REPORT ON SURVEY OF CONSTRUCTION INDUSTRIES 2014

1. Performance of the construction sector

The gross output of construction sector posted a strong growth of 19.3 per cent in 2013. The strong growth was supported by the ongoing projects under the Economic Transformation Programme (ETP). The overall performance of this sector in 2013 as compared to 2012 is shown in Table 1.

Table 1 Key indicators of construction sector, 2012 and 2013

Key indicators	2012	2013	Annual growth (%)
Gross Output (RM billion)	110.1	131.3	19.3
Cost of input (RM billion)	73.1	89.5	22.5
Value added (RM billion)	37.0	41.8	12.9
Total persons engaged (number)	1,027,900	1,075,950	4.7
Salaries & wages (RM billion)	22.4	25.3	12.9
Value of fixed assets (RM billion)	14.1	15.6	10.8

2. Performance of the construction sub-sectors

In 2013, the civil engineering sub-sector contributed the most to gross output of the construction industries with a share of 28.9 per cent (RM38.0 billion) as compared to 26.2 per cent (RM28.8 billion) in 2012. This was followed by the non-residential construction which recorded RM35.4 billion of gross output as compared to RM33.1 billion in 2012. The performance of gross output by construction sub-sectors for year 2013 is shown in Table 2.

Table 2 Contribution of gross output by construction sub-sectors, 2012 and 2013

Sub-sector	Gross output			
	2012		2013	
	RM billion	Share (%)	RM billion	Share (%)
TOTAL	110.1	100.0	131.3	100.0
Civil engineering	28.8	26.2	38.0	28.9
Non-residential	33.1	30.1	35.4	27.0
Residential	26.4	24.0	32.2	24.5
Special Trades	21.8	19.7	25.7	19.6

Civil engineering and non-residential were the main catalyst in the construction sector

3. Construction by project owners

The private owned construction projects (POCP) continued to dominate in 2013, contributing 75.6 per cent (RM98.1 billion) as compared to 73.4 per cent (RM79.5 billion) in 2012. This was mainly driven by a strong growth registered by civil engineering (45.3%) and residential sub-sectors (25.7%).

While the government owned construction projects (GOCP) contributed 24.4 per cent (RM31.6 billion) to the value of construction work done in 2013. The performance was propelled by civil engineering (20.6%) and special trades (41.7%) sub-sectors. The value of construction work done by project owners and sub-sectors for year 2013 is shown in Table 3.

Table 3 Value of construction work done by project owners and construction sub-sectors, 2012 and 2013

Project owner / sub-sector	Value of construction work done		
	2012	2013	Annual growth (%)
	RM billion	RM billion	
TOTAL	108.4	129.7	19.6
Private (POCP)	79.5	98.1	23.4
Civil engineering	14.9	21.6	45.3
Non-residential	23.5	26.8	14.0
Residential	22.5	28.3	25.7
Special trades	18.6	21.3	14.9
Government (GOCP)	28.9	31.6	9.4
Civil engineering	13.3	16.0	20.6
Non-residential	9.9	8.7	(11.7)
Special trades	2.9	4.2	41.7
Residential	2.8	2.7	(3.7)

4. Performance of construction sector by region

Construction activities in 2013 was concentrated in the central region with a value of gross output of RM67.0 billion (51.0%) as illustrated in Table 4. The highest gross output in the central region was impelled by the rapid construction activities in Klang Valley. Meanwhile, the ongoing projects of infrastructure development in Johor have induced the construction activities in southern region with a value of gross output amounting to RM20.3 billion (15.4%).

Table 4 Contribution of gross output by region, 2013

MALAYSIA		Gross output	
		RM billion	Share (%)
Region		131.3	100.0
Central region :		67.0	51.0
	Selangor	41.4	31.5
	W.P Kuala Lumpur	23.7	18.1
	W.P Putrajaya	1.9	1.4
Southern region :		20.3	15.4
	Johor	14.5	11.1
	Negeri Sembilan	3.6	2.7
	Melaka	2.2	1.7
East Malaysia :		18.3	13.9
	Sarawak	10.3	7.8
	Sabah	7.7	5.9
	W.P Labuan	0.3	0.2
Northern region :		17.4	13.3
	Pulau Pinang	7.2	5.5
	Perak	6.8	5.2
	Kedah	2.7	2.0
	Perlis	0.8	0.4
East coast region :		8.3	6.3
	Pahang	4.1	3.1
	Terengganu	3.1	2.4
	Kelantan	1.0	0.8
