RINGKASAN PENEMUAN

1. PENGENALAN

Tahun 2022 adalah tahun yang penuh dengan cabaran dan ketidaktentuan, dipengaruhi oleh beberapa faktor seperti kenaikan inflasi, konflik geopolitik, kenaikan kadar faedah dan ketidaktentuan pasaran kewangan. Walaupun kebanyakan negara sedang mengalami pemulihan daripada kesan krisis kesihatan, namun pemulihan ini berbeza merentasi dunia. Negara-negara membangun menghadapi lebih banyak cabaran dalam pemulihan ekonomi, sementara negara maju pulih lebih cepat. Berikutnya dunia menghadapi pertumbuhan yang lebih perlahan daripada jangkaan, keadaan ini telah mendorong serata dunia berusaha dalam melakukan inovasi dan penyusunan semula dasar ekonomi.

Biarpun berdepan dengan pertumbuhan global yang perlahan, ekonomi Malaysia pada tahun 2022 mencatatkan prestasi yang memberangsangkan iaitu 8.9 peratus, yang mana pemulihan tersebut didorong oleh permintaan domestik yang kukuh, prestasi eksport yang menggalakkan, dan dasar kerajaan yang menyokong kepada situasi tersebut. Walau bagaimanapun, Malaysia tetap menghadapi pelbagai cabaran seperti inflasi, gangguan rantaian bekalan dan ketidakstabilan pasaran yang memerlukan dasar serta perancangan strategik yang teliti.

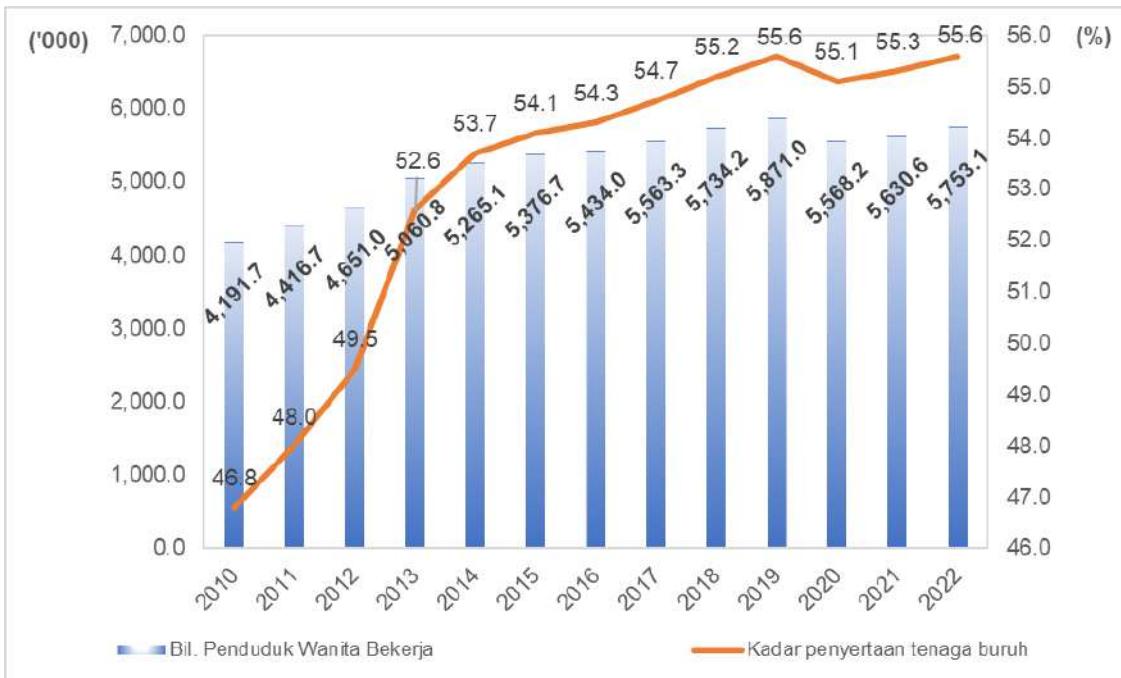

Selain daripada pelaksanaan dasar dan program ke arah pembangunan sosioekonomi negara yang mampan, Malaysia turut komited dalam memperkasaan peranan wanita dalam pembangunan negara seperti yang ditetapkan dalam Rancangan Malaysia Kedua Belas, (RMKe-12) 2020-2025. Bagi tujuan ini, dua inisiatif utama telah diperkenalkan di bawah Kementerian Pembangunan Wanita, Keluarga dan Masyarakat (KPWKM) menerusi Jabatan Pembangunan Wanita (JPW) iaitu menggalakkan kesaksamaan gender dan memperkuuh undang-undang. Inisiatif ini bertujuan meningkatkan peluang wanita dalam pelbagai bidang termasuk pendidikan, ekonomi dan kepimpinan.

