PREFACE

The monthly Labour Force Report, Malaysia, presents the statistics of the labour force, employment and unemployment obtained from the Labour Force Survey (LFS). The implementation of the LFS is based on the guidelines and recommendations of the International Labour Organization (ILO) with reference to the Surveys of Economically Active Population, Employment, Unemployment and Underemployment: An ILO Manual on Concepts and Methods.

The labour force statistics are used as a vital input for labour market analysis, policy formulation, as well as planning, implementing, and monitoring programmes particularly related to human resource development. These statistics also serve as essential references for researchers, economists, academicians, the private sector, and individuals involved in research related to employment and the labour market.

The Labour Force Report for August 2023 describes the labour supply situation as the country was in the transition phase to endemicity. The report also elaborates on the month-on-month changes to examine the immediate effects of recent events. In addition, annual changes from the same month of the previous year are also reported.

The Department of Statistics Malaysia gratefully acknowledges the cooperation and contribution rendered by all parties in making this publication a success. Every piece of feedback and suggestion towards improving future reports is highly appreciated.

DATO' SRI DR. MOHD UZIR MAHIDIN

GLOSSARY

Actively unemployed	:	Persons who were available for work and were actively looking for a job during the reference week.
Category of skills	:	For reporting purposes, the category of occupation is regrouped into three levels of skills based on the Malaysia Standard Classification of Occupation (MASCO) 2013 as below: <p>Skilled workers:</p> <ol style="list-style-type: none"> 1. Managers; 2. Professionals; and 3. Technicians and associate professionals. <p>Semi-skilled workers:</p> <ol style="list-style-type: none"> 4. Clerical support workers; 5. Services and sales workers; 6. Skilled agricultural, forestry, livestock, and fishery workers; 7. Craft and related trades workers; and 8. Plant and machine operators and assemblers. <p>Low-skilled workers:</p> <ol style="list-style-type: none"> 9. Elementary occupations. <p>Starting in January 2022, the category of occupation is based on the Malaysia Standard Classification of Occupation (MASCO) 2020 with an addition of group 0 - Armed forces occupations.</p>
Economic activity	:	Classification of industries according to the Malaysia Standard Industrial Classification (MSIC) 2008 version 1.0 into five main sectors namely Agriculture, Mining & quarrying, Manufacturing, Construction and Services. In the meantime, Manufacturing and Services are further disaggregated into subsectors.
Employed	:	All persons who, at any time during the reference week worked at least one hour for pay, profit or family gain either as an employer, employee, own-account worker or unpaid family worker.
Employee	:	A person who works for a public or private employer and receives regular remuneration in wages, salary, commission, tips or payment in kind.
Employer	:	A person who operates a business, a plantation or other trade and employs one or more workers to help him.
Employment-to-population ratio	:	The proportion of the employed population to working-age population.
Inactively unemployed	:	Did not look for work because they believed no work was available or that they were not qualified; Would have looked for work if they had not been temporarily ill or had it not been for weather conditions; and had looked for work prior to the reference week and were waiting for the result of job applications.

GLOSSARY

Labour force	:	Labour force refers to population in the working age group (15 to 64 years) who are either employed or unemployed
Labour force participation rate	:	The ratio of the labour force to the working-age population, expressed as a percentage.
Outside labour force	:	All persons not classified as employed or unemployed are classified as outside labour force. This category consists of housewives, students (including those going for further studies), retired, disabled persons and those not interested in looking for a job.
Own-account worker	:	A person who operates his own farm, business or trade without employing any paid workers in the conduct of his farm, trade or business.
Skill-related underemployment	:	Those with tertiary education and working in the semi-skilled and low-skilled categories.
Time-related underemployment	:	A group of people who were employed less than 30 hours per week during the reference week because of the nature of their work or due to insufficient work and were able and willing to accept additional hours of work. Persons who were employed more than 30 hours per week during the reference week are considered to be in full employment.
Unemployed	:	Those who did not work during the reference week were classified into two groups, which are actively and inactively unemployed.
Unemployment rate	:	The proportion of the unemployed population to the total population in the labour force, expressed as a percentage.
Unpaid family worker	:	A person who works without pay or wages on a farm, business or trade operated by another member of the family.

