## BULETIN PERANGKAAN BULANAN MALAYSIA NOVEMBER 2025

### MONTHLY STATISTICAL BULLETIN MALAYSIA NOVEMBER 2025

#### Pemakluman

Jabatan Perangkaan Malaysia (DOSM) sedang melaksanakan Banci Ekonomi 2026 (BE2026), bertemakan “Data Nadi Ekonomi Rakyat”. Pelaksanaan Banci Ekonomi kali keenam ini berlangsung dari 5 Januari hingga 31 Oktober 2026. BE2026 bertujuan untuk mengumpul data yang menyeluruh dan berstruktur daripada semua pertubuhan perniagaan berdaftar dan tidak berdaftar di Malaysia, bagi menilai prestasi, struktur serta ciri-ciri ekonomi negara secara komprehensif dan berasaskan bukti.

Malaysia buat julung kalinya telah menduduki tangga pertama (1) di peringkat global dalam laporan dwi-tahunan Open Data Inventory (ODIN) 2024/25 yang dikeluarkan oleh Open Data Watch (ODW), mengatasi 197 negara lain. Pencapaian ini merupakan lonjakan ketara daripada kedudukan ke-67 dalam penilaian ODIN 2022/23.

OpenDOSM NextGen adalah medium yang menyediakan katalog data dan visualisasi bagi memudahkan pengguna menganalisis pelbagai data dan boleh diakses melalui portal <https://open.dosm.gov.my>.

#### Announcement

*The Department of Statistics Malaysia (DOSM) is conducting the Economic Census 2026 (BE2026), themed “Data Nadi Ekonomi Rakyat”. The sixth Economic Census, running from 5<sup>th</sup> January to 31<sup>st</sup> October 2026. BE2026 aims to collect comprehensive, structured data from all registered and unregistered business establishments in Malaysia to assess the nation’s economic performance, structure and characteristics in an evidence-based manner.*

*Malaysia has, for the first time, successfully secured the top position globally in the biennial Open Data Inventory (ODIN) 2024/25 report released by Open Data Watch (ODW), surpassing 197 other countries. This achievement marks a significant leap from its 67<sup>th</sup> position in the ODIN 2022/23 assessment.*

*OpenDOSM NextGen is a medium that provides data catalogue and visualisations to facilitate users' analysis and can be accessed through <https://open.dosm.gov.my>.*

## PREFACE

*The Monthly Statistical Bulletin Malaysia provides up-to-date monthly information on demography, social, and economic characteristics of Malaysia. The publication presents various statistics which include population, employment, prices, agriculture, mining, manufacturing, services, external trade, transport and communications, direct investment, national accounts, environment and social.*

*Some key indicators are presented at the beginning of the publication to provide users with a quick understanding of the basic trends of the economy.*

*The Monthly Statistical Bulletin serves as a useful and convenient reference on the socio-economic situation of the country. Detailed statistics can be obtained in other specific publications of the Department.*

*The Department gratefully acknowledges the co-operation of all parties concerned in providing information for this publication. Comments and suggestions towards improving future publications would be greatly appreciated.*

Nota / Notes :

1 Produktiviti Buruh Suku Tahunan mula diterbitkan oleh Jabatan Perangkaan Malaysia pada Suku Ketiga 2017. Laporan ini turut memuatkan statistik pekerja siri masa suku tahunan mulai Suku Pertama 2015.  
*Quarterly Labour Productivity was first published by the Department of Statistics, Malaysia in the Third Quarter of 2017. This report also includes time series statistics of quarterly employment starting from the First Quarter of 2015.*

2 Jabatan Perangkaan Malaysia telah menghentikan penerbitan statistik pekerja mengikut industri secara suku tahunan berdasarkan Survei Tenaga Buruh. Statistik yang dikeluarkan ini adalah merujuk kepada statistik pekerja mengikut jenis aktiviti ekonomi berdasarkan Laporan Produktiviti Buruh Suku Tahunan.  
*The Department of Statistics, Malaysia has stopped publishing quarterly employment statistics by industry based on Labour Force Survey. These statistics are based on employment by kind of economic activity based on the Quarterly Labour Productivity Report.*

3 Kaedah penganggaran data pekerja adalah berdasarkan penyesuaian maklumat isi rumah iaitu Survei Tenaga Buruh dan maklumat pertubuhan iaitu Perangkaan Pembuatan Bulanan, Survei Perkhidmatan Suku Tahunan, Survei Guna Tenaga dan Banci Ekonomi yang dikeluarkan oleh Jabatan Perangkaan Malaysia.  
*The methodology of estimating employment data are based on the calibration of household information which is Labour Force Survey and establishment information from Monthly Manufacturing Statistics, Quarterly Services Survey, Employment Survey and Economic Census published by the Department of Statistics, Malaysia.*

Nota / Notes:

1 Statistik pengeluaran merujuk kepada pengeluaran daripada milikan lombong sahaja.

*Production statistics refers to roduction from mining concessons only.*

2 Termasuk emas mentah dan kandungan emas dari konsentrat tembaga.

*Includes raw gold and gold from copper concentrates.*

3 Merujuk kepada emas "Non-monetary, unwrought or semi-manufactured forms, or in powder form".

*Refers to gold of "Non-monetary, unwrought or semi- manufactured forms, or in powder form".*

4 Merujuk kepada Kaolin sahaja.

*Refers to Kaolin only.*

Nota / Notes :