Agenda bagi pemerkasaan wanita ini telah diterjemahkan dalam Belanjawan 2023, melalui pewujudan beberapa inisiatif seperti peruntukan Geran Penjagaan Kanak-Kanak untuk Wanita Kembali Bekerja, penyediaan garis panduan untuk pusat jagaan kanak-kanak, subsidi yuran taska serta pembinaan 80 taska dan tabika KEMAS termasuk 13 projek baharu. Justeru, pada 2023 JPW telah melaksanakan program membabitkan pemerkasaan wanita yang merangkumi empat aspek iaitu Wanita dan Ekonomi, Wanita Selamat, Wanita Sejahtera serta Wanita dan Kepimpinan.

Berdasarkan statistik penduduk bagi tahun 2022, sebanyak 47.9 peratus penduduk adalah wanita iaitu 15.7 juta daripada 32.7 juta penduduk. Daripada 15.7 juta penduduk wanita tersebut, 5.8 juta adalah wanita bekerja dengan kadar penyertaan tenaga buruh sebanyak 55.6 peratus (**Carta 1**). Pada masa yang sama, dapat dilihat bilangan wanita bekerja semakin meningkat dari tahun ke tahun kecuali pada tahun 2020 berikutnya penularan COVID-19.

DOSM telah melaksanakan Banci Ekonomi 2023, bertujuan untuk mendapatkan maklumat yang lebih terperinci mengenai prestasi dan struktur ekonomi, sekaligus meningkatkan pemahaman tentang keadaan ekonomi negara. Data yang dikumpul menjadi asas penting kepada kerajaan, pengubal dasar dan penyelidik untuk membuat keputusan berdasarkan maklumat dan membangunkan strategi yang berkesan untuk pertumbuhan ekonomi negara.

Laporan ini membentangkan statistik utama berkaitan pertumbuhan milikan wanita berdasarkan penemuan Banci Ekonomi 2023. Ia merangkumi bilangan pertubuhan, nilai output kasar, nilai ditambah, bilangan pekerja, gaji & upah serta aset tetap, yang meliputi 1,174 industri.

2. PRESTASI PERTUBUHAN MILIKAN WANITA

Pertubuhan milikan wanita merujuk kepada pertubuhan perniagaan yang dimiliki oleh wanita. Ini termasuk perniagaan yang dimiliki sepenuhnya atau sebahagianya oleh wanita. Penglibatan wanita adalah penting dalam menyumbang kepada pertumbuhan ekonomi sesebuah negara. Ia memberikan impak positif yang meliputi aspek ekonomi, sosial dan budaya. Apabila wanita mengambil bahagian dalam ekonomi, ia membantu meningkatkan tahap produktiviti dan daya saing. Selain itu, wanita yang memiliki perniagaan dapat menyediakan lebih banyak peluang pekerjaan, terutamanya untuk wanita lain. Keberadaan wanita juga membawa perspektif dan idea yang berbeza yang seterusnya mendorong inovasi dalam perniagaan.

RINGKASAN PENEMUAN

Menyingkap evolusi milikan wanita di Malaysia, iaanya mengalami perkembangan yang signifikan dari segi kuasa, penglibatan dan pengaruh mereka dalam pelbagai sektor. Pada zaman pramerdeka, wanita di Malaysia hanya memainkan peranan sebagai suri rumah atau penjaga rumah tangga dan keluarga. Bagi membantu keluarga, wanita hanya terlibat dalam pertanian dan kraftangan. Namun, selepas kemerdekaan pada 1957, pendidikan menjadi semakin penting dan tersedia untuk semua lapisan masyarakat termasuk wanita. Ini telah membantu meningkatkan kesedaran wanita tentang hak-hak mereka dan membuka peluang untuk memainkan peranan yang lebih besar dalam masyarakat. Dari sudut pekerjaan, ramai wanita mula memasuki tenaga kerja dalam bidang pendidikan dan kejururawatan pada tahun 1970-an.