CONCEPTS AND DEFINITIONS

What is Labour Force Survey (LFS)?

Labour Force Survey (LFS) was conducted to collect information on the structure and distribution of labour force, employment and unemployment from the perspective of labour supply.

LFS encompasses both urban and rural areas for all administrative districts within all states in Malaysia using multi-modal data collection approach through the personal interview and a Computer-Assisted Telephone Interview (CATI).

The LFS are conducted based on the standard guidelines and recommendations of the International Labour Organization (ILO).

The survey population comprises persons who live in the private living quarters, hence excludes persons residing in institutions such as hotels, hospitals, hostels, prisons, and workers residing in construction worksite.

The working age for the analysis of LFS in Malaysia refers to household members between the age of 15 to 64 years during the reference week, who are either in the labour force or outside the labour force.

LABOUR FORCE

- The population in the working age group of 15 to 64 years (in completed years at last birthday).
- Either employed or unemployed in the reference week.

EMPLOYED

- Persons who, at any time during the reference week worked at least one hour for pay, profit or family gain (as an employer, employee, own-account worker or unpaid family worker).
- Persons who did not work during the reference week because of illness, injury, bad weather, leave, labour dispute and social or religious reasons but had a job, farm, enterprise or other family enterprise to return to.
- Those on temporary lay-off with pay who would definitely be called back to work.

UNEMPLOYED

- Those who did not work during the reference week but are interested to work and seeking for a job.
- Classified into two groups which are actively and inactively unemployed.

OUTSIDE LABOUR FORCE

- All persons not classified as employed or unemployed.
- Example: housewives, students, retirees, disabled persons and those not interested in looking for a job.

UNEMPLOYMENT RATE

- The proportion of the unemployed population to the total population in labour force.
- Percentage of the unemployed population in the labour force.

LABOUR FORCE PARTICIPATION RATE

- The economic activity of a population depends on the demographic characteristics of that population.
- The proportion of the economically active population, hence differs between sub-groups of that population.
- These variations are measured by specific activity rates termed as labour force participation rate.
- Labour force participation rate is defined as the ratio of the labour force to the working age population (15 to 64 years), expressed as a percentage.

SEASONAL ADJUSTMENT

- Time-series data are very useful for economist, policy & decision makers and time-series analysts to identify the important features of economics series such as direction, turning point and consistency between other economic indicators. Sometimes this feature is difficult to observe because of seasonal movements. Thus, if seasonal effect can be removed, the behaviour of the series would be better viewed. The estimation and removal of the seasonal effects is called seasonal adjustment.
- Seasonal adjustment is a process to identify and to remove the regular within-a-year seasonal pattern, which may also include the influences of moving holidays and working/trading days effect in each period. The ultimate objective of the process is to highlight the underlying trends and short-term movements in the series.
- In Malaysia, most of the time series data is affected by seasonal effects. Hence, to eliminate the seasonal effect as well as to seasonally adjust the Malaysian economic time series data, a standard seasonal adjustment package, X-12 ARIMA was used by the Department of Statistics Malaysia.