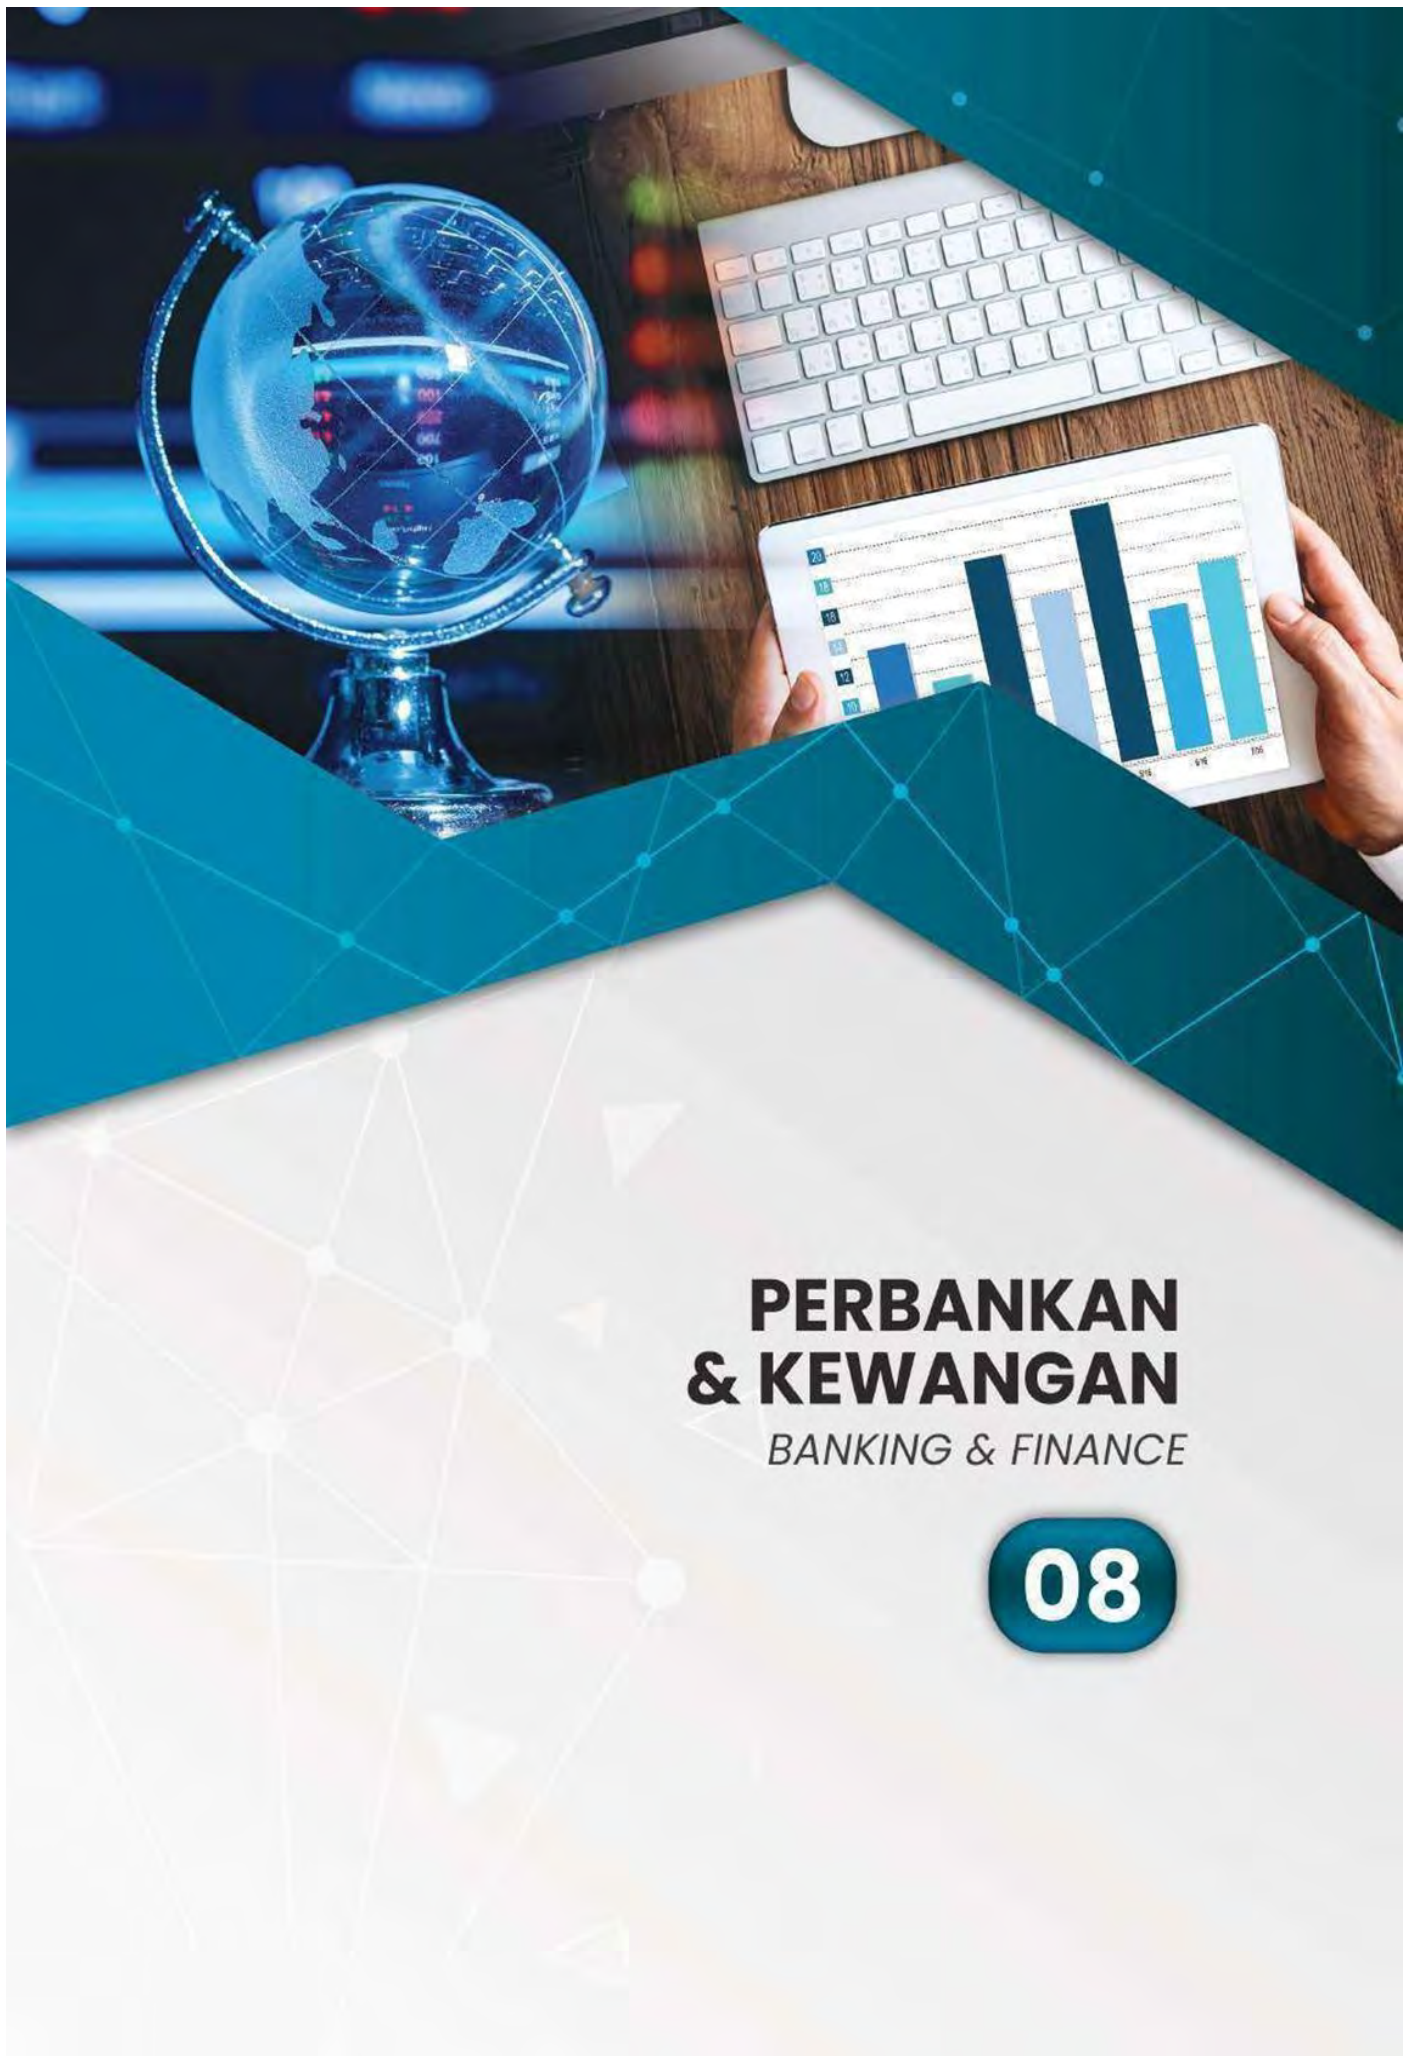

- <sup>1</sup> Kadar penembusan Talian Ibu sawat Terus bagi 100 isi rumah dikira dengan membahagi jumlah langganan isi rumah dengan jumlah isi rumah dan didarab dengan 100  
*The Direct Exchange Line (DEL) penetration rate per 100 households is calculated by dividing the number of household subscriptions by the number of households and multiplying by 100*
- <sup>2</sup> Kadar penembusan jalur lebar bagi 100 isi rumah bagi suku keempat 2015 telah disemak semula dengan membahagi jumlah langganan isi rumah dengan jumlah isi rumah dan didarab dengan 100  
*The broadband penetration rate per 100 households for Q4 2015 is revised by dividing the number of household subscriptions by the number of households and multiplied by 100*
- <sup>3</sup> Kadar penembusan selular mudah alih dikira sebagai jumlah langganan dibahagi jumlah penduduk dan didarabkan dengan 100  
Penembusan yang melebihi 100% boleh berpunca daripada pelanggan yang melanggan melebihi daripada satu langganan  
*The mobile cellular penetration rate refers to the total subscriptions divided by the total population and multiplied by 100*  
*A penetration rate over 100% can occur because of multiple subscriptions*
- <sup>4</sup> Kadar penembusan jalur lebar bagi 100 penduduk dikira dengan membahagi jumlah langganan isi rumah dan langganan bukan isi rumah ditambah dengan langganan *pay per use* dengan jumlah penduduk dan didarab dengan 100. Langganan Wi-Fi awam tidak diambilkira.  
*The broadband penetration rate per 100 inhabitants is calculated by dividing the sum of household and non-household subscriptions added with pay per use subscriptions by the number of inhabitants and multiplying by 100. Public Wi-Fi subscriptions are not taken into account.*