Lanjutan itu, sekitar tahun 1980-an hingga 1990-an, dengan adanya dasar-dasar pembangunan ekonomi termasuk Dasar Pembangunan Wanita yang diperkenalkan oleh kerajaan, telah membuka lebih banyak peluang kepada wanita untuk terlibat dalam perniagaan dan industri. Tambahan pula, wanita mula memainkan peranan aktif dalam politik dan memegang jawatan penting. Kesedaran hak asasi yang semakin meningkat dan gerakan feminism telah membantu mereka menuntut lebih banyak hak dan peluang.

Sehingga kini, lebih ramai wanita terlibat sebagai pemimpin dalam sektor korporat dan kerajaan serta berjaya dalam bidang keusahawanan. Sumbangan nilai ditambah milikan wanita dalam keseluruhan ekonomi mencatatkan peningkatan 4.1 peratus pada tahun 2022 berbanding tahun 2010 iaitu 2.6 peratus (**Carta 2**). Peningkatan ini seiring dengan pertambahan tenaga kerja yang mencatatkan 9.8 peratus pada tahun 2022.

SUMMARY OF FINDINGS

1. INTRODUCTION

The year 2022 was filled with challenges and uncertainties, influenced by several factors such as rising inflation, geopolitical conflicts, increasing interest rates and financial market uncertainties. Although most countries are experiencing recovery from the effects of the health crisis, the recovery diverse across the globe. Developing countries face more challenges in economic recovery, while developed countries recover more quickly. Due to the world facing slower growth than expected, this situation has prompted global efforts in innovation and the restructuring of economic policies.

Despite facing slow global growth, Malaysia's economy in 2022 recorded an encouraging performance of 8.9 per cent, driven by strong domestic demand, favourable export performance, and supportive government policies. However, Malaysia still faces various challenges, such as inflation, supply chain disruptions and market instability, which require careful policy and strategic planning.

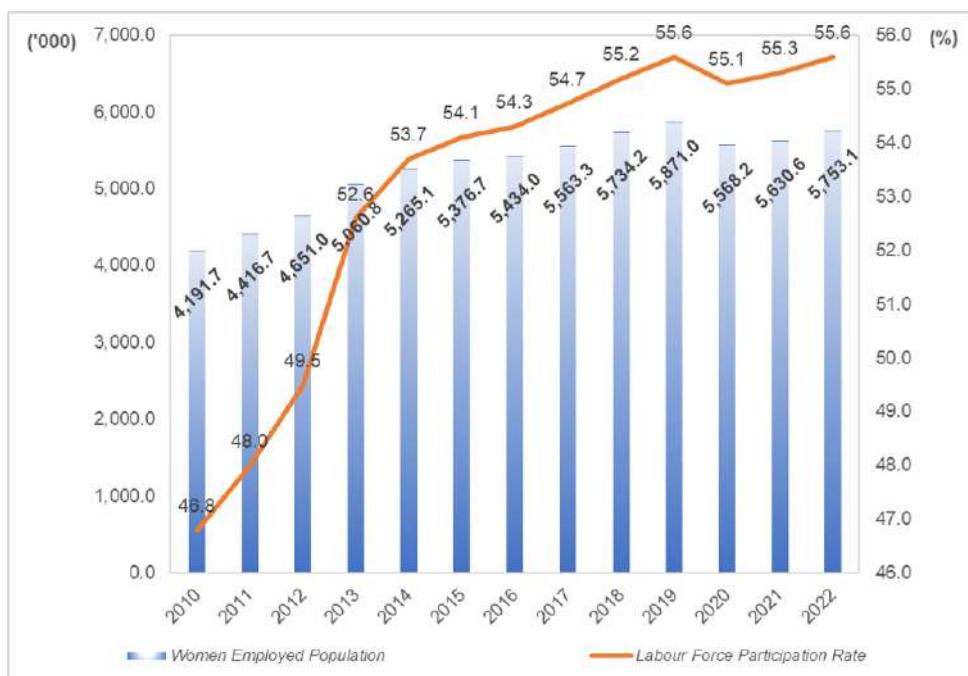

In addition to implementing policies and programmes towards sustainable socio-economic development, Malaysia is also committed to empowering the role of women in national development as stipulated in the Twelfth Malaysia Plan, 2021-2025 (RMKe-12). For this purpose, two key initiatives were introduced under the Ministry of Women, Family and Community Development (KPWKM) through the Department of Women Development (JPW), which focused on promoting gender equality and strengthening laws. These initiatives aim to increase opportunities for women in various fields, including education, economics and leadership.

