KATA PENGANTAR

Penerbitan Demografi Perniagaan 2024 memaparkan statistik berkaitan penubuhan, penutupan dan kadar survival enterpris di Malaysia yang berdaftar dengan Suruhanjaya Syarikat Malaysia (SSM). Penerbitan ini mula diterbitkan pada tahun 2024 dan merangkumi entiti perniagaan berdaftar dengan SSM di bawah Pendaftaran Syarikat (ROC). Selain itu, penerbitan ini turut ditambah baik pada tahun ini dengan penyediaan jadual statistik untuk rujukan pengguna.

Penerbitan ini dibangunkan berasaskan *Manual on Business Demography Statistics* yang diterbitkan bersama oleh *Organisation for Economic Cooperation and Development* (OECD) dan *Eurostat* pada tahun 2007. Statistik demografi perniagaan berperanan sebagai indikator penting dalam menilai dinamik ekonomi, daya saing, tahap kelangsungan serta pewujudan pekerjaan yang berkait dengan penubuhan dan kesinambungan enterpris baharu.

Penerbitan ini mengandungi empat bahagian. Bahagian pertama memaparkan sorotan utama statistik demografi perniagaan, diikuti dengan ringkasan penemuan di bahagian kedua. Seterusnya, bahagian ketiga mengandungi jadual statistik, manakala bahagian keempat menyediakan nota teknikal yang menerangkan konsep dan definisi bagi membantu pengguna mentafsir statistik yang diterbitkan.

Jabatan Perangkaan Malaysia (DOSM) merakamkan setinggi-tinggi penghargaan atas kerjasama semua pihak yang telah membekalkan data yang diperlukan dan menyumbang kepada kejayaan penerbitan ini. Segala maklum balas dan cadangan untuk penambahbaikan laporan ini pada masa akan datang amat dihargai.

PREFACE

The Business Demography 2024 publication presents statistics on the births, deaths and survival rates of enterprises in Malaysia registered with the Companies Commission of Malaysia (CCM). This publication was first released in 2024 and covered business entities registered with CCM under the Registration of Companies (ROC). In addition, the publication has been further improved this year to include statistical tables for users' reference.

This publication is developed based on the Manual on Business Demography Statistics, jointly published by the Organisation for Economic Cooperation and Development (OECD) and Eurostat in 2007. Business demography statistics serve as important indicators for assessing economic dynamism, competitiveness, survival performance, and job creation associated with the formation and sustainability of new enterprises.

The publication consists of four parts. The first part presents the main highlights of business demography statistics, followed by a summary of findings in the second part. Meanwhile, the third part contains the statistical tables, while the fourth part provides technical notes explaining the concepts and definitions to assist users in interpreting the published statistics.

The Department of Statistics Malaysia (DOSM) gratefully acknowledges the cooperation of all parties who have provided the required data and contributed to the success of this publication. All feedback and suggestions for improving future reports are greatly appreciated.

1. INTRODUCTION

Business Demography Statistics present an analysis of the life cycle of enterprises from their inception and operation of business activities to their closure, as well as the duration for which enterprises are able to survive before ceasing operations.

The enterprises covered in this publication are business entities registered with the Companies Commission of Malaysia (CCM) under the Registration of Companies (ROC). The statistics provided in this publication include main parameters namely the number of enterprises, the number of enterprise births and deaths and the enterprise survival rate for the time series from 2017 to 2024. These parameters are further disaggregated by sector, sub-sector and state.
