## KATA PENGANTAR

Statistik Affiliate Malaysia di Luar Negeri bagi tahun 2020 dan 2021 disusun secara dwi tahunan dan menyediakan maklumat berkaitan bilangan *affiliate*, perolehan, bilangan pekerja, pampasan pekerja dan aset mengikut jenis aktiviti ekonomi dan negara.

Penyusunan statistik *affiliate* Malaysia di luar negeri ini adalah berdasarkan garis panduan yang disarankan dalam *Manual on Statistics of International Trade in Services (MSITS) 2010, United Nations dan Balance of Payments and International Investment Position Manual, Sixth Edition (BPM6)*. Statistik ini boleh digunakan oleh agensi kerajaan, ahli ekonomi, ahli akademik serta individu bagi tujuan membuat perancangan dan penggubalan dasar, analisis ekonomi, unjuran dan membantu merancang pembangunan perniagaan.

Ringkasan penemuan dan jadual statistik terperinci dipaparkan pada bahagian pertama dan kedua penerbitan ini. Sementara itu, bagi memudahkan lagi kefahaman, nota teknikal yang merangkumi skop, liputan, konsep dan definisi dimuatkan pada bahagian ketiga.

Jabatan Perangkaan Malaysia (DOSM) merakamkan setinggi-tinggi penghargaan kepada semua pihak yang menyumbang dalam menjayakan penerbitan ini. Setiap pandangan dan cadangan ke arah penambahbaikan penerbitan ini pada masa hadapan amatlah dihargai.

# OFATS 2021

OUTWARD FATS

*Statistics on Malaysian Affiliates Abroad*

NOTA TEKNIKAL | TECHNICAL NOTES

## A. OBJEKTIF

- i. Untuk menyedia sebahagian statistik Perdagangan Perkhidmatan Antarabangsa bagi komponen *Mode of Supply* yang Ketiga (*Mode 3*) iaitu perkhidmatan yang dibekalkan melalui kehadiran komersial, yang dicerminkan oleh FATS.
- ii. Untuk mengukur prestasi aktiviti perniagaan yang dijalankan oleh *affiliate* Malaysia di luar negeri
- iii. Untuk menyedia maklumat jenis aktiviti ekonomi dan negara operasi *affiliate* di luar negeri.
- iv. Untuk lebih memahami perkembangan ekonomi dunia dan industri yang baru muncul di negara lain.
- v. Untuk digunakan dalam analisis ekonomi dan penggubalan polisi oleh agensi pusat dalam era globalisasi dan liberalisasi.

## B. KONSEP

Konsep yang digunakan dalam laporan ini adalah selaras dengan garis panduan pada MSITS 2010, UNSD.

### 1. Statistik Affiliate di Luar Negeri (*Outward FATS*)

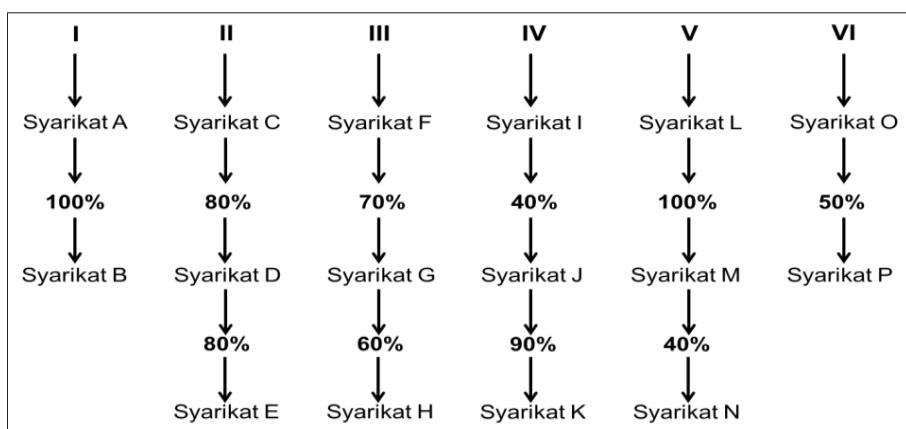

**Outward FATS** merujuk kepada statistik ekonomi berkaitan operasi *affiliate* Malaysia di luar negeri. Pembolehubah yang diukur dalam laporan ini meliputi bilangan *affiliate*, perolehan, bilangan pekerja, pampasan pekerja dan aset.

### 2. Affiliate di Luar Negeri

**Affiliate di Luar Negeri** merujuk kepada syarikat yang beroperasi di luar Malaysia, yang dikawal oleh syarikat induk muktamad di Malaysia (pegangan ekuiti adalah melebihi 50 peratus). Ia boleh terdiri daripada sebuah cawangan, subsidiari atau syarikat usaha sama.