KEY REVIEWS

- **Employed persons** remained on a positive trend with a month-on-month increase of **0.1 per cent** or equivalent to **19.9 thousand persons** to record **16.35 million persons** in August 2023 (July 2023: 16.34 million persons). August's **employment-to-population ratio**, which indicates the ability of an economy to create employment, stood at **67.7 per cent** as in the previous month.
- By economic sector, the number of employed persons in the Services sector continued its upward trend, largely in Wholesale & retail trade; Food & beverage services; and Transportation and storage activities. In addition, the Manufacturing, Agriculture, Construction as well as Mining & quarrying sectors also registered increases in the number of employed persons during the month.
- The **employees' category**, which made up the largest composition of employed persons at **75.4 per cent**, improved by **0.1 per cent (+10.9 thousand persons)** to **12.32 million persons** (July 2023: 12.31 million persons). On the same note, the **own-account workers** also posted a rise of **7.9 thousand persons (+0.3%)** to **2.97 million persons** (July 2023: 2.96 million persons).
- In August 2023, the number of **unemployed persons** continued to trend down, registering a fall of **0.3 per cent (-1.9 thousand persons)** to **577.3 thousand persons** (July 2023: 579.2 thousand persons). August's **unemployment rate** was unchanged at 3.4 per cent as recorded last month.
- In August 2023, the **labour force** strengthened further by **0.1 per cent (+17.9 thousand persons)** month-on-month to record **16.93 million persons** (July 2023: 16.91 million persons). August's **labour force participation rate (LFPR)** held steady at **70.1 per cent** as of July 2023.
- The number of persons **outside the labour force** during the month registered an addition of **6.3 thousand persons (0.1%)** to **7.23 million persons** (July 2023: 7.23 million persons). The largest composition of the outside labour force was due to **housework/ family responsibilities** with **42.9 per cent**, and subsequently, **40.1 per cent** by a reason of **schooling/ training**.
- Based on the performance of Malaysia's Leading Index (LI) indicators for the six-month period, the country's near-term economic outlook is expected to improve modestly, given the uncertain global economic outlook. In addition, stable domestic demand, improving tourism activities, a thriving services sector, and supportive economic policies are expected to continue to support economic growth in the second half of 2023. Thus, the country's labour market position is anticipated to experience moderate growth in the coming months, considering challenges in the economy.

1 THE LABOUR FORCE IN AUGUST CONTINUES TO EXPERIENCE MODERATE GROWTH, FOLLOWING MALAYSIA'S STABLE ECONOMIC PERFORMANCE

The economic landscape of Malaysia has shown promising signs, with a moderate growth of 4.2 per cent recorded in the first half of 2023. With the rapid implementation of the MADANI Economic Narrative by government ministries and agencies, Malaysia's economy may experience a growth rate exceeding 4.8 per cent. This economic framework outlines two main focal objectives: the restructuring of Malaysia's economic landscape to position the nation as a leader in the Asian economy and the enhancement of the quality of life for every Malaysian citizen. This framework, far-reaching in its scope, serves as the foundation for a suite of targeted policies set to be announced later. Among them are the National Energy Transition Roadmap, the 2030 New Industrial Masterplan, and the Mid-Term Review of the 12th Malaysia Plan (RMK-12)¹.

As Malaysia's population continues to grow, the nation finds itself blessed with a wealth of natural resources, notably in the form of oil and gas. Moreover, Malaysia's status as a culturally diverse, multilingual, and multi-ethnic society lays the groundwork for attracting Foreign Direct Investment (FDI) and top-tier talent. These elements collectively create an environment primed for substantial strides in business development and economic progress. Malaysia's economic growth is poised to maintain a steady pace in the third quarter of 2023. While external demand, particularly in export-oriented sectors, may experience a sluggish trend, the nation's economic growth will find solid support from robust domestic demand and favourable conditions in the labour market, especially in industries oriented towards domestic production. Additionally, an anticipated upswing in tourist arrivals is set to stimulate tourism-related activities².

Therefore, these positive economic outlooks, in addition to a surge in domestic tourism and promising prospects in the health tourism sector, opened up more job opportunities in the labour market as more businesses expanded during the month to complement Malaysia's stable economic performance. In line with this, the labour force in August continued to experience moderate growth, registering an increasing number of employed persons and a lower number of unemployed.

Additionally, the Leading Index (LI) for July 2023 anticipates a modest economic performance with a negative growth of 0.9 per cent, registering 109.0 points (July 2022: 110.3 points). However, it was an improvement compared to the 2.1 per cent decline in June 2023 at 109.8 points and compared to 112.1 points in June 2022. As for the monthly performances, the LI recorded negative 0.7 per cent in July 2023, compared to negative 0.5 per cent last month. The smoothed growth rate of the LI for July 2023 continues below the 100.0 point trend, mirroring Malaysia's economic performance to remain moderate in the near term, attributed to uncertain global prospects. Nevertheless, in comparison to July 2023, both the monthly external trade indicators for exports and imports recorded a decrease of 1.4 per cent (July 2023: -5.8%) and 1.6 per cent (July 2023: 1.1%), respectively.

