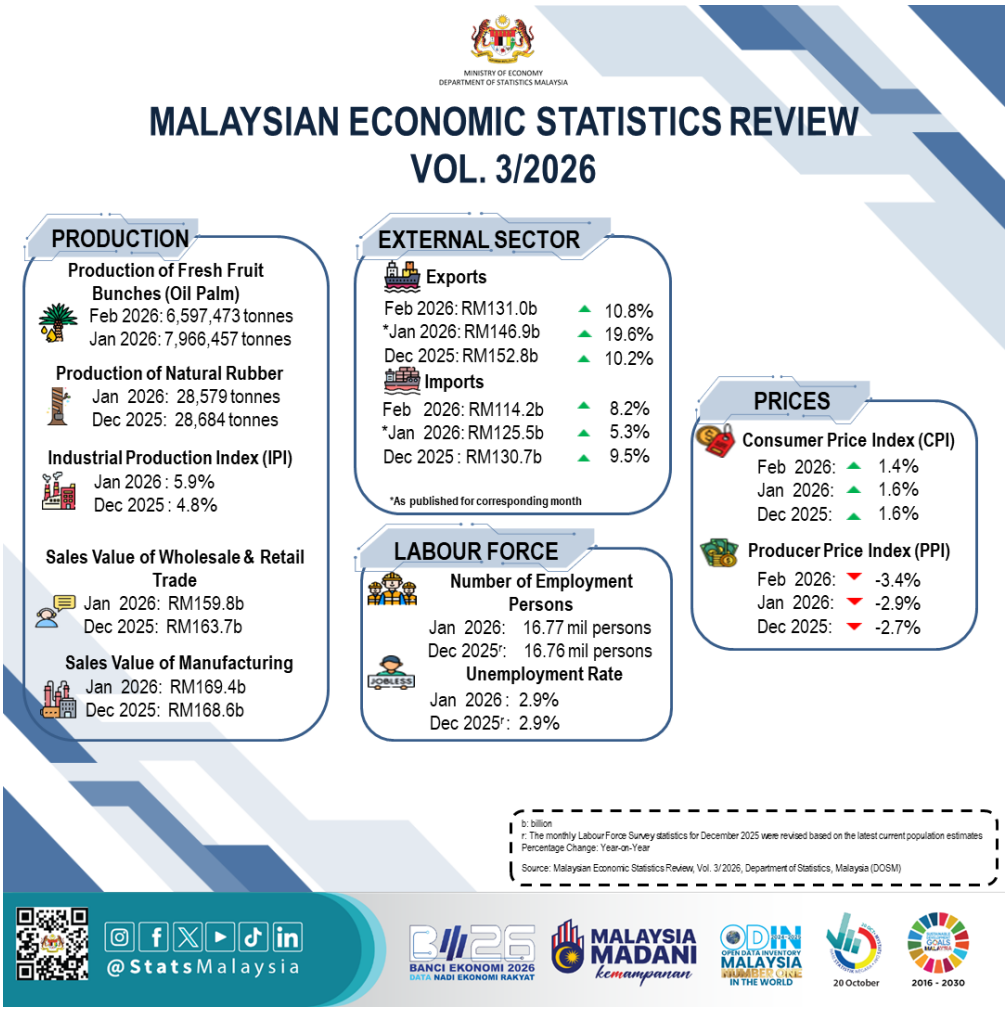
MALAYSIAN ECONOMIC STATISTICS REVIEW (MESR), VOLUME 3/2026



Malaysia’s economy reflects broad based sectoral growth and sustained domestic demand in early 2026

The Malaysian Economic Statistics Review (MESR) Volume 3/2026 edition highlights the latest statistics released in January 2026, along with selected upcoming statistics for February 2026. It also includes an article titled “**Direct Investment Abroad (DIA): Performance and Trends, 2010–2024**”. The article looks at how DIA has evolved over time, focusing on actual investment activity abroad rather than just accumulated values, positions or returns. By focusing on DIA, it offers a more current and practical view of investment trends, especially as the global direct investment landscape continues to shift.

This MESR will assist users in having the latest information on economic performance in detail.

The full publication of the MESR Volume 3/2026 can be downloaded through eStatistik portal.