### 3. Pelabur immediate dan Unit Institusi Kawalan Muktamad (UCI)

*Affiliate* yang beroperasi di luar negeri boleh dimiliki sama ada oleh pelabur asing *immediate* atau/dan UCI. Pelabur asing *immediate* adalah syarikat induk terhampir kepada *affiliate* tersebut sementara UCI adalah syarikat induk teratas dalam struktur kumpulan syarikat. UCI adalah tidak dimiliki secara majoriti oleh sebarang syarikat lain. Sebuah syarikat dianggap sebagai UCI kepada sesbuah *affiliate* jika pemilikan ekuiti di dalam setiap syarikat di bawahnya hingga kepada peringkat *affiliate* tersebut adalah konsisten dan melebihi 50 peratus. Bagi tujuan penyusunan *outward FATS* Malaysia, UCI kepada sesbuah *affiliate* harus beroperasi di Malaysia. Contoh berikut menunjukkan hubungan antara UCI dan *affiliate* dalam kes-kes tertentu.

### Kes I

Syarikat A adalah induk asing dan UCI bagi syarikat B.

### Kes II

Syarikat D adalah induk asing syarikat E. Oleh kerana syarikat D dimiliki secara majoriti oleh syarikat C, syarikat C adalah UCI bagi syarikat E; negaranya akan dikira sebagai negara pemilikan bagi syarikat E di dalam FATS.

### Kes III

Berikut penjelasan yang sama seperti dalam Kes II, syarikat G adalah induk asing bagi syarikat H, manakala syarikat F adalah UCI. Syarikat F adalah UCI bagi Syarikat H dan dianggap mengawal Syarikat H walaupun ianya secara tidak langsung memiliki pemilikan di dalam Syarikat H hanya 42 peratus - hasil daripada 70 peratus pegangan dalam syarikat G dan 60 peratus pegangan oleh syarikat G dalam syarikat H. Walau bagaimanapun, ianya boleh dianggap mengawal syarikat H kerana setiap entiti dalam rantai pemilikan majoriti boleh mengawal entiti di bawahnya, termasuk tindakan entiti kepada entiti yang bawahnya.

### Kes IV

Syarikat J ialah induk asing Syarikat K. Syarikat I bukan UCI bagi syarikat K kerana ia bukan pemilik majoriti syarikat J. Pada peringkat ini, ianya tidak mungkin untuk menentukan siapa UCI bagi syarikat K, kerana tidak dinyatakan siapa yang memiliki baki 60 peratus dalam syarikat J. Syarikat J tidak termasuk dalam data utama FATS bagi ekonomi syarikat I, kerana syarikat I tidak mengawal syarikat J.

### Kes V

Syarikat M adalah induk asing syarikat N. Kerana syarikat M adalah, sebaliknya, dimiliki secara majoriti oleh syarikat L, syarikat L pastinya UCI bagi syarikat M, tetapi ia tidak boleh menyatakan bahawa syarikat L juga UCI bagi syarikat N, kerana tidak mengetahui siapa yang memiliki baki 60 peratus dalam syarikat N. Walau bagaimanapun, syarikat N tidak diliputi oleh FATS kerana ia tidak dikawal oleh induk asing.

### Kes V

Syarikat M adalah induk asing syarikat N. Kerana syarikat M adalah, sebaliknya, dimiliki secara majoriti oleh syarikat L, syarikat L pastinya UCI bagi syarikat M, tetapi ia tidak boleh menyatakan bahawa syarikat L juga UCI bagi syarikat N, kerana tidak mengetahui siapa yang memiliki baki 60 peratus dalam syarikat N. Walau bagaimanapun, syarikat N tidak diliputi oleh FATS kerana ia tidak dikawal oleh induk asing.

### Kes VI

Syarikat O ialah induk asing dan berkemungkinan UCI bagi syarikat P jika tiada pelabur asing lain memiliki 50% syarikat P, dalam kes ini kriteria lain untuk mengenal pasti UCI perlu diambil kira. Biasanya, syarikat P tidak diliputi oleh FATS kerana ia tidak dimiliki secara majoriti oleh induk asing, tetapi ia tetap merupakan satu kes yang boleh dianggap relevan bagi tujuan GATS atau analisis globalisasi. Oleh itu, negara penyusun mungkin ingin menunjukkan data untuk syarikat P (dan kes-kes lain yang berkepentingan) atas dasar tambahan.