- <sup>5</sup> Kadar penembusan jalur lebar bagi 100 isi rumah bagi suku keempat 2017 merujuk kepada Paparan 7 "Laporan Penyiasatan Penggunaan dan Capaian ICT oleh Individu dan Isi Rumah 2017" terbitan Jabatan Perangkaan Malaysia.  
*The broadband penetration rate per 100 households for Q4 2017 is referring to Exhibit 7 of the "ICT Use and Access by Individuals and Household Survey Report 2017" by DOSM.*
- <sup>7</sup> Kadar penembusan jalur lebar tetap bagi 100 premis dikira dengan membahagi jumlah langganan jalur lebar tetap dengan kelajuan 1Mbit/s dan ke atas bagi isi rumah dan bukan isi rumah dengan jumlah premis dan didarab dengan 100.  
*The fixed-broadband penetration rate per 100 premises is calculated by dividing the sum of fixed-broadband household and non-household subscriptions with speed equal or more than 1Mbit/s by the number of premises and multiplying by 100.*
- <sup>8</sup> Kadar penembusan jalur lebar mudah alih bagi 100 penduduk dikira dengan membahagi jumlah langganan isi rumah dan langganan bukan isi rumah ditambah dengan langganan *pay per use* dengan jumlah penduduk dan didarab dengan 100. Langganan Wi-Fi awam tidak diambilkira.  
*The mobile-broadband penetration rate per 100 inhabitants is calculated by dividing the sum of household and non-household subscriptions added with pay per use subscriptions by the number of inhabitants and multiplying by 100. Public Wi-Fi subscriptions are not taken into account.*
- \* Bermula suku keempat 2015, pengiraan langganan dan kadar penembusan jalur lebar disemak semula dengan tidak lagi mengambil kira jalur lebar tetap yang berkelajuan kurang daripada 1Mbit/s.  
*Commencing Q4 2015, the calculation for broadband subscriptions and penetration rates are revised to exclude fixed-broadband with downstream speeds less than 1Mbit/s.*
- ... Tidak diterbitkan mulai 2018.  
*Unpublished since 2018.*
- \*\* Diterbitkan mulai 2020.  
*Published since 2020.*

