LABOUR FORCE REPORT MALAYSIA

JUNE 2025

Announcement

ASEAN-Malaysia 2025 Chairmanship: The Department of Statistics Malaysia (DOSM) will chair the 15th ASEAN Community Statistical System Committee (ACSS15) which aims to strengthen the statistical cooperation towards sustainable regional development.

Malaysia, for the first time, ranked as number one (1) globally in the biennial Open Data Inventory (ODIN) 2024/25 report released by Open Data Watch (ODW), surpassing 197 other countries. This achievement marks a significant leap from its 67th position in the ODIN 2022/23 assessment.

The Government of Malaysia has declared October 20th as National Statistics Day (MyStats Day), with the theme 'Statistics is the Essence of Life'. Meanwhile, the Fourth World Statistics Day will be celebrated on 20th October 2025, with the theme 'Driving Change with Quality Statistics and Data for Everyone'.

OpenDOSM NextGen is a medium that provides data catalogue and visualisations to facilitate users' analysis and can be accessed through https://open.dosm.gov.my.

Published on 11 August 2025

The monthly Labour Force Report, Malaysia, presents statistics of the labour force, employment and unemployment obtained from the Labour Force Survey (LFS) through a household approach. The implementation of the LFS is based on the guidelines and recommendations of the International Labour Organization (ILO) with reference to the Surveys of Economically Active Population, Employment, Unemployment and Underemployment: An ILO Manual on Concepts and Methods.

The labour force statistics are vital input for labour market analysis, policy formulation, as well as planning, implementing, and monitoring programmes, particularly related to human resource development. These statistics also serve as essential references for researchers, economists, academicians, the private sector, and individuals involved in research related to employment and the labour market.

The Labour Force Report for June 2025 describes the labour supply condition based on the current situation. The report also elaborates on the month-on-month changes to examine the immediate effects of recent events. In addition, annual changes from the same month of the previous year are also reported.

The Department of Statistics Malaysia gratefully acknowledges the cooperation and contribution rendered by all parties in making this publication a success. Every piece of feedback and suggestion towards improving future reports is highly appreciated.

DATO' SRI DR. MOHD UZIR MAHIDIN
Chief Statistician Malaysia

CONTENTS

Actively unemployed	:	Persons who were available for work and were actively looking for a job during the reference week.
Category of skills	:	For reporting purposes, the category of occupation is regrouped into three levels of skills based on the Malaysia Standard Classification of Occupation (MASCO) 2013 as below:

Skilled workers:

1. Managers;

2. Professionals; and

3. Technicians and associate professionals.

Semi-skilled workers:

4. Clerical support workers;

5. Services and sales workers;

6. Skilled agricultural, forestry, livestock, and fishery workers;

7. Craft and related trades workers; and

8. Plant and machine operators and assemblers.

Low-skilled workers:

9. Elementary occupations.

Starting in January 2022, the category of occupation is based on the Malaysia Standard Classification of Occupation (MASCO) 2020 with the addition of group 0 - Armed Forces occupations.

Economic activity	:	Classification of industries according to the Malaysia Standard Industrial Classification (MSIC) 2008 version 1.0 into five main sectors: Agriculture, Mining & quarrying, Manufacturing, Construction and Services. In the meantime, Manufacturing and Services are further disaggregated into sub-sectors.
Employed	:	All persons who, at any time during the reference week worked at least one hour for pay, profit or family gain either as an employer, employee, own-account worker, or unpaid family worker.
Employee	:	A person who works for a public or private employer and receives regular remuneration in wages, salary, commission, tips or payment in kind.
Employer	:	A person who operates a business, a plantation or other trade and employs at least one employee in his business or trade.
Employment-to-population ratio	:	The proportion of the employed population to working-age population.
Inactively unemployed	:	Did not look for work because they believed no work was available or that they were not qualified; Would have looked for work if they had not been temporarily ill or had it not been for weather conditions; and had looked for work prior to the reference week and were waiting for the result of job applications.

