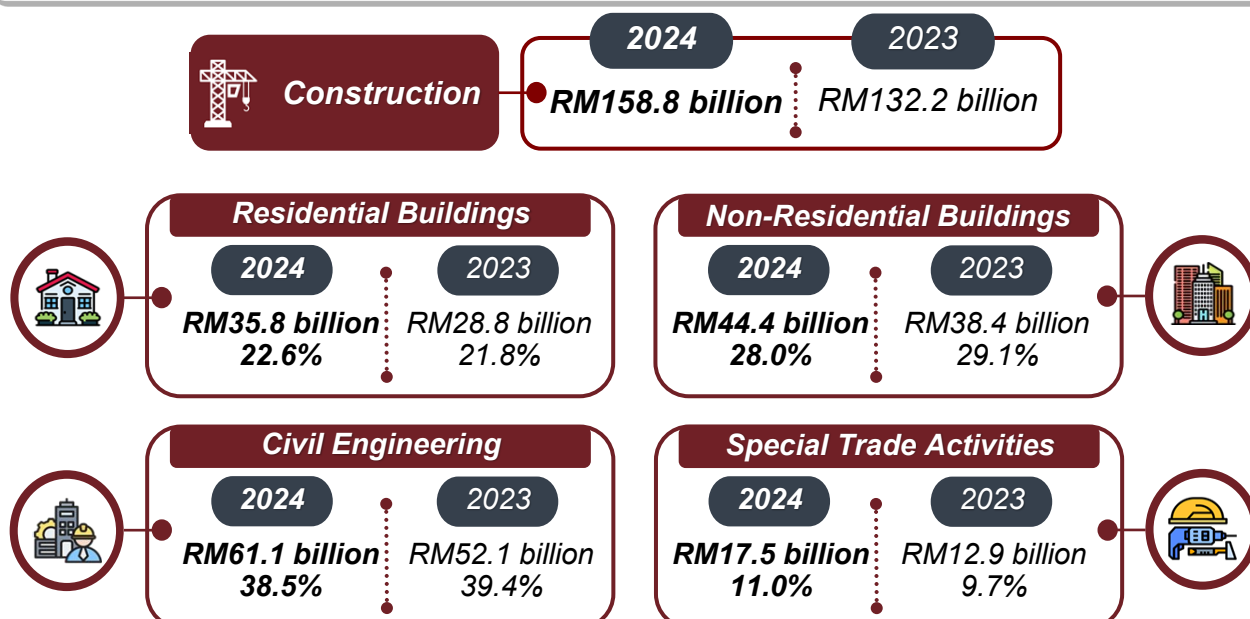

In 2024, the value of construction work done recorded double-digit growth of 20.2 per cent (2023: 8.4%) to RM158.8 billion as compared to RM132.2 billion in the previous year as in Chart 7.

Chart 7: Value of construction work done and annual percentage change, 2015 - 2024

All sub-sectors recorded positive growth in the value of construction work done as follows: Special trade activities (35.9%), followed by Residential buildings (24.5%), Civil engineering (17.3%) and Non-residential buildings (15.5%) sub-sectors. The Civil engineering and Non-residential buildings sub-sectors represented over two-thirds of value of work done in 2024 as in Exhibit 1.

Exhibit 1 : Contribution of work done by sub-sectors, 2024 and 2023

Muka surat ini sengaja dibiarkan kosong
This page is deliberately left blank

The background of the page is a sepia-toned photograph of a construction site. On the right side, there is a tall building under construction, completely encased in a dense network of metal scaffolding. To the left, a large tower crane is visible, its long jib extending across the upper part of the frame. The ground in the foreground is uneven and appears to be a mix of dirt and concrete. The overall atmosphere is one of active construction and industrial development.