2 A positive trend of employed persons remained in August 2023

Employed persons remained on a positive trend with a month-on-month increase of **0.1 per cent** or equivalent to **19.9 thousand persons** to record **16.35 million persons** in August 2023 (July 2023: 16.34 million persons). Similarly, in terms of seasonally adjusted, the number of employed

¹ <https://www.astroawani.com/berita-bisnes/malaysia-akan-berkembang-lebih-48-peratus-dengan-pelaksanaan-pantas-ekonomi-madani-penganalisis-430655#modal>

² <https://www.thestar.com.my/business/business-news/2023/08/29/businesses-foresee-improving-situation-for-3q23>

persons heightened by 0.2 per cent. In the meantime, the number of employed persons continued to rise by 2.1 per cent, equivalent to 337.2 thousand persons year-on-year (August 2022: 16.02 million persons).

By economic sector, the number of employed persons in the Services sector continued its upward trend, largely in Wholesale & retail trade; Food & beverage services; and Transportation and storage activities. In addition, the Manufacturing, Agriculture, Construction as well as Mining & quarrying sectors also registered increases in the number of employed persons during the month.

August's **employment-to-population ratio**, which indicates the ability of an economy to create employment, stood at **67.7 per cent** as in the previous month. Likewise, on a yearly basis, the ratio rose by 0.6 percentage points compared to the 67.1 per cent registered in August 2022 [**Chart 1**].

Chart 1: Employed persons and employment-to-population ratio, January 2019 - August 2023

The **employee's category**, which made up the largest composition of employed persons at **75.4 per cent**, improved by **0.1 per cent (+10.9 thousand persons)** to **12.32 million persons** (July 2023: 12.31 million persons). On the same note, the **own-account workers** also posted a rise of **7.9 thousand persons (+0.3%)** to **2.97 million persons** (July 2023: 2.96 million persons). This category consists mostly of daily income earners working as small businesses, such as small retailers, hawkers and sellers in markets and stalls, as well as smallholders [**Chart 2**].

Chart 2: Employed person by status in employment, July 2023 and August 2023

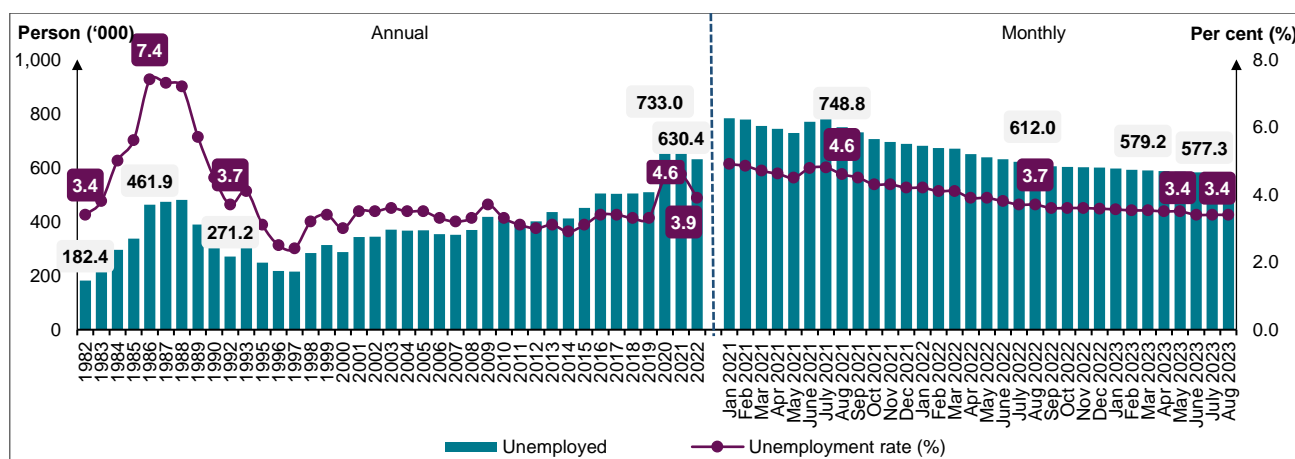

The number of **employed persons who were temporarily not working** recorded an increase of **2.8 per cent** or equivalent to **2.3 thousand persons** to **83.2 thousand persons** (July 2023: 80.9 thousand persons). This increase was partly due to the school holidays during the month. Comparing with one year earlier, this category also went up by 2.3 per cent (+1.9 thousand persons) from 81.3 thousand persons in August 2022. This group of persons, who were most likely not able to work temporarily, were not classified as unemployed as they had work to return to.