Labour force participation rate	:	The ratio of the labour force to the working-age population, expressed as a percentage.
Outside labour force	:	All persons not classified as employed or unemployed are classified as outside the labour force. This category consists of housewives, students (including those going for further studies), retired, disabled persons and those not interested in looking for a job.
Own-account worker	:	A person who operates his own farm, business or trade without employing any paid workers to conduct his farm, trade or business.
Skill-related underemployment	:	Those with tertiary education and working in the semi-skilled and low-skilled categories.
Time-related underemployment	:	A group of people who were employed less than 30 hours per week during the reference week because of the nature of their work or due to insufficient work and were able and willing to accept additional hours of work. Persons who were employed more than 30 hours per week during the reference week are considered to be in full employment.
Unemployed	:	Those who did not work during the reference week were classified into two groups, which are actively and inactively unemployed.
Unemployment rate	:	The proportion of the unemployed population to the total population in the labour force, expressed as a percentage.
Unpaid family worker	:	A person who works without pay or wages on a farm, business or trade operated by another member of the family.

2016 - 2030

MINISTRY OF ECONOMY
DEPARTMENT OF STATISTICS MALAYSIA

CONCEPTS AND DEFINITIONS

What is Labour Force Survey (LFS)?

Labour Force Survey (LFS) was conducted to collect information on the structure and distribution of labour force, employment and unemployment from the perspective of labour supply.

LFS encompasses both urban and rural areas for all administrative districts within all states in Malaysia using multi-modal data collection approach through the personal interview and a Computer-Assisted Telephone Interview (CATI).

The LFS are conducted based on the standard guidelines and recommendations of the International Labour Organization (ILO).

The survey population comprises persons who live in the private living quarters, hence excludes persons residing in institutions such as hotels, hospitals, hostels, prisons, and workers residing in construction worksite.

The working age for the analysis of LFS in Malaysia refers to household members between the age of 15 to 64 years during the reference week, who are either in the labour force or outside the labour force.

LABOUR FORCE

- The population in the working age group of 15 to 64 years (in completed years at last birthday).
- Either employed or unemployed in the reference week.

EMPLOYED

- Persons who, at any time during the reference week worked at least one hour for pay, profit or family gain (as an employer, employee, own-account worker or unpaid family worker).
- Persons who did not work during the reference week because of illness, injury, bad weather, leave, labour dispute and social or religious reasons but had a job, farm, enterprise or other family enterprise to return to.
- Those on temporary lay-off with pay who would definitly be called back to work.

UNEMPLOYED

- Those who did not work during the reference week but are interested to work and seeking for a job.
- Classified into two groups which are actively and inactivly unemployed.

OUTSIDE LABOUR FORCE

- All persons not classified as employed or unemployed.
- Example: housewives, students, retirees, disabled persons and those not interested in looking for job.

UNEMPLOYMENT RATE

- The proportion of the unemployed population to the total population in labour force.
- Percentage of the unemployed population in the labour force.

LABOUR FORCE PARTICIPATION RATE

- The economic activity of a population depends on the demographic characteristics of that population.
- The proportion of the economically active population, hence differs between sub-groups of that population.
- These variations are measured by specific activity rates termed as labour force participation rate.
- Labour force participation rate is defined as the ratio of the labour force to the working age population (15 to 64 years), expressed as a percentage.

SEASONAL ADJUSTMENT

- Time-series data are very useful for economist, policy & decision makers and time-series analysts to identify the important features of economics series such as direction, turning point and consistency between other economic indicators. Sometimes this feature is difficult to observe because of seasonal movements. Thus, if seasonal effect can be removed, the behaviour of the series would be better viewed. The estimation and removal of the seasonal effects is called seasonal adjusment.
- Seasonal adjustment is a process to identify and to remove the regular within-a-year seasonal pattern, which may also include the influences of moving holidays and working/ trading days effect in each period. The ultimate objective of the process is to highlight the underlying trends and short-term movements in the series.
- In Malaysia, most of the time series data is affected by seasonal effects. Hence, to eliminate the seasonal effect as well as to seasonally adjust the Malaysian economic time series data, a standard seasonal adjustment package, X-12 ARIMA was used by the Department of Statistics Malaysia.

OPEN DATA INVENTORY MALAYSIA NUMBER ONE IN THE WORLD

20 October

2016 - 2030

EXPLANATORY NOTES

Starting with the release of Labour Force Statistics (LFS), January 2025, the principal statistics of the labour force are estimated based on the current population estimates of Malaysia.