The agenda for women's empowerment has been reflected in Budget 2023 through the introduction of several initiatives, such as the allocation of the Childcare Grant for Women Returning to Work, the provision of guidelines for childcare centers, subsidies for childcare fees and the construction of 80 KEMAS nurseries and kindergartens, including 13 new projects. Thus, in 2023, JPW implemented programmes focused on women's empowerment, covering four aspects namely Women and the Economy, Safe Women, Well-being of Women as well as Women and Leadership.

Based on the 2022 population statistics, 47.9 per cent of the population were women, amounting to 15.7 million out of 32.7 million people. Out of these 15.7 million women, 5.8 million were working women, with a labour force participation rate of 55.6 per cent (**Chart 1**). At the same time, it can be observed that the number of working women has been increasing year by year, except in 2020 following COVID-19 outbreak.

DOSM has conducted the 2023 Economic Census, aimed at obtaining a more detailed information on the economic performance and structures, while enhancing the understanding of the country's economic situation. The data collected serve as an important foundation for the government, policymakers and researchers to make informed decisions and develop effective strategies for the country's economic growth.

This report presents key statistics related to women-owned establishments based on the findings of the Economic Census 2023. It includes the number of establishments, value of gross output, value added, number of persons engaged, salaries & wages and value of fixed assets, covering 1,174 industries.

2. PERFORMANCE OF WOMEN-OWNED ESTABLISHMENTS

Women-owned establishments refer to businesses owned by women. This includes businesses fully or partially owned by women. The involvement of women is important in contributing to the economic growth of a country. It has a positive impact that encompasses economic, social and cultural aspects. When women participate in the economy, it helps to enhance productivity and competitiveness levels. In addition, women who own businesses can create more job opportunities, especially for other women. The presence of women also brings different perspectives and ideas which in turn drives innovation in business.