3 August's unemployment rate was unchanged at 3.4 per cent

In August 2023, the number of **unemployed persons** continued to trend down, registering a fall of **0.3 per cent (-1.9 thousand persons)** to record **577.3 thousand persons** (July 2023: 579.2 thousand persons). August's **unemployment rate** was unchanged at 3.4 per cent as recorded last month. In the meantime, on seasonally adjusted terms, the number of unemployed edged up by 1.4 per cent, recording the same unemployment rate of 3.4 per cent.

As compared to August 2022, the number of unemployed persons reduced by 5.7 per cent or equivalent to a reduction of 34.7 thousand persons (August 2022: 612.0 thousand persons). The unemployment rate dropped by 0.3 percentage points as compared to August last year (3.7%) **[Chart 3]**.

Chart 3: Unemployed persons and unemployment rate, 1982 - 2022 and January 2021 - August 2023

In the unemployment category, most of the unemployed persons were **actively unemployed** or those who were available for work and were actively seeking jobs. This category, which comprised **80.0 per cent** of the total unemployed persons, is continuing to decline, with a decrease of **0.6 per cent (-2.6 thousand persons)** to record **462.1 thousand persons** (July 2023: 464.7 thousand persons). Out of the total actively unemployed, those who were **unemployed for less than three months** encompassed **61.4 per cent**, while those who were in **long-term unemployment for more than a year**³ constituted **6.2 per cent**. Meanwhile, those who believed that there were no jobs available or were **inactively unemployed** went up by **0.6 per cent (+0.7 thousand persons)** to **115.2 thousand persons** (July 2023: 114.5 thousand persons) **[Chart 4]**.

³ Referring to person who have been unemployed for one year or longer (Source: KILM: Long-term unemployment)
https://www.ilo.org/wcmsp5/groups/public/---dgreports/---stat/documents/publication/wcms_422451.pdf

Chart 4: Unemployed category and duration of unemployment, July 2023 and August 2023

The unemployment rate for youth aged **15 to 24 years** continued to edge down by **0.1 percentage points** during the month to **10.8 per cent**, registering a lower number of unemployed youths at **309.2 thousand persons** (July 2023: 10.9%; 311.2 thousand persons). In the meantime, the unemployment rate for youth aged **15 to 30 years** stood at **6.8 per cent**, with **439.6 thousand unemployed youths** (July 2023: 6.8%; 444.8 thousand persons) [Chart 5].

Chart 5: Unemployment rate by selected age groups, 1982 - 2022 and January 2021 - August 2023

4 August's LFPR held steady at 70.1 per cent

In August 2023, the **labour force** strengthened further by **0.1 per cent (+17.9 thousand persons)** month-on-month to record **16.93 million persons** (July 2023: 16.91 million persons). August's **labour force participation rate (LFPR)** held steady at **70.1 per cent** as of July 2023. The number of labour force based on the seasonally adjusted estimate, rose by 0.1 per cent and the LFPR remained at 70.2 per cent.

Annually, the number of labour force increased by 1.8 per cent (+302.4 thousand persons) as compared to 16.63 million persons in August 2022. Consequently, the LFPR edged up by 0.4 percentage points compared to 69.7 per cent recorded in August 2022 [Chart 6].