The revision of the LFS data series is performed when the most recent Population and Housing Census of Malaysia 2020 data is available. This census data is then used for the revision of the LFS data series to include additional information available from the latest Population and Housing Census of Malaysia. This process of incorporating revised population benchmarks is referred to as rebasing. On the same note, revisions are carried out on LFS data for January to December 2024 in stages beginning with January to June and October to December data.

This page is deliberately left blank

- The number of **employed persons** continued its upward trajectory in June 2025, rising by **0.3 per cent (+52.9 thousand persons)** to **16.92 million persons** compared to 16.86 million persons in May 2025. The **employment-to-population ratio**, which indicates the ability of an economy to create employment, remained unchanged at **68.7 per cent** (May 2025: 68.7 per cent).

- Employment across economic sectors continued to increase during the month, led by steady growth in the Services sector, particularly in Wholesale and retail trade; Accommodation and food & beverage services; as well as Information & communication activities. A similar positive trend was also observed in the Manufacturing, Construction, Mining & quarrying, and Agriculture sectors.

- The **employees'** category remained the largest segment of the employment, comprising **75.0 per cent** of the total employed persons. This category experienced a rise of **0.2 per cent (+29.4 thousand persons)** to **12.69 million persons** in June 2025 (May 2025: 12.66 million persons). Likewise, the number of **own-account workers** also posted an increase, climbing by **0.6 per cent (+19.4 thousand persons)** to **3.20 million persons** (May 2025: 3.18 million persons).

- In June 2025, the number of **unemployed persons** continued to be on a downtrend, falling by **0.7 per cent (-3.7 thousand persons)** to **518.7 thousand persons** (May 2025: 522.4 thousand persons). On the same note, the **unemployment rate** remained at **3.0 per cent** for the third consecutive month.

- The **labour force** remained on a steady growth, increasing by **0.3 per cent (+49.2 thousand persons)** month-on-month to **17.43 million persons** in June 2025 (May 2025: 17.38 million persons). The **labour force participation rate (LFPR)** during the month stood at **70.8 per cent**, consistent with the previous month.

- In June 2025, the number of persons **outside the labour force** decreased marginally by **0.004 per cent (-0.3 thousand persons)** to **7.18 million persons (**May 2025: 7.18 million persons). The main reasons for those being outside the labour force were **housework/ family responsibilities**, comprising **43.7 per cent**, followed by the **schooling/ training** category at **40.9 per cent**.

- Malaysia's labour market is observed to be in a stable outlook in the coming months due to rising domestic demand, higher labour productivity, increased employment opportunities, and broad-based investments, particularly in technology and strategic sectors. Although there are challenges such as talent migration, global trade tensions, and inflation, government policies focusing on digitalisation, technical training, and investment incentives are expected to sustain medium- to long-term growth in the labour market.

1 INTRODUCTION

PROMISING MOMENTUM IN MALAYSIA'S LABOUR MARKET CONTINUES IN JUNE 2025 AMID STRONG CORPORATE GROWTH AND STRATEGIC INDUSTRY EXPANSION

Malaysia's economic landscape in June continued to show promising momentum, driven by strong corporate performance and strategic industrial expansion. Recent developments across key sectors reflected a positive trajectory in national growth, with companies adapting to global challenges while capitalising on domestic strengths. A leading entity in the food processing and poultry sector recorded a 30.8 per cent surge in net profit to RM19.75 million for the second quarter of 2025, despite operating without government subsidies for five consecutive quarters[1]. This reflects not only operational efficiency but also the resilience of Malaysia's agro-food industry, which plays a significant role in supporting employment and domestic consumption.

Additionally, the Port of Tanjung Pelepas (PTP) registered record-breaking container handling volumes for three consecutive months, reaching 1.27 million TEUs in May 2025[2]. This achievement underscores Malaysia's growing prominence in global logistics and trade, with PTP serving as a vital transshipment hub in Asia. The port's expansion and operational efficiency are expected to create new employment opportunities and attract further investment in infrastructure and digital logistics. Collectively, these developments reflect Malaysia's dynamic economic growth, supported by resilient corporate strategies and a labour market that continues to adapt to dynamic industrial demands.