<b>C. SKOP DAN LIPUTAN</b>	Skop statistik <i>outward</i> FATS merujuk kepada semua <i>affiliate</i> Malaysia yang beroperasi di luar negeri dalam semua sektor ekonomi.
<b>1. Klasifikasi Sektor</b>	Pengkelasan sektor ekonomi adalah berdasarkan aktiviti utama <i>affiliate</i> di luar negeri. Sektor tersebut dikelaskan mengikut Piawaian Klasifikasi Industri Malaysia (MSIC) 2008 Ver. 1.0. Pengklasifikasian bagi sektor Pembuatan dan Perkhidmatan dalam Jadual 1 adalah seperti di <b>Lampiran</b> .
<b>2. Negara Affiliate di Luar Negeri</b>	Merujuk kepada negara di mana pusat utama aktiviti ekonomi dijalankan oleh <i>affiliate</i> .
<b>D. DEFINISI</b>	Definisi yang digunakan dalam laporan ini adalah selaras dengan garis panduan pada MSITS 2010. Manual tersebut menyarankan bahawa pengukuran FATS meliputi pembolehubah asas <i>affiliate</i> di luar negeri seperti berikut:
<b>1. Perolehan</b>	Amaun barang dan perkhidmatan yang dijual dalam sesuatu tempoh oleh sesebuah <i>affiliate</i> . Bagi sektor pembinaan, ia merujuk kepada nilai kerja pembinaan.
<b>2. Bilangan Pekerja</b>	Bilangan pekerja <i>affiliate</i> di luar negeri yang menerima gaji, termasuk pekerja secara kontrak.
<b>3. Pampasan Pekerja</b>	Jumlah ganjaran dalam bentuk tunai atau barang yang dibayar oleh enterpis kepada pekerja sebagai pulangan bagi kerja yang dilakukan oleh pekerja semasa tempoh perakaunan.
<b>4. Aset</b>	Merujuk kepada nilai terkumpul yang mewakili faedah kepada pemilik yang memegang atau menggunakan entiti tersebut dalam sesuatu tempoh masa. Ini meliputi kedua-dua aset kewangan dan bukan kewangan, sama ada pengeluaran atau bukan pengeluaran.
<b>E. SUMBER DATA</b>	Sumber data untuk statistik <i>affiliate</i> outward adalah daripada Survei <i>Affiliate</i> Asing di Luar Negeri yang dijalankan oleh DOSM. Survei ini mengumpul data dari syarikat induk/ syarikat induk muktamad di Malaysia yang melapor statistik ekonomi bagi pihak <i>affiliate</i> yang beroperasi di luar negeri. Dalam proses pengumpulan data, penyiasatan ini meliputi <i>affiliate</i> di luar negeri yang kepentingan ekuitinya dipegang lebih 50 peratus pada setiap syarikat yang berada di atasnya dalam struktur sesebuah kumpulan syarikat sehingga ke peringkat syarikat induk muktamad. Pembolehubah yang dikumpul melalui penyiasatan ini meliputi jenis aktiviti ekonomi, negara, perolehan, bilangan pekerja, pampasan pekerja dan aset.
<b>F. PEMBUNDARAN</b>	Perbezaan mungkin berlaku pada jumlah sub komponen dan jumlah besar disebabkan pembundaran angka.

## A. *OBJECTIVE*

- i. To provide part of International Trade in Services statistics for Mode of Supply Number Three that is services deliver through commercial presence, which is reflected by FATS.
  - ii. To measure the performance of business activities undertaken by the Malaysia's affiliates operating abroad.
  - iii. To provide information on the kind of economic activities and the countries of operation of affiliates abroad.
  - iv. To understand further on the development of world economic and new emerging industries in other countries.
  - v. To be used in economic analysis and policy formulation by central planning agencies in the era of globalisation and liberalization.

## B. CONCEPTS

Concepts used in this publication are in accordance with the recommendations of the MSITS 2010 by UNSD.

## 1. *Outward Foreign Affiliates Statistics (FATS)*

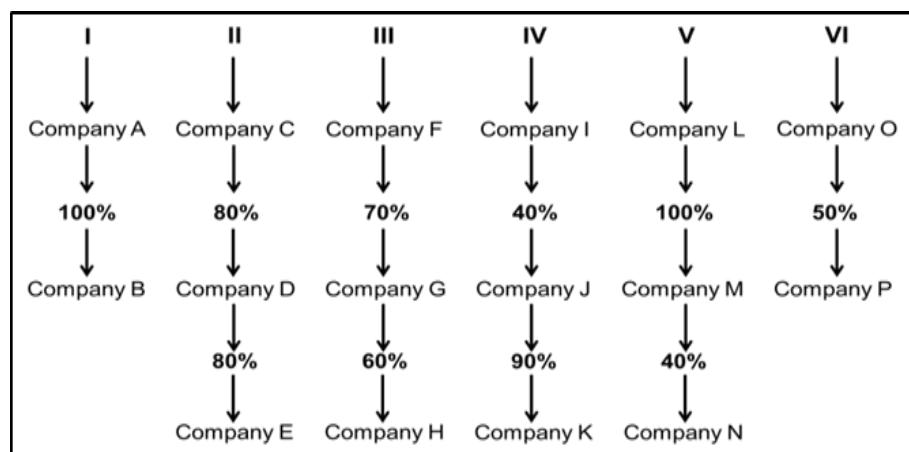

**Outward FATS** refers to economic statistics relating to the operation of Malaysia's affiliates abroad. The variables measured in this report including number of affiliates, turnover, employment, compensation of employees and assets.