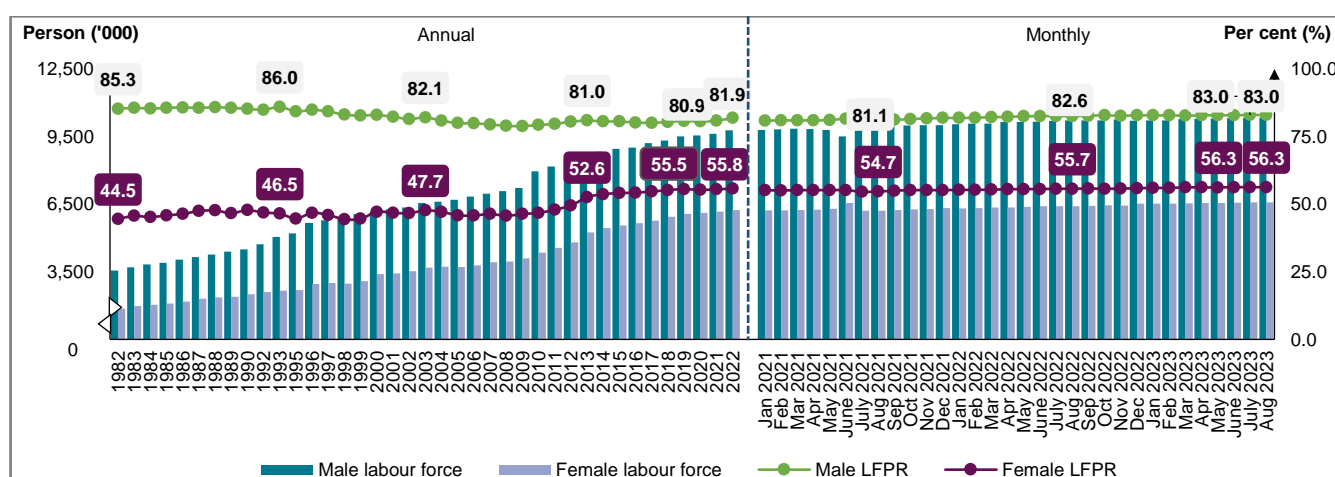

Chart 6: Labour force and LFPR, 1982 - 2022 and January 2021 - August 2023

In terms of **labour force** by gender, the total **male labour force** was **10.35 million persons** (July 2023: 10.33 million persons), while the **female labour force** was **6.58 million persons** (July 2023: 6.58 million persons). In terms of LFPR, both **male and female LFPR** stood at **83.0 per cent** and **56.3 per cent** respectively, as in the last month.

As compared to August 2022, both the male and female labour force remained increasing, with an addition of 1.3 per cent from 10.22 million person and 2.7 per cent from 6.41 million person, respectively. Therefore, male and female LFPR also ascended by 0.4 percentage points from 82.6 per cent and 0.6 percentage points from 55.7 per cent respectively [Chart 7].

Chart 7: Labour force and LFPR by sex, 1982 - 2022 and January 2021 - August 2023

5 The largest composition of the outside labour force was housework/ family responsibilities

The number of persons **outside the labour force** during the month registered an addition of **6.3 thousand persons (0.1%)** to **7.23 million persons** (July 2023: 7.23 million persons). Meanwhile, the number of outside labour force dropped by 10.7 thousand persons (-0.1%) year-on-year

(August 2022: 7.24 million persons). The largest composition of the outside labour force was due to **housework/ family responsibilities** with **42.9 per cent**, and subsequently, **40.1 per cent** by a reason of **schooling/ training** [Chart 8].

Chart 8: Share of outside labour force by reasons for not seeking work, July 2023 and August 2023

6 LOOKING AHEAD

Based on the performance of Malaysia's LI indicators for the six-month period, the country's near-term economic outlook is expected to improve modestly, given the uncertain global economic outlook. In addition, stable domestic demand, improving tourism activities, a thriving services sector, and supportive economic policies are expected to continue to support economic growth in the second half of 2023.

Apart from that, Malaysia's tourism-related sector is also seen to continue to show improving trends due to the increase in the number of tourist arrivals, airport passenger traffic and hotel occupancy rates in the country. MIDF Research also agreed that the increase in tourism activities and supportive economic policies may continue to contribute to the growth of Gross Domestic Product (GDP) in the second half of 2023 as well as the overall expansion rate of 2023⁴.

Thus, the country's labour market position is anticipated to experience moderate growth in the coming months, considering challenges in the economy.