Apart from that, Malaysia continued its commitment to workforce development through several high-impact career fairs, including the MoHE National Career Fair held on 14 to 15 June 2025 at MITEC, Kuala Lumpur. Organised by the Ministry of Higher Education, the event featured over 100 top employers offering more than 10,000 job opportunities across diverse industries including finance, technology, logistics, and manufacturing[3]. Attendees benefited from career talks, resume clinics, and on-the-spot interviews, fostering a dynamic platform for job seekers to engage with recruiters and explore career advancement opportunities. These initiatives played a vital role in strengthening the country's employment ecosystem, enhancing labour market resilience, and addressing unemployment by aligning talent with evolving industry demands.

As for the Malaysian economic indicators, the Leading Index (LI) recorded a marginal increase of 0.04 per cent year-on-year to 113.7 points in May 2025 (May 2024: 113.7 points). On a monthly basis, the LI also registered an increase of 0.1 per cent as against April 2025. Looking at the smoothed long-term trend in May 2025, the LI remained below 100.0 points. Nevertheless, Malaysia's economic outlook is expected to remain moderate in the near future, supported by the easing of monetary policy, which could potentially stimulate domestic demand and encourage private investment despite global uncertainty. Meanwhile, Malaysia's external trade indicators for June 2025 both posted a month-on-month decrease of 3.9 per cent (May 2025: -5.2%) and 10.1 per cent (May 2025: -2.0%), respectively.

2 EMPLOYED PERSONS

The number of employed persons continued its upward trajectory in June 2025

The number of **employed persons** continued its upward trajectory in June 2025, rising by **0.3 per cent (+52.9 thousand persons)** to **16.92 million persons** compared to 16.86 million persons in May 2025. In terms of seasonally adjusted data, the number of employed persons also rose by 0.3 per cent. On a year-on-year basis, the number of employed persons edged up by 3.0 per cent, with an addition of 496.8 thousand from 16.42 million persons in June[r] 2024.

Employment across economic sectors continued to increase during the month, led by steady growth in the Services sector, particularly in Wholesale and retail trade; Accommodation and food & beverage services; as well as Information & communication activities. A similar positive trend was also observed in the Manufacturing, Construction, Mining & quarrying, and Agriculture sectors.

The **employment-to-population ratio**, which indicates the ability of an economy to create employment, remained unchanged at **68.7 per cent** (May 2025: 68.7 per cent). Year-on-year, the ratio increased by 0.4 percentage points from 68.3 per cent in June[r] 2024 **[Chart 1]**.

Chart 1: Employed persons and employment-to-population ratio, January - June[r], October[r] - December 2024, and January - June 2025
Note: [r] Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

The **employees'** category remained the largest segment of employment, comprising **75.0 per cent** of the total employed persons. This category experienced a rise of **0.2 per cent (+29.4 thousand persons)** to **12.69 million persons** in June 2025 (May 2025: 12.66 million persons). Likewise. the number of **own-account workers** also followed an upward trend, climbing by **0.6 per cent (+19.4 thousand persons)** to **3.20 million persons** (May 2025: 3.18 million persons). This category primarily consists of daily income earners engaged in small-scale businesses, such as retailers, hawkers, market vendors, stallholders, and smallholders **[Chart 2]**.

Chart 2: Employed persons by status in employment, May and June 2025

('000)

May 2025

3,178.1 (18.8%) | 465.6 (2.8%) | 559.7 (3.3%) | 12,659.1 (75.1%)

June 2025

3,197.5 (18.9%) | 464.9 (2.7%) | 564.4 (3.3%) | 12,688.5 (75.0%)

● Employees ● Own-account workers ● Unpaid family workers ● Employers
During the month, the number of **employed persons who were temporarily not working** fell by **0.8 per cent (-0.7 thousand persons)** to **90.1 thousand persons**, compared to last month (May 2025: 90.8 thousand persons). On a year-on-year basis, the figure rose by 12.7 per cent (+10.2 thousand persons) from 79.9 thousand persons recorded in June[r] 2024. This category includes individuals who were temporarily not working but were not classified as unemployed, as they had jobs to return to.