Nota / Notes:

1 Tidak termasuk pindahan antara akaun seperti Kumpulan Wang Pembangunan.

2 Termasuk perubahan-perubahan dalam baki-baki Kumpulan Wang Amanah Kerajaan. Tanda tolak menunjukkan penimbunan harta-harta.

3 Angka-angka suku tahunan adalah awalan.

Jumlah tidak semestinya tepat disebabkan oleh penggenapan.

Nota: Kalendar siaran awal bagi kategori data ini boleh didapati di laman web DSBB-IMF (<http://dsbb.imf.org>).

1 Excludes intra-account transfer such as Development Fund.

2 Include changes in Government Trust Fund balances. A minus sign indicates the accumulation of assets.

3 Quarterly figures are preliminary.

Numbers may not add up to total due to rounding.

Nota / Notes:

- 1 Jadual ini tidak boleh dibandingkan dengan jadual yang terdahulu iaitu "Hutang Kerajaan Persekutuan: Pengelasan Mengikut Tempoh Matang Asal". Jadual ini telah diubah bagi menunjukkan perbezaan dalam sumber data dan metodologi.
- 2 Berikutan hutang luar negeri yang diberikan definisi semula (bermula suku pertama tahun 2014), komposisi hutang dalam negeri tidak termasuk pemegang hutang Kerajaan Persekutuan dalam denominasi ringgit oleh bukan pemastautin (Sekuriti Kerajaan Malaysia, Terbitan Pelaburan Kerajaan, Bil-bil Perbendaharaan dan Sukuk Perumahan Kerajaan)
- 3 Terutamanya pinjaman kepada Kumpulan Wang Pinjaman Perumahan, pinjaman pasaran (Pinjaman pasaran mulai suku pertama 2008), terbitan Sukuk Simpanan Rakyat pada bulan Mei 2009 yang telah matang pada tahun 2012, Sukuk 1 Malaysia pada bulan Mei 2010 yang telah matang pada tahun 2013 dan Wakala Global Sukuk mulai suku kedua 2016 yang akan matang pada tahun 2026
- 4 Merujuk kepada hutang luar negeri yang diberikan definisi semula yang termasuk peminjaman luar pesisir dan pemegang hutang Kerajaan Persekutuan dalam denominasi ringgit oleh bukan pemastautin (Sekuriti Kerajaan Malaysia, Terbitan Pelaburan Kerajaan, Bil-bil Perbendaharaan dan Sukuk Perumahan Kerajaan)
- 5 Hutang luar negeri yang dinilai semula pada kadar pertukaran pada akhir tahun/suku tahun itu
- 6 Merujuk kepada pemegang hutang Kerajaan Persekutuan dalam denominasi ringgit oleh bukan pemastautin yang diklasifikasikan sebagai hutang dalam negeri di bawah definisi terdahulu.
- 7 Sebelum 31 Mac 2015, Sukuk ini dikenali sebagai Terbitan Pelaburan Kerajaan
- Jumlah tidak semestinya tepat disebabkan oleh penggenapan.
- Nota: Kalendar siaran awal bagi kategori data ini boleh didapati di laman web DSBB-IMF (<http://dsbb.imf.org>).
- 1 This table is not comparable with the previous table on "Federal Government Debt: Classification by Original Maturity". The table has been changed to reflect changes in data source and methodology.
- 2 Following the redefinition of external debt (effective first quarter 2014), the domestic debt composition excludes non-resident holdings of ringgit-denominated Federal Government debt (MGS, GII, T-bills and Sukuk Perumahan Kerajaan)
- 3 Mainly loans to the Housing Loans Fund, market loan (Market loan begins from first quarter 2008), issuance of Sukuk Simpanan Rakyat in May 2009 that has matured in 2012, Sukuk 1 Malaysia in May 2010 that has matured in 2013 and Wakala Global Sukuk beginning second quarter 2016 which will mature in 2026.
- 4 Refers to the redefined external debt which includes offshore borrowing and non-resident holdings of ringgit-denominated Federal Government debt (MGS, GII, T-bills and Sukuk Perumahan Kerajaan)
- 5 The external debt was revalued at prevailing exchange rates at the end of each year/quarter.
- 6 Refers to the non-resident holdings of ringgit-denominated Federal Government debt which was classified as domestic debt under the previous definition.
- 7 Prior to 31 March 2015, this Sukuk is known as Government Investment Issues
- Numbers may not add up to total due to rounding.