NOTA TEKNIKAL

TECHNICAL NOTES

Muka surat ini sengaja dibiarkan kosong
This page is deliberately left blank

NOTA TEKNIKAL

- 1. Pendahuluan** Survei Pembinaan Suku Tahunan dijalankan dengan menggunakan pendekatan projek bermula daripada suku pertama 2006. Survei ini hanya meliputi kontraktor utama yang dianugerahkan dengan sesuatu projek. Nilai kerja pembinaan yang dilaporkan oleh kontraktor utama tersebut adalah jumlah keseluruhan nilai kerja yang dibuat tidak kira sama ada dilakukan oleh kontraktor utama atau sub-kontraktor. Memandangkan projek-projek hanya dianugerahkan kepada kontraktor utama, ia menyisihkan kemasukan sub-kontraktor dalam penyiasatan yang mungkin akan menimbulkan elemen pengiraan berganda dalam penyusunan data.
- 2. Objektif** Objektif utama Survei Pembinaan Suku Tahunan adalah untuk mengumpul dan menyusun data mengenai nilai kerja pembinaan untuk menerbitkan Statistik Pembinaan Suku Tahunan. Di samping itu, hasil penemuan survei digunakan dalam penyusunan Keluaran Dalam Negeri Kasar (KDNK) serta membantu kerajaan dalam perancangan ekonomi dan penggubalan dasar. Maklumat tersebut boleh juga digunakan oleh pihak swasta dan individu bagi tujuan membuat analisis ekonomi.
- 3. Kuasa perundangan** Survei ini dilaksanakan dibawah **Akta Perangkaan 1965 (Disemak 1989)**. Seksyen 5 di bawah akta ini menghendaki mana-mana pertubuhan yang beroperasi di Malaysia untuk memberikan maklumat sebenar atau anggaran terbaik kepada Jabatan. Mengikut akta ini, kandungan soal selidik adalah **sulit** dan hanya angka agregat diterbitkan.
- 4. Skop dan liputan** Survei Pembinaan Suku Tahunan melibatkan semua kontraktor utama yang menjalankan projek bernilai RM500,000 dan ke atas yang berdaftar dengan Lembaga Pembangunan Industri Pembinaan (LPIP). Liputan survei adalah terdiri daripada 72 industri pembinaan yang dikelaskan mengikut Piawaian Klasifikasi Industri Malaysia (MSIC) 2008 Ver.1.0. Aktiviti pembinaan yang berkaitan dengan penerokaan minyak dan gas tidak diliputi dalam survei ini. Senarai lengkap industri yang diliputi ditunjukkan di dalam Lampiran.
- 5. Kaedah pengumpulan** Survei ini dijalankan melalui soal selidik mel. Responden diberi tempoh dua minggu untuk melengkap dan mengembalikan soal selidik kepada Jabatan. Selepas tempoh tersebut, lawatan kerja luar akan dijalankan untuk mendapatkan respons daripada pertubuhan yang masih belum mengembalikan soal selidik berkenaan. Bagi kes yang belum respons selepas lawatan kerja luar, anggaran nilai kerja pembinaan menggunakan kaedah statistik yang bersesuaian akan dilakukan. Kadar respons semasa tamat penyiasatan adalah melebihi 90 peratus.
- 6. Kontraktor utama** Kontraktor utama adalah merujuk kepada orang, firma, dan lain-lain yang menerima tanggungjawab bagi menyiapkan keseluruhan sesuatu projek pembinaan. Satu kontrak dibuat dengan pemilik projek bagi kontraktor berkenaan menyiapkan sesuatu jenis kerja

NOTA TEKNIKAL (SAMB.)

binaan mengikut spesifikasi yang telah ditetapkan dalam perjanjian. Seseorang kontraktor utama boleh membuat keseluruhan kerja atau sub-kontrak keseluruhan atau sebahagian projek tersebut kepada satu atau lebih sub-kontraktor. Walau bagaimanapun, kontraktor utama adalah bertanggungjawab untuk memastikan semua kerja dibuat mengikut kepuasan pemilik projek.

- 7. Unit pelapor** Unit pelapor bagi survei ini ialah kontraktor utama. Unit ini melaporkan status kerja bagi setiap projek pembinaan yang sedang diusahakan.
- 8. Lokasi projek** Lokasi projek adalah merujuk kepada negeri di mana sesuatu projek pembinaan tersebut didirikan.
- 9. Nilai kerja pembinaan** Nilai kerja pembinaan yang dilakukan adalah termasuk pembinaan baru, pembaikan besar, pemulihan, pengubahsuaian dan pembaikan serta penyelenggaraan semasa yang dijalankan dalam tempoh rujukan untuk pemilik atau pelabur projek.
- 10. Jenis aktiviti pembinaan** Kategori jenis pembinaan yang digunakan dalam penerbitan ini adalah mengikut MSIC 2008 Ver. 1.0 seperti berikut :-
- Bangunan kediaman
(41001)
- Bangunan bukan kediaman
(41002)
- Kod 41003 dan 41009 dikelaskan di bawah bangunan kediaman atau bukan kediaman mengikut aktiviti yang dijalankan
- Kejuruteraan awam
(42101 - 42106, 42109, 42201 - 42207, 42209, 42901 - 42906, 42909)
- Aktiviti pembinaan pertukangan khas (Pertukangan khas)
(43110, 43121 - 43126, 43129, 43211 - 43216, 43219, 43221 - 43229, 43291 - 43295, 43299, 43301 - 43307, 43309, 43901 - 43907, 43909)
- 11. Perbadanan awam** Perbadanan awam ditubuhkan di bawah undang-undang yang diluluskan oleh Akta Parlimen atau Dewan Undangan Negeri. Ia bertujuan untuk membolehkan kerajaan terlibat secara terus dalam bidang pembangunan sosio-ekonomi negara. Ia terdiri daripada badan-badan berkanun dan badan-badan tidak berkanun yang dapat bergerak dan mengendalikan program kerajaan dengan lebih bebas. Contoh perbadanan awam ialah Tenaga Nasional Berhad, Telekom Malaysia Berhad, Keretapi Tanah Melayu Berhad, dll.
- 12. Pembundaran** Jumlah bagi komponen-komponen mungkin berbeza daripada jumlah besar di jadual dalam penerbitan ini oleh kerana pembundaran angka.

