

LABOUR FORCE STATISTICS, JANUARY 2026

- The number of **employed persons** continued its upward trend in January 2026, edging up by **0.04 per cent (+7.1 thousand persons)** to **16.77 million persons**, compared with 16.76 million persons in December[r] 2025. The **employment-to-population ratio**, which reflects the economy's capacity to generate jobs, rose by **0.1 percentage points** to **68.8 per cent** in January 2026, compared to 68.7 per cent in December[r] 2025.
- The Services sector continued to record increases in the number of employed persons during the month, largely in Wholesale & retail trade, Accommodation and food & beverage service activities, as well as Transportation & storage activities. The Agriculture, Manufacturing, Construction and Mining & quarrying sector also posted positive growth in employment.
- The **employees'** category made up **75.1 per cent** of the total employed persons in January 2026. This category recorded a slight increase of **0.03 per cent (+4.3 thousand persons)**, reaching **12.59 million persons** compared to 12.58 million persons in December[r] 2025. Similarly, the number of **own-account workers** also improved, with a rise of **0.1 per cent (+2.4 thousand persons)** to **3.13 million persons**, up from 3.12 million persons in the previous month.
- During the month, the number of **unemployed persons** rose slightly to **509.6 thousand persons** with an addition of **0.3 per cent (+1.6 thousand persons)** from 508.0 thousand persons in December[r] 2025. January's **unemployment** stood at **2.9 per cent**, as in the previous month.
- The **labour force** continued to trend up in January 2026, increasing by **0.1 per cent (+8.7 thousand persons)** to **17.28 million persons** (December[r] 2025: 17.27 million persons). The **labour force participation rate (LFPR)** for January rose **0.1 percentage points** to record **70.9 per cent**, compared to 70.8 per cent in the previous month.
- The number of persons **outside the labour force** during the month showed a decline of **0.4 per cent (-27.0 thousand persons)** to **7.11 million persons** (December[r] 2025: 7.13 million persons). The main reason for being outside the labour force was due to **housework/ family responsibilities**, with a share of **43.3 per cent**, followed by individuals engaged in the **schooling/ training** category at **40.4 per cent**.

Note: [r]- The monthly Labour Force Survey statistics for December 2025 were revised based on the latest current population estimates.