Nota / Note :

(a) Perdagangan langsung dari dan ke luar negeri merujuk kepada import dan eksport dari dan ke Sabah yang tidak dipunggang atau dipindahkan di Singapura. Ini termasuk perdagangan dengan Semenanjung Malaysia dan Sarawak.

Direct foreign trade refers to imports and exports into and from Sabah that are not handled or transhipped at the Republic of Singapore.

It includes trade with Peninsula Malaysia and Sarawak.

(b) Merujuk kepada import dan eksport Sabah melalui limbongan dan jeti Singapura. Oleh itu, barang-barang yang berasal dari Singapura yang dibawa masuk ke Sabah dan barang-barang yang berasal dari Sabah yang dieksport ke Singapura adalah termasuk di bawah kepala rencana ini.

Refers to Sabah's imports and exports which pass through (via) the Republic of Singapore docks and wharves, hence, goods of the Republic of

Singapore origin imported into Sabah and goods of Sabah origin exported to the Republic of Singapore are included under this heading.

Nota / Note :

<sup>1</sup> Termasuk barang elektrik dan elektronik.

Includes electrical and electronic products.

a: Kenaikan nilai eksport Seksyen Unus niaga dan barangan yang tidak dikelaskan dimana-mana SITC disebabkan transaksi eksport bahagian kapal terbang.

The increase in the value of exports in Section Commodities and transactions not classified elsewhere in the SITC is due to the export transaction of aircraft parts.

## 16.3a Import mengikut Seksyen SITC - Sabah

Imports by SITC Sections - Sabah

a &amp; b : Penurunan nilai eksport bagi Keluaran Petroleum Bertapis disebabkan oleh penutupan kilang sejak pertengahan bulan Mac.

The decline in value of export for Refined Petroleum Products is due to plant shutdown since mid-March.

Nota/Notes :

- a & b : Penurunan nilai eksport bagi Urea disebabkan oleh penutupan kilang yang tidak dirancang.  
*The decline in value of export for Urea is due to unplanned shutdown at plant.*
- c : Penurunan nilai eksport bagi Udang, Segar, Disejukbekukan disebabkan oleh tiada transaksi pengeksportan ke China.  
*The drop in export value for Prawns, Fresh, Frozen is due to a lack of export transactions to China.*
- d : Peningkatan nilai eksport Urea disebabkan oleh peningkatan transaksi pengeksportan ke India dan Republik Korea.  
*The increase in export value for Urea is due to the rise in the export transactions to India and Republic of Korea.*
- e & g : Penurunan nilai eksport Venir Keping dipengaruhi oleh penjadualan perkapalan.  
*The decrease in the export value of Veneer Sheets is affected by the shipment schedule.*
- f : Penurunan nilai eksport Urea dipengaruhi oleh penjadualan perkapalan.  
*The decrease in the export value of Urea is affected by the shipment schedule.*
- j : Peningkatan nilai eksport Urea disebabkan ada transaksi eksport ke India, Philippines dan Republik Korea berbanding 3 bulan yang lepas.  
*The increase in the value of Urea exports is due to export transactions to India, the Philippines, and the Republic of Korea compared to three months ago.*

Sumber: Jabatan Perangkaan Malaysia

Nota / Note :

Source: Department of Statistics, Malaysia

a : Penurunan nilai import bagi Gandum belum dikilang disebabkan oleh pengurangan import *Australian Premium White Wheat* .

The decline in value of imports for Wheat, Unmilled is due to a reduction in the import of Australian Premium White Wheat .

b & c & f: Penurunan nilai import Jagung (termasuk Jagung Manis) dipengaruhi oleh penjadualan perkapalan.

The decrease in the import value of Maize (including Sweet Corn) is affected by the shipment schedule.

d : Peningkatan nilai import bagi Gandum belum dikilang disebabkan oleh kenaikan import *Australian Premium White Wheat* dan *Australian Hard Wheat*

The increase in import value for Wheat, Unmilled is due to the rise in the import of Australian Premium White Wheat and Australian Hard Wheat.

e : Penurunan nilai import Gandum belum dikilang disebabkan oleh pengimportan secara pukal pada bulan sebelumnya dan dipengaruhi oleh jadual perkapalan

The decrease in the import value for Wheat, Unmilled is due to bulk imports the previous month and influenced by the shipping schedule.

