DEPARTMENT OF STATISTICS MALAYSIA

SPECIAL REPORT: LIVING QUARTERS MALAYSIA

The Special Report: Living Quarters Malaysia presents comprehensive statistics on living quarters, covering aspects such as population, households, types of living quarters, reasons for vacancy, ownership status and ownership of living quarters by sex, age group and ethnic group. Additionally, the report provides data on acquisition of living quarters, monthly rental rates, available facilities (water, electricity, garbage collection and closed-circuit television (CCTV)), expected duration to ownership of living quarters, preferred types of living quarters, affordability and proximity to amenities & services presented at the state, administrative district and local authority area (LAA) levels. This information are based on data Population and Housing Census of Malaysia 2020.