3 UNEMPLOYMENT

The unemployment rate in June 2025 was unchanged at 3.0 per cent

In June 2025, the number of **unemployed persons** continued to be on a downtrend, falling by **0.7 per cent (-3.7 thousand persons)** to **518.7 thousand persons** (May 2025: 522.4 thousand persons). On the same note, the **unemployment rate** remained at **3.0 per cent** for the third consecutive month. In the meantime, on seasonally adjusted terms, the number of unemployed dropped by 1.3 per cent, recording a 3.0 per cent of the unemployment rate.

Similarly, the number of unemployed persons reduced further by 6.3 per cent (-35.0 thousand persons) as against the same month of the previous year (June[r] 2024: 553.7 thousand persons). The unemployment rate also declined by 0.3 percentage points as compared to 3.3 per cent in June[r] last year **[Chart 3]**.

Chart 3: Unemployment January - June[r], October[r] - December 2024, and January - June 2025
Month	Unemployed persons	Unemployment rate
June 2025	518.7	3.0%

Person ('000)

■ Unemployed persons ⊘ Unemployment rate

Note: [r] Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

Looking at the unemployment category, those who were available for work and were actively seeking jobs, or the **actively unemployed**, encompassed **79.9 per cent** of the total unemployed persons. This category recorded a decrease of **0.5 per cent (-1.9 thousand persons)** to **414.4 thousand persons** in June 2025 (May 2025: 416.4 thousand persons). Among the actively unemployed, **64.5 per cent** were those who were **unemployed for less than three months**, while those who were in **long-term unemployment for more than a year[4]** comprised **5.0 per cent**.

On the same note, the **inactively unemployed**, or those who believed that there were no jobs available, edged down by **1.6 per cent (-1.7 thousand persons)** to **104.3 thousand persons** (May 2025: 106.0 thousand persons) **[Chart 4]**.

Chart 4: Unemployed category and duration of unemployment for the actively unemployed, May and June 2025
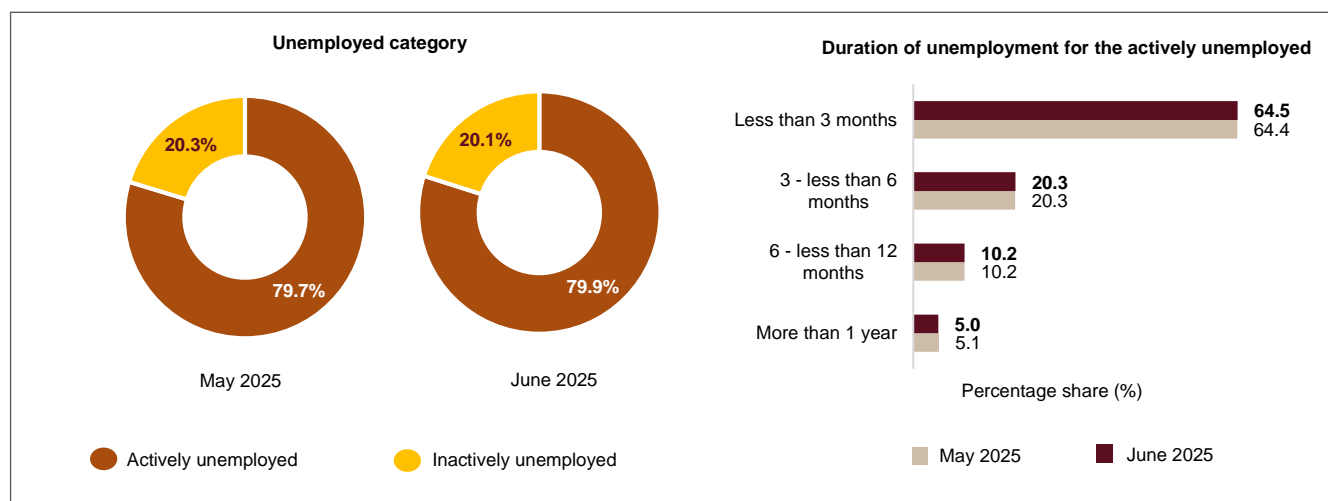

In June 2025, the unemployment rate for youth aged **15 to 24 years** remained unchanged at **10.2 per cent**, with **297.5 thousand unemployed youths** (May 2025: 10.2%; 297.7 thousand persons). Meanwhile, the unemployment rate for youth aged **15 to 30 years** stood at **6.2 per cent**, registering **396.8 thousand unemployed youths** as against 399.0 thousand persons in May 2025 **[Chart 5]**.