|-------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Aliran Transaksi</b>                         | la merujuk kepada perolehan dan pelupusan aset kewangan dan liabiliti dalam tempoh rujukan. Ia terdiri daripada transaksi dalam tiga instrumen kewangan utama iaitu modal ekuiti, perolehan dilabur semula dan modal lain.                                                                                                                                                                                                          |
| <b>Bekerja</b>                                  | Merujuk kepada semua orang yang bekerja sekurang-kurangnya sejam semasa minggu rujukan untuk mendapatkan upah, keuntungan atau keuntungan keluarga (sebagai majikan, pekerja, bekerja sendiri atau pekerja keluarga tanpa gaji).                                                                                                                                                                                                    |
| <b>Eksport f.o.b. (free on board)</b>           | Merujuk kepada nilai barangan di pasaran di sempadan Perangkaan/kastam negara pengeksport, termasuk semua perbelanjaan pengangkutan ke sempadan tersebut, duti eksport dan duti lain yang kena bayar serta kos untuk memunggah barang ke atas alat pengangkutan kecuali kos terakhir itu ditanggung sendiri oleh pengangkut.                                                                                                        |
| <b>Eksport Semula Barangan</b>                  | Merujuk kepada sesuatu barang yang dibawa keluar dari negara dalam keadaan seperti mana ianya diimport tanpa mengalami sebarang perubahan rupa. Proses membungkus semula, menyisih atau menggred tidak dikira sebagai satu proses perubahan rupa.                                                                                                                                                                                   |
| <b>Enterpris Pelaburan Langsung (DIE)</b>       | DIE merupakan sama ada subsidiari (pemilikan melebihi 50 peratus), syarikat bersekutu (pemilikan 10 peratus hingga 50 peratus) atau cawangan (pemilikan 100 peratus) bagi syarikat induk asing/ibu pejabat di negara berlainan.                                                                                                                                                                                                     |
| <b>Estet</b>                                    | Sesebuah estet getah/kelapa sawit/koko adalah ditakrifkan seperti berikut :<br>(i) semua kawasan bersambung atau berpecah-pecah, dengan keluasan tidak kurang daripada 40.47 hektar (100 ekar), ditanam dengan sesuatu tanaman atau di mana penanaman tanaman tersebut dibenarkan dan di bawah satu hak milik yang sah; atau<br>(ii) mana-mana keluasan yang ditanam dengan sesuatu tanaman tersebut di estet yang telah sedia ada. |
| <b>Hari hujan</b>                               | Merujuk kepada hari di mana jumlah hujan yang direkod adalah sama atau melebihi 0.1 mm.                                                                                                                                                                                                                                                                                                                                             |
| <b>Iklim</b>                                    | Merujuk kepada himpunan keadaan cuaca harian dan musim bagi suatu tempoh yang panjang biasanya melebihi 30 tahun.                                                                                                                                                                                                                                                                                                                   |
| <b>Imbangan perdagangan</b>                     | Merujuk kepada perbezaan antara nilai eksport dan import. Apabila eksport melebihi import lebihan direkodkan manakala defisit pula dicatatkan apabila import melebihi eksport.                                                                                                                                                                                                                                                      |
| <b>Import c.i.f. (kos, insuran dan tambang)</b> | Merujuk kepada nilai barangan di pasaran di sempadan Perangkaan/kastam negara pengimport, termasuk semua perbelanjaan insuran dan tambang semasa dalam perjalanan tetapi kos pemunggahan dari alat pengangkutan tidak diambil kira kecuali kos tersebut ditanggung sendiri oleh pengangkut.                                                                                                                                         |
| <b>Indeks Pengeluaran Perindustrian</b>         | Indeks Pengeluaran Perindustrian meliputi Sektor Perlombongan, Pembuatan dan elektrik. Ia adalah satu ukuran kadar perubahan sebenar pengeluaran komoditi perindustrian bagi satu tempoh masa.                                                                                                                                                                                                                                      |
| <b>Jangkaan Hayat ketika Lahir</b>              | Jangkaan hayat adalah purata baki umur (tahun) seseorang dijangka dapat hidup pada permulaan umur tertentu dengan andaian kadar kematian umur tertentu adalah sama sepanjang hayat.                                                                                                                                                                                                                                                 |
| <b>Kadar Pertambahan Semula Jadi Kasar</b>      | Merujuk kepada perbezaan di antara kelahiran dan kematian bagi setiap 1,000 penduduk.                                                                                                                                                                                                                                                                                                                                               |
| <b>Kadar Kelahiran Kasar</b>                    | Bilangan kelahiran hidup bagi setiap 1,000 penduduk.                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Kadar Kematian Kasar</b>                     | Bilangan kematian bagi setiap 1,000 penduduk.                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Kadar Mortaliti Bayi</b>                     | Bilangan kematian bayi berumur kurang daripada 1 tahun bagi setiap 1,000 kelahiran hidup.                                                                                                                                                                                                                                                                                                                                           |
| <b>Kadar penyertaan tenaga buruh</b>            | Merujuk kepada perkadaran penduduk dalam tenaga buruh kepada jumlah penduduk dalam umur bekerja (15-64 tahun) yang dipersembahkan dalam bentuk peratus                                                                                                                                                                                                                                                                              |