## **2. Affiliates Abroad**

**Affiliates Abroad** refers to the companies operating outside Malaysia that are controlled by Malaysia's ultimate parent companies (the holding of equity interest is more than 50 per cent). It could be branches, subsidiaries or joint ventures companies.

3. *Immediate Investor and Ultimate Controlling Institutional Unit (UCI)*

The affiliates operating abroad could be owned by immediate foreign investor or/and the UCI. The immediate foreign investor is the immediate parent company of affiliate while the UCI is the top parent company in the company's group structure. The UCI is not majority owned by any other company. A company considered to be the UCI to an affiliate if the equity ownership in each company under it until the said affiliate is consistently greater than 50 per cent. For the purpose of Malaysia outward FATS compilation, the UCI to an affiliate abroad must operate in Malaysia. The following examples identify the link between UCI and affiliates in particular cases.

### **Case I**

*Company A is both the foreign parent and UCI of company B.*

### **Case II**

*Company D is the foreign parent of company E. Because company D is, in turn, majority owned by company C, company C is the UCI of company E; its country would be considered the country of ownership of company E in FATS.*

### **Case III**

*Following the same reasoning as in Case II, company G is the foreign parent of company H, while company F is its UCI. Company F is the UCI of Company H and is deemed to control Company H even though its indirectly held ownership in company H is only 42 per cent - the product of its 70 per cent share of company G and company G's 60 per cent share in company H. However, it can be presumed to control company H because each entity in a chain of majority ownerships can control the entity below it, including that entity's actions with respect to the entities that are, in turn, below it.*

### **Case IV**

*Company J is the foreign parent of company K. Company I is not UCI of company K because it is not the majority owner of company J. At this stage, it is not possible to define who the UCI of company K is, as it is not specified who owns the remaining 60% of company J. Also, company J is not included in the core FATS data for the economy of company I, because company I does not control company J.*

### **Case V**

*Company M is the foreign parent company N. Because company M is, in turn, majority owned by company L, company L is definitely the UCI of company M, but it cannot be stated that company L is also the UCI of company N, not knowing who owns the remaining 60% of company N. However, company N is not covered by FATS because it is not controlled by its foreign parent.*

### **Case VI**

*Company O is the foreign parent and could be the UCI of company P if no other foreign investor also owns 50% of company P, in that case other criteria to identify the UCI would have to be taken into account. Usually, company P is not covered by FATS because it is not majority owned by its foreign parent, but it nonetheless represents a case that may be deemed relevant for the purposes of GATS or globalization analysis. Thus, the compiling country may wish to show data for company P (and other cases of interest) on a supplemental basis.*

- C. SCOPE AND COVERAGE** *The scope and coverage of outward FATS statistics refer to all Malaysia's affiliates operating abroad in all economic sectors.*
- 1. Sector Classification** *The classifications of economic sector are based on the principal activities of affiliates abroad. The sectors are classified according to Malaysia Standard Industrial Classification (MSIC) 2008 Ver. 1.0. Classification for Manufacturing and Services sectors in Table 1 are as per Appendix.*
  - 2. Country of Affiliate Abroad** *Refers to the country where predominant centre of economic activities is undertaken.*
- D. DEFINITIONS** *Definitions used in this publication are in accordance with the recommendations of the MSITS 2010. The manual recommends that the measurement of FATS include the following basic variables of affiliate abroad.*
- 1. Turnover** *The amount of goods or services sold in a given time period by an affiliate. For construction, it refers to the value of construction work done.*
  - 2. Employment** *Number of workers on the payrolls of affiliates abroad, including contract workers.*
  - 3. Compensation of Employees** *The total remuneration, in cash or in kind, payable by an enterprise to an employee in return for work done by the employee during the accounting period.*
  - 4. Assets** *Refers to accumulative value representing the benefits accruing to the economic owner by holding or using the entity over a period of time. These include both financial assets and nonfinancial assets, whether produced or non-produced.*
- E. DATA SOURCE** *The data source for outward FATS is from the Survey of Outward Foreign Affiliates conducted by DOSM. This survey collects data from parent/ultimate parent companies in Malaysia on economic statistics of their affiliates operating abroad. In the data collection processes, this survey canvasses affiliate abroad which the equity interest is held more than 50 per cent by each upper linked company in the group until the ultimate parent company level. The variables collected through this survey consist of affiliates' economic activities, countries, turnover, number of employees, compensation of employees and assets.*
- F. ROUNDING** *Differences may occur between the sum of sub components and the totals due to rounding figures.*