NOTA TEKNIKAL (SAMB.)

Bil.	Bilangan
RM	Ringgit Malaysia
ST	Suku Tahun
t.t.t.l.	Tidak terkelas di tempat lain
b	Bilion

TECHNICAL NOTES

- 1. Introduction** *The Quarterly Construction Survey is conducted based on project approach starting from the first quarter 2006. This survey covers only main contractors who are awarded with the projects. The value of work done reported by these main contractors is the value of work done irrespective of whether the main contractor or the sub-contractor did the work. Since projects are only awarded to the main contractors, it eliminates the inclusion of sub-contractors in the survey which may create an element of double counting in the compilation of data.*
- 2. Objective** *The main objective of the Quarterly Construction Survey is to collect and compile data on the value of work done to publish Quarterly Construction Statistics. Furthermore, the findings of the survey are used in the compilation of Gross Domestic Product (GDP) as well as assisting government in economic planning and policy formulation. The data can also be used by the private sector and individuals for economic analysis.*
- 3. Legal authority** *The survey was conducted under the provisions of the **Statistics Act, 1965 (Revised 1989)**. Section 5 of this Act requires all establishments operating in Malaysia to provide actual information or best estimates to the Department. The Act stipulates that the contents of individual returns are **confidential** and only aggregated figures are published.*
- 4. Scope and coverage** *The Quarterly Construction Survey covers all main contractors with value of projects worth RM500,000 and above registered with the Construction Industry Development Board (CIDB). The survey coverage consist of 72 construction industries classified according to the Malaysian Standard Industrial Classification (MSIC) 2008. Construction activities related to oil and gas explorations are not covered in this survey. A complete list of the industries covered are shown in the Appendix.*
- 5. Method of collection** *The survey is conducted using mail questionnaire. The respondents are given two weeks to complete and return the questionnaire to the Department. After the said period, field visits are conducted to obtain response from the establishments which have not returned the questionnaires. As for non-response, the value of work done will be estimated using an appropriate statistical method. The response rate at the close of the survey was above 90 per cent.*
- 6. Main contractor** *Main contractor is a person, firm, etc. that accepts responsibility for completing the entire construction job. A contract is entered into with the owner of the project for the contractor to complete a certain type of construction work according to the specifications laid down in the contract. A main contractor may do all or sub-contract the whole or part of the project to one or more sub-contractors. However, the main contractor is responsible to see the whole work is done to the satisfaction of the project owner.*

TECHNICAL NOTES (CONT'D.)

- 7. Reporting unit** *The reporting unit of this survey is the main contractor. This unit reports on the work status of each of its construction project.*
- 8. Location of project** *Location of project refers to the state where the project is being carried out.*
- 9. Value of work done** *The value of work done includes new construction, major repairs, repairs, renovations and repairs and current maintenance carried out during the reference period for the project owner or investor.*
- 10. Type of construction activity** *The type of construction category used in the publication follows the MSIC 2008 ver. 1.0 :-*
- Residential buildings (41001)*
- Non-residential buildings (41002)*
- Codes 41003 and 41009 are classified under the residential or non-residential buildings based on the types of activity carried out*
- Civil engineering (42101-42106, 42109, 42201-42207, 42209, 42901-42906, 42909)*
- Specialized construction activities (Special trade) (43110, 43121-43126, 43129, 43211-43216, 43219, 43221-43229, 43291-43295, 43299, 43301-43307, 43309, 43901-43907, 43909)*
- 11. Public corporation** *The public corporation is set up under the laws passed by the Parliament Act or the State Legislative Assembly. It enables the government to be involved directly in the socio-economic development of the country. It consists of statutory bodies and non-statutory bodies which can operate and manage the government programs more independently. Examples of public corporations are Tenaga Nasional Berhad, Telekom Malaysia Berhad, Keretapi Tanah Melayu Berhad, etc.*
- 12. Rounding** *The sum of components may not add up to the total in the tables presented in this publication due to rounding.*

13. Symbols and notations *The following symbols and notations were used in the publication:-*