|                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Kebun Kecil</b>                                              | Sesebuah kebun kecil getah/kelapa sawit/koko ditakrifkan sebagai semua kawasan, bersambungan atau berpecah-pecah, seluas kurang daripada 40.47 hektar (100 ekar), ditanam dengan sesuatu tanaman atau di mana penanaman tanaman tersebut dibenarkan dan di bawah satu hak milik yang sah. Walau bagaimanapun, rancangan-rancangan kemajuan tanah (FELDA, FELCRA dan sebagainya) telah dimasukkan sebagai kebun kecil walaupun ada diantara rancangan kemajuan tanah itu mungkin secara individu mempunyai keluasan lebih daripada 40.47 hektar (100 ekar). |
| <b>Kerangka Hubungan Pelaburan Langsung (FDIR)</b>              | FDIR secara umumnya merupakan metodologi bagi mengenalpasti dan menentukan had dan jenis hubungan pelaburan langsung di antara DI dan DIE. Bagi pelaburan yang tidak mempunyai hak milik modal ekuiti langsung tetapi mempunyai transaksi dalam bentuk modal lain, transaksi pelaburan langsung tersebut dikenal pasti mengikut konsep FDIR.                                                                                                                                                                                                               |
| <b>Keluaran Dalam Negeri Kasar (KDNK)</b>                       | Jumlah nilai barang dan perkhidmatan yang dikeluarkan dalam tempoh tertentu selepas ditolak harga barang dan perkhidmatan yang digunakan dalam proses pengeluaran tetapi belum ditolak penggunaan modal tetap. KDNK boleh dinilai pada nilai pembeli dan pada harga faktor.                                                                                                                                                                                                                                                                                |
| <b>Klasifikasi Sektor</b>                                       | Sektor dikelaskan mengikut Piawaian Klasifikasi Industri Malaysia (MSIC) 2008 Ver. 1.0.                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>M1</b>                                                       | Terdiri daripada mata wang dalam edaran dan deposit permintaan sektor swasta yang disimpan dengan bank perdagangan dan bank islam.                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>M2</b>                                                       | Terdiri daripada M1 campur separuh wang secara kecil. Separuh wang secara kecil terdiri daripada deposit tabungan dan tetap, instrumen deposit boleh niaga (NID), repo dan deposit mata wang asing oleh sektor swasta yang disimpan dengan bank perdagangan dan bank islam.                                                                                                                                                                                                                                                                                |
| <b>M3</b>                                                       | Terdiri daripada M2 campur deposit oleh sektor swasta yang disimpan dengan syarikat kewangan, bank saudagar dan syarikat diskaun. Tidak termasuk penyimpanan di antara                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Negara Pelabur Langsung dan Enterpris Pelaburan Langsung</b> | Negara DI dan DIE adalah berasaskan negara pelabur 'immediate' (pelaburan yang melibatkan modal ekuiti). Bagi pelaburan yang tiada modal ekuiti tetapi mempunyai transaksi dalam bentuk modal lain, negara pelabur dikenalpasti mengikut konsep FDIR.                                                                                                                                                                                                                                                                                                      |
| <b>Pelabur Langsung (DI)</b>                                    | Merujuk kepada entiti (individu atau syarikat) yang memiliki, sama ada secara langsung atau tidak langsung, sekurang-kurangnya 10 peratus modal ekuiti (dalam bentuk syer biasa atau kuasa mengundi) dalam syarikat di negara berlainan.                                                                                                                                                                                                                                                                                                                   |
| <b>Pelaburan Langsung Asing (FDI)</b>                           | Merujuk kepada pelaburan dalam bentuk instrumen kewangan daripada pelabur langsung asing dalam enterpris langsung asing di Malaysia.                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Pelaburan Langsung di Luar Negeri (DIA)</b>                  | Merujuk kepada pelaburan dalam bentuk instrumen kewangan iaitu modal ekuiti, perolehan dilabur semula dan modal lain daripada pelabur langsung Malaysia dalam enterpris pelaburan langsung di luar negeri.                                                                                                                                                                                                                                                                                                                                                 |
| <b>Pengeluaran Getah Asli</b>                                   | Pengeluaran getah asli merujuk kepada kandungan getah kering (KGK) susu getah cair, skrap dan getah keping yang dihasilkan oleh estet dan pekebun kecil pada tempoh rujukan. Sementara pengeluaran estet diperolehi terus dari estet, pengeluaran kebun kecil pula dianggap bersamaan dengan pembelian oleh pemproses getah melalui peniaga getah daripada pekebun kecil pada bulan berkenaan.                                                                                                                                                             |
| <b>Perikanan</b>                                                | Sektor perikanan dikategorikan kepada tangkapan ikan marin dan pengeluaran akuakultur. Akuakultur didefinisikan sebagai pembiakan benih ikan atau pemeliharaan biak kan melalui perusahaan ternak keseluruhan atau sebahagian daripada peredaran hidupnya. Aktiviti akuakultur merangkumi pengeluaran ikan, kerang kerangan, tiram, rumpai laut dan lain di laut, tasik atau sungai.                                                                                                                                                                       |
| <b>Tenaga buruh</b>                                             | Merujuk kepada mereka yang berumur 15 hingga 64 tahun (dalam tahun genap pada hari lahir terakhir) semasa minggu rujukan, sama ada bekerja atau menganggur.                                                                                                                                                                                                                                                                                                                                                                                                |

|                                                     |                                                                                                                                                                                                                                                                                                                                                     |
|-----------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Transaction Flows</b>                            | <i>This refers to acquisitions and disposals of financial assets and liabilities during a reference period. It comprises of transactions in three major financial instruments namely equity capital, reinvested earnings and other capital.</i>                                                                                                     |
| <b>Employed</b>                                     | <i>Refers to all persons who, at any time during the reference week worked at least one hour for pay, profit or family gain (as an employer, employee, own-account worker or unpaid family worker).</i>                                                                                                                                             |
| <b>Exports f.o.b. (free on board)</b>               | <i>Refers to the value of goods in the market at the statistical/custom frontier of the exporting country, including all cost of transporting the goods to the statistical/customs frontier, export and other duties payable as well as the cost of loading the goods onto the carrier unless the latter cost is borne by the carrier.</i>          |
| <b>Re-exports of Goods</b>                          | <i>Refers to goods taken out of the country in the same form as they were imported without any transformation. Re-packing, sorting or grading processes are not considered as part of the transformation process.</i>                                                                                                                               |
| <b>Direct Investment Enterprises (DIE)</b>          | <i>A DIE is either a subsidiary (ownership of more than 50 per cent), an associate (10 percent to 50 per cent ownership) or a branch (100 per cent ownership) of foreign parent companies/head quarters in other countries.</i>                                                                                                                     |
| <b>Estates</b>                                      | <i>A rubber/oil palm/cocoa estate is defined as:<br/>(i) all areas, contiguous or non-contiguous aggregating not less than 40.47 hectares (100 acres), planted with the crop or on which the planting of the crop is permitted and is under a single legal ownership; or<br/>(ii) any area planted with the crop in an already existing estate.</i> |
| <b>Rain day</b>                                     | <i>Refers to a day with rainfall amount equals to or exceeds 0.1 mm.</i>                                                                                                                                                                                                                                                                            |
| <b>Climate</b>                                      | <i>Refers to the accumulation of daily and seasonal weather events of long period of time such as over 30 years.</i>                                                                                                                                                                                                                                |
| <b>Balance of trade</b>                             | <i>Refers to the difference between the value of exports and imports. When exports exceed imports it is recorded as a surplus while a deficit is registered when imports exceed exports.</i>                                                                                                                                                        |
| <b>Imports c.i.f. (cost, insurance and freight)</b> | <i>Refers to the value of goods in the market at the statistical/customs frontier of importing country, including all charges for transport and insurance whilst in transit but excluding the cost of unloading from the carrier unless it is borne by the carrier.</i>                                                                             |
| <b>Index of Industrial Production</b>               | <i>The Index of Industrial Production covers the Mining, Manufacturing and Electricity sectors. It is a measure of the rate of change in the production of industrial commodities in real terms over time.</i>                                                                                                                                      |
| <b>Life Expectancy at birth</b>                     | <i>Refers to the average remaining age (years) for a person is expected to live at the beginning of a certain age if the age-specific death rates of the given period continued throughout his or her lifetime.</i>                                                                                                                                 |
| <b>Crude Rate of Natural Increase</b>               | <i>Refers to the excess of live births over deaths per 1,000 population.</i>                                                                                                                                                                                                                                                                        |
| <b>Crude Birth Rate</b>                             | <i>The number of live births per 1,000 population.</i>                                                                                                                                                                                                                                                                                              |
| <b>Crude Death Rate</b>                             | <i>The number of deaths per 1,000 population.</i>                                                                                                                                                                                                                                                                                                   |
| <b>Infant Mortality Rate</b>                        | <i>Number of deaths aged below 1 year per 1,000 live births.</i>                                                                                                                                                                                                                                                                                    |
| <b>Labour force participation rate</b>              | <i>Refers to the ratio of the labour force to the working age population (15 to 64 years), expressed as percentage.</i>                                                                                                                                                                                                                             |