Notes:

¹For 1982 - 2000, category of occupation are classified according to the "Dictionary of Occupational Classification, 1980" as follows:

- 1: Professional, technical and related workers
- 2: Administrative and managerial workers
- 3: Clerical and related workers
- 4: Sales workers
- 5: Service workers
- 6: Agricultural, animal husbandry and forestry workers, fishermen and hunters
- 7: Production and related workers, transport equipment operators and labourers

²For 2001 - 2010, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 1998" as follows:

- 1: Legislators, senior officials and managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical workers
- 5: Service workers and shop and market sales workers
- 6: Skilled agricultural and fishery workers
- 7: Craft and related trade workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

³For 2011 - 2015, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2008" as follows:

- 1: Managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical support workers
- 5: Service workers and shop and market sales workers
- 6: Skilled agricultural, forestry and fishery workers
- 7: Craft and related trades workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

⁴For 2016 - 2021, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2013" as follows:

- 1: Managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical workers
- 5: Service and sales workers
- 6: Skilled agricultural, forestry, livestock and fishery workers
- 7: Craft and related trades workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

⁵For 2022 onwards, categories of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2020"

Notes:

¹For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

- A: Agriculture, forestry, livestock and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas and water
 E: Construction
 F: Wholesale and retail trade, restaurants and hotels
 G: Transport, storage and communications
 H: Finance, insurance, real estate and business services
 I: Community, social and personal services

²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

- A: Agriculture, hunting and forestry
 B: Fishing
 C: Mining and quarrying
 D: Manufacturing
 E: Electricity, gas and water supply
 F: Construction
 G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods
 H: Hotels and restaurants
 I: Transport, storage and communications
 J: Financial intermediation
 K: Real estate, renting and business activities
 L: Public administration and defence; compulsory social security
 M: Education
 N: Health and social work
 O: Other community, social and personal service activities
 P: Private households with employed persons

³For 2010 - 2021, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:

- A: Agriculture, forestry and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas, steam and air conditioning supply
 E: Water supply; sewerage, waste management and remediation activities
 F: Construction
 G: Wholesale and retail trade, repair of motor vehicles and motorcycles
 H: Transportation and storage
 I: Accommodation and food service activities
 J: Information and communication
 K: Financial and insurance/takaful activities
 L: Real estate activities
 M: Professional, scientific and technical activities
 N: Administrative and support service activities
 O: Public administration and defence; compulsory social security
 P: Education
 Q: Human health and social work activities
 R: Arts, entertainment and recreation
 S: Others service activities
 T: Activities of households as employers

^f Revised^aFor year 2011-2019, 2021 and 2022, total includes 'Activities of extraterritorial organizations and bodies'

Table E: Employed person by industry, Malaysia, 1982 - 2022 (cont'd)

('000)

Notes:¹For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

- A: Agriculture, forestry, livestock and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas and water
 E: Construction
 F: Wholesale and retail trade, restaurants and hotels
 G: Transport, storage and communications
 H: Finance, insurance, real estate and business services
 I: Community, social and personal services

²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

- A: Agriculture, hunting and forestry
 B: Fishing
 C: Mining and quarrying
 D: Manufacturing
 E: Electricity, gas and water supply
 F: Construction
 G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods
 H: Hotels and restaurants
 I: Transport, storage and communications
 J: Financial intermediation
 K: Real estate, renting and business activities
 L: Public administration and defence; compulsory social security
 M: Education
 N: Health and social work
 O: Other community, social and personal service activities
 P: Private households with employed persons

³For 2010 - 2021, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:

- A: Agriculture, forestry and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas, steam and air conditioning supply
 E: Water supply; sewerage, waste management and remediation activities
 F: Construction
 G: Wholesale and retail trade, repair of motor vehicles and motorcycles
 H: Transportation and storage
 I: Accommodation and food service activities
 J: Information and communication
 K: Financial and insurance/takaful activities
 L: Real estate activities
 M: Professional, scientific and technical activities
 N: Administrative and support service activities
 O: Public administration and defence; compulsory social security
 P: Education
 Q: Human health and social work activities
 R: Arts, entertainment and recreation
 S: Others service activities
 T: Activities of households as employers

[†] Revised⁴For year 2011-2019, 2021 and 2022, total includes 'Activities of extraterritorial organizations and bodies'

Table F: Employed person by status of employment, Malaysia, 1982 - 2022

('000)

Time Series	Total	Status of Employment