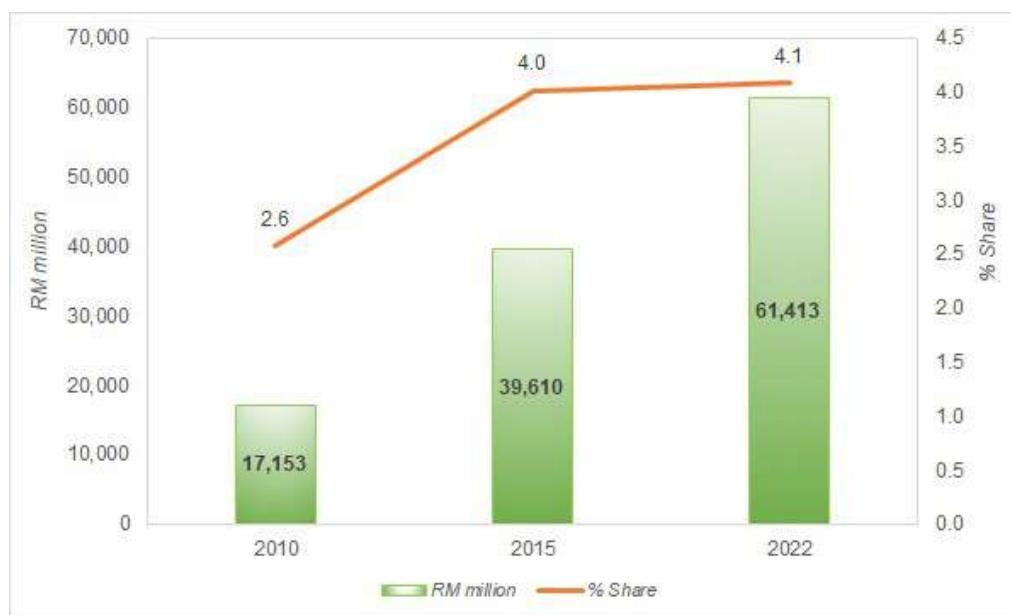

SUMMARY OF FINDINGS

Tracing the evolution of women-owned in Malaysia, there has been significant progress in terms of their power, participation and influence across various sectors. During the pre-independence era, women in Malaysia mainly served as homemakers or caretakers of households and families. To support their families, women were involved in agriculture and handicrafts. However, after independence in 1957, education became increasingly important and accessible to all segments of society, including women. This has helped raise awareness among women about their rights and opened up opportunities for them to play a larger role in the society. In terms of employment, many women began joining the workforce in the fields of education and nursing during the 1970s.

Following this, in the 1980s and 1990s, the implementation of economic development policies, including the Women's Development Policy introduced by the government, created more opportunities for women to engage in business and industry. Additionally, women began to play an active role in politics and held significant positions. Increased awareness of human rights and feminist movements helped them claim more rights and opportunities.

Today, more women are involved as leaders in the corporate and government sectors and have succeeded in entrepreneurship. The value added contribution of women-owned to the overall economy increased by 4.1 per cent in 2022 as compared to 2.6 per cent in 2010 (**Chart 2**). This increase was in line with the growth in the workforce, which recorded 9.8 per cent in 2022.

NOTA TEKNIKAL

1. SKOP DAN LIPUTAN

Penerbitan ini menggunakan data daripada Banci Ekonomi 2023 (tahun rujukan 2022). Banci mengumpul maklumat daripada pertubuhan berdaftar dalam sektor Pertanian, Perlombongan & pengkuarian, Pembuatan, Pembinaan dan Perkhidmatan. Klasifikasi industri merujuk kepada Piawaian Klasifikasi Industri Malaysia (MSIC) 2008 Versi 1.0 yang selaras dengan *International Standard Industrial Classification of All Economic Activities (ISIC), Rev. 4, United Nations*. Liputan bagi keseluruhan sektor merangkumi 1,174 kategori industri seperti yang ditunjukkan pada **Jadual 1**.

Jadual 1 : Bilangan industri mengikut sektor

Sektor	Bilangan Industri
Pertanian*	142
Perlombongan & pengkuarian	56
Pembuatan	259
Pembinaan	72
Perkhidmatan	645
Jumlah	1,174

Nota*: Usahawan dalam sektor Pertanian yang hanya berdaftar dengan agensi-agensi kerajaan yang berkaitan bagi maksud menerima bantuan **TIDAK** diliputi kecuali pengusaha kelapa sawit.

2. SUMBER RANGKA STATISTIK

Sumber utama rangka statistik pertubuhan adalah daripada *Malaysia Statistical Business Register* (MSBR). MSBR adalah senarai pertubuhan/ perusahaan yang beroperasi di Malaysia yang merangkumi Daftar Syarikat (ROC), Daftar Perniagaan (ROB) dan Perkongsian Liabiliti Terhad (LLP) yang berdaftar dengan Suruhanjaya Syarikat Malaysia (SSM) serta pertubuhan yang berdaftar dengan pihak berkuasa tempatan (PBT) dan badan profesional. Senarai di MSBR dikemaskini secara berkala berdasarkan survei dan bancian yang dijalankan oleh Jabatan Perangkaan Malaysia (DOSM) dan sumber data pentadbiran daripada pelbagai agensi. Sumber utama data pentadbiran adalah daripada SSM.

Selain itu, DOSM juga bekerjasama untuk mendapatkan maklumat terkini daripada agensi lain seperti Kumpulan Wang Simpanan Pekerja (KWSP), Jabatan Kastam Diraja Malaysia, Lembaga Hasil Dalam Negeri (LHDN), Pertubuhan Keselamatan Sosial (PERKESO), PBT dan badan profesional. Rangka dikemaskini untuk mengambil kira pertubuhan baru dan sebarang perubahan yang berlaku kepada pertubuhan tersebut seperti tutup, tidak beroperasi, perubahan jenis aktiviti dan lokasi/ alamat pos untuk memastikan maklumat yang terdapat dalam rangka adalah yang paling terkini.