|                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Smallholdings</b>                                                 | <i>A rubber/oil palm/cocoa smallholding is defined as all areas, contiguous or non- contiguous, aggregating less than 40.47 hectares (100 acres) planted with the crop or on which the planting of the crop is permitted and is under a single legal ownership. However, land development schemes (FELDA, FELCA and others) are included as smallholdings although some land schemes may individually be more than 40.47 hectares (100 acres).</i> |
| <b>Framework for Direct Investment Relationship (FDIR)</b>           | <i>Invest- FDIR is a generalised methodology for identifying and determining the extent and type of direct investment relationships between DI and DIE. As for those that do not have direct equity capital ownership but have transactions in the form of other capital, their direct investment transactions are identified by following the concept of FDIR.</i>                                                                                |
| <b>Gross Domestic Product (GDP)</b>                                  | <i>The total value of goods and services produced within a given period after deducting the cost of goods and services used up in the process of production but before deducting the consumption of fixed capital. GDP can be valued at purchasers' values and at factor cost.</i>                                                                                                                                                                 |
| <b>Sector Classification</b>                                         | <i>The sectors are classified according to Malaysia Standard Industrial Classification (MSIC)</i>                                                                                                                                                                                                                                                                                                                                                  |
| <b>M1</b>                                                            | <i>Consists of currency in circulation and demand deposits of the private sector placed with commercial banks and islamic banks.</i>                                                                                                                                                                                                                                                                                                               |
| <b>M2</b>                                                            | <i>Consists of M1 plus narrow quasi-money. Narrow quasi-money comprising savings and fixed deposits, negotiable instruments of deposits (NIDs), repos and foreign currency deposits of the private sector placed with commercial banks and islamic banks.</i>                                                                                                                                                                                      |
| <b>M3</b>                                                            | <i>Consists of M2 plus deposits of the private sector placed with finance companies, merchant banks and discount houses. Excluded interplacement among the banking institutions.</i>                                                                                                                                                                                                                                                               |
| <b>Country of Direct Investors dan Direct Investment Enterprises</b> | <i>The country of DI and DIEs is based on the immediate investing country (for investment that involves the equity capital). As for those that do not have equity capital but have transactions in the form of other capital, the country of investors are identified by following</i>                                                                                                                                                             |
| <b>Direct Investors (DI)</b>                                         | <i>Refers to an entity (individual or company) that owns, either directly or indirectly, at least 10 per cent of equity capital (in the form of ordinary shares or voting power) of an enterprise in other countries</i>                                                                                                                                                                                                                           |
| <b>Foreign Direct Investment (FDI)</b>                               | <i>Refers to investment in the form of financial instruments by foreign direct investors in direct investment enterprises in Malaysia.</i>                                                                                                                                                                                                                                                                                                         |
| <b>Direct Investment Abroad (DIA)</b>                                | <i>Refers to investment in the form of financial instruments namely equity capital, reinvested earnings and other capital by Malaysian direct investors in direct investment enterprises abroad.</i>                                                                                                                                                                                                                                               |
| <b>Production of Natural Rubber</b>                                  | <i>Production of natural rubber refers to the dry rubber content (DRC) of field latex, scrap and sheets produced by estates and smallholders during the reference period. While estate production is obtained directly from the estates, smallholding production is assumed to be equivalent to purchases by rubber processors through rubber dealers from smallholders during the month.</i>                                                      |
| <b>Fisheries</b>                                                     | <i>The fisheries sector is categorized into the marine capture and aquaculture production. Aquaculture is defined as the propagation of fish seed or the raising of fish through husbandry during the whole or part of its life cycle, which include activities such as fish farming, shellfish cultivation, oyster farming, etc. in sea, lakes or rivers.</i>                                                                                     |
| <b>Labour force</b>                                                  | <i>Refers to those who, during the reference week, are in the 15 to 64 years (in completed years at last birthday) and who are either employed or unemployed.</i>                                                                                                                                                                                                                                                                                  |