**Chart 5:** The number of unemployed persons and unemployment rate by selected age groups, January - June[r], October[r] - December 2024, and January - June 2025

4 LABOUR FORCE

The **labour force** remained on a steady growth, increasing by **0.3 per cent (+49.2 thousand persons)** month-on-month to **17.43 million persons** in June 2025 (May 2025: 17.38 million persons). The **labour force participation rate (LFPR)** during the month stood at **70.8 per cent**, consistent with the previous month. The seasonally adjusted figure also indicated a 0.3 per cent rise in the labour force, registering a higher LFPR at 70.8 per cent.

Year-on-year, the labour force increased by 2.7 per cent, adding 461.8 thousand persons against 16.97 million persons in June[r] 2024. Consequently, the LFPR registered a rise of 0.2 percentage points from 70.6 per cent in June[r] 2024 **[Chart 6]**.

Chart 6: Labour force and LFPR, January - June[r], October[r] - December 2024, and January - June 2025

Person ('000)

Note: [r] Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

The labour force for both males and females was on an uptrend throughout the month. The **male labour force** rose to **10.98 million persons**, up from 10.95 million persons in May 2025. Meanwhile, the **female labour force** increased to **6.45 million persons** as compared to 6.44 million persons last month. As for the LFPR, both the male and female LFPR were unchanged during the month. The **male LFPR** was **83.3 per cent** and the **female LFPR** registered **56.4 per cent**, as of May 2025.

On an annual basis, the male labour force recorded an increase of 3.2 per cent from 10.64 million persons in June[r] 2024. Similarly, the female labour force went up by 1.9 per cent as against 6.33 million persons in the same month last year. Therefore, compared to June[r] 2024, the LFPR for males climbed by 0.2 percentage points from 83.1 per cent, while the female LFPR rose by 0.1 percentage points to 56.3 per cent **[Chart 7]**.

Chart 7: Labour force and LFPR by sex, January - June[r], October[r] - December 2024, and January - June 2025

Note: [r] Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

5 OUTSIDE LABOUR FORCE

The main reasons for those being outside the labour force were housework/ family responsibilities

In June 2025, the number of persons **outside the labour force** decreased marginally by **0.004 per cent (-0.3 thousand persons)** to **7.18 million persons** (May 2025: 7.18 million persons). Compared with one year earlier, this figure escalated by 1.5 per cent (+104.2 thousand persons) from 7.07 million persons in June[r] 2024. The main reasons for those being outside the labour force were **housework/ family responsibilities**, comprising **43.7 per cent**, followed by the **schooling/ training** category at **40.9 per cent [Chart 8]**.

Chart 8: Share of outside labour force by reasons for not seeking work, May and June 2025
6 LOOKING AHEAD

The country's labour market continued to show favourable growth momentum in June 2025. This was driven by consistent economic growth, rising investments, increased hiring, especially in financial services, information technology, retail trade, and e-commerce and a sustained high labour force participation rate, reflecting strong confidence in the labour market.

The strengthening position of Malaysia's labour market has also had a positive impact on the country's economy. An increase in the number of employed persons raises income levels, which in turn boosts household spending. This directly stimulates demand for goods and services, helping businesses to grow and contributing to overall economic expansion. According to the OECD, Malaysia's Gross Domestic Product (GDP) is projected to grow by 3.8 per cent in 2025 and 4.1 per cent in 2026, driven by strong domestic demand[5].

In addition, rising domestic demand, higher labour productivity, increased employment opportunities, and broad-based investments, particularly in high technology, advanced manufacturing, green technology, and strategic sectors, are also among the factors that place the country's labour market in a stable outlook in the coming months. Although there are challenges such as talent migration, global trade tensions, and inflation, government policies focusing on digitalisation, technical training, and investment incentives are expected to sustain medium- to long-term growth in the labour market.

Therefore, a strong labour market not only affects unemployment rates but also helps to position Malaysia as an attractive destination for strategic investors while expanding quality job opportunities across a broader range of economic sectors.