3. JENIS AKTIVITI PERNIAGAAN

Jenis aktiviti perniagaan merujuk kepada aktiviti utama dan sekunder. Aktiviti utama merujuk kepada aktiviti yang mana pertubuhan menumpukan sebahagian besar sumbernya atau memberi sumbangan besar dari segi pendapatan. Aktiviti sekunder didefinisikan sebagai aktiviti sampingan kepada aktiviti utama. Klasifikasi industri bagi pertubuhan adalah berasaskan kepada aktiviti utama dan mengikut Piawaian Klasifikasi Industri Malaysia (MSIC) 2008 Versi 1.0 yang diselaraskan dengan *International Standard Industrial Classification of All Economic Activities (ISIC), Rev. 4, United Nations* dan pengubahsuaian mengikut keperluan tempatan.

4. KONSEP DAN DEFINISI

Industri tersebut dikategorikan kepada lima sektor utama iaitu Pertanian, Perlombongan & pengkuarian, Pembuatan, Pembinaan dan Perkhidmatan. Definisi sektor adalah seperti berikut:

4.1 Pertanian

Pertanian merangkumi aktiviti penanaman, pemeliharaan dan penternakan haiwan dan pengeluaran produk haiwan, penebangan kayu balak dan tanaman lain serta perikanan tangkapan dan akuakultur termasuk penggunaan sumber semulajadi tumbuh-tumbuhan dan haiwan. Terdapat empat subsektor iaitu tanaman, ternakan, perhutanan & pembalakan dan perikanan.

4.1.1 Tanaman merujuk kepada penanaman dan pengeluaran produk tanaman termasuk pertanian organik. Tanaman juga meliputi penanaman tanaman tidak kekal dan kekal merangkumi penanaman tumbuh-tumbuhan untuk tujuan pengeluaran benih;

- 4.1.2 **Ternakan** ialah binatang-binatang unggas yang dipelihara untuk tujuan komersil, sara diri dan pembiakbakaan dan rekreasi. Pengeluaran ternakan termasuk penternakan (ladang) dan pembiakan semua haiwan kecuali haiwan akuatik;
- 4.1.3 **Perhutanan & pembalakan** termasuk pengeluaran kayu balak untuk industri berdasarkan kayu, meliputi pengestrakan dan pengumpulan produk hutan bukan kayu yang tumbuh liar. Selain pengeluaran kayu balak, aktiviti perhutanan yang menghasilkan produk melalui proses minima seperti kayu api, kayu arang, reja kayu dan kayu balak yang digunakan dalam bentuk yang belum diproses turut disertakan. Aktiviti ini boleh dijalankan dalam hutan asli dan ladang hutan. Ia juga termasuk sebahagian daripada aktiviti operasi perhutanan berdasarkan bayaran atau secara kontrak; dan
- 4.1.4 **Perikanan** termasuk perikanan tangkapan dan akuakultur meliputi penggunaan sumber perikanan daripada laut, air payau atau air tawar dengan tujuan menangkap dan mengumpul ikan, krustasia, moluska dan organisma & produk laut lain. Akuakultur ialah proses pengeluaran yang melibatkan pengkulturan (termasuk tuaian) organisme akuatik menggunakan teknik yang direka bentuk untuk meningkatkan pengeluaran organisme tersebut melebihi kapasiti persekitaran semulajadi.

4.2 Perlombongan & pengkuarian

Perlombongan dan pengkuarian termasuk pengekstrakan mineral yang terjadi secara semulajadi seperti pepejal (batu arang dan bijih), cecair (petroleum) atau gas (gas asli). Pengekstrakan boleh dijalankan melalui pelbagai kaedah seperti perlombongan bawah tanah atau dedah, pengoperasian telaga, perlombongan dasar laut dan lain-lain. Walau bagaimanapun, subsektor perlombongan mineral & pengkuarian tidak diliputi dalam penerbitan ini.

4.3 Pembuatan

Perubahan fizikal atau kimia ke atas bahan atau komponen menjadi produk baru sama ada kerja itu dilakukan oleh jentera pacuan kuasa atau yang dijalankan dengan tangan, sama ada dilaksanakan di kilang atau di rumah pekerja dan sama ada barang keluaran dijual secara borong atau runcit.

The establishment is requested to give separate returns for each activity in terms of value.