Furthermore, the implementation of initiatives under the 13th Malaysian Plan emphasises a holistic approach to strengthening Malaysia's labour market through wage improvements, the expansion of employment opportunities, the inclusion of vulnerable groups, and enhancements to social protection. As a result, the country's labour force is expected to maintain a positive outlook in the coming months in line with these developments.

Notes:

1. The Labour Force Survey statistics for 2019 and preceding years are estimated based on the Population and Housing Census of Malaysia 2010

2. The Labour Force Survey statistics for 2020 and onwards are estimated based on the Population and Housing Census of Malaysia 2020

3. [1]For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

A: Agriculture, forestry, livestock and fishing
B: Mining and quarrying
C: Manufacturing
D: Electricity, gas and water
E: Construction
F: Wholesale and retail trade, restaurants and hotels
G: Transport, storage and communications
H: Finance, insurance, real estate and business services
I: Community, social and personal services

4.[2]For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

A: Agriculture, hunting and forestry
B: Fishing
C: Mining and quarrying
D: Manufacturing
E: Electricity, gas and water supply
F: Construction
G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods
H: Hotels and restaurants
I: Transport, storage and communications
J: Financial intermediation
K: Real estate, renting and business activities
L: Public administration and defence; compulsory social security
M: Education
N: Health and social work
O: Other community, social and personal service activities
P: Private households with employed persons

5. [3]For 2010 - 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:

A: Agriculture, forestry and fishing
B: Mining and quarrying
C: Manufacturing
D: Electricity, gas, steam and air conditioning supply
E: Water supply; sewerage, waste management and remediation activities
F: Construction
G: Wholesale and retail trade, repair of motor vehicles and motorcycles
H: Transportation and storage
I: Accommodation and food service activities
J: Information and communication
K: Financial and insurance/takaful activities
L: Real estate activities
M: Professional, scientific and technical activities
N: Administrative and support service activities
O: Public administration and defence; compulsory social security
P: Education
Q: Human health and social work activities
R: Arts, entertainment and recreation
S: Others service activities
T: Activities of households as employers

6. [4]For year 2011-2019 & 2021-2024, total includes 'Activities of extraterritorial organizations and bodies'

Table E: Employed person by industry, Malaysia, 1982 - 2024 (cont'd)

('000)

Notes:

1. The Labour Force Survey statistics for 2019 and preceding years are estimated based on the Population and Housing Census of Malaysia 2010
2. The Labour Force Survey statistics for 2020 and onwards are estimated based on the Population and Housing Census of Malaysia 2020

3. [1]For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

A: Agriculture, forestry, livestock and fishing
B: Mining and quarrying
C: Manufacturing
D: Electricity, gas and water
E: Construction
F: Wholesale and retail trade, restaurants and hotels
G: Transport, storage and communications
H: Finance, insurance, real estate and business services
I: Community, social and personal services

4. [2]For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

A: Agriculture, hunting and forestry
B: Fishing
C: Mining and quarrying
D: Manufacturing
E: Electricity, gas and water supply
F: Construction
G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods
H: Hotels and restaurants
I: Transport, storage and communications
J: Financial intermediation
K: Real estate, renting and business activities
L: Public administration and defence; compulsory social security
M: Education
N: Health and social work
O: Other community, social and personal service activities
P: Private households with employed persons

5. [3]For 2010 - 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:

A: Agriculture, forestry and fishing
B: Mining and quarrying
C: Manufacturing
D: Electricity, gas, steam and air conditioning supply
E: Water supply; sewerage, waste management and remediation activities
F: Construction
G: Wholesale and retail trade, repair of motor vehicles and motorcycles
H: Transportation and storage
I: Accommodation and food service activities
J: Information and communication
K: Financial and insurance/takaful activities
L: Real estate activities
M: Professional, scientific and technical activities
N: Administrative and support service activities
O: Public administration and defence; compulsory social security
P: Education
Q: Human health and social work activities
R: Arts, entertainment and recreation
S: Others service activities
T: Activities of households as employers

6. [4]For year 2011-2019 & 2021-2024, total includes 'Activities of extraterritorial organizations and bodies'

Table F: Employed person by status of employment, Malaysia, 1982 - 2024

('000)

Time Series	Total	Status of Employment			
		Employer	Employee	Own Account Worker	Unpaid Family Worker
