INTRODUCTION

Sustainable Development Goals (SDG) Indicators, Malaysia, 2018 is the first report of SDG Indicators subsequent to the publication of The Initial Assessment of Sustainable Development Goals Indicators for Malaysia 2018 which was published in December 2018. Sustainable Development Goals (SDG) Indicators, Malaysia, 2018 highlights the national progress being made towards the 2030 Agenda. The report presents the internationally agreed targets and indicators according to availability of data.

This publication consists of six parts. The first and second part present profile of Malaysia and outcome of the Mapping SDGs with 11th Malaysia Plan. The third and fourth part comprise the highlights of SDG indicators in Malaysia and summary of findings respectively. The fifth part contains the detailed of SDG Indicators and followed by technical notes, which explain the concepts, definitions and formulas to assist users in understanding the published SDG Indicators.

Exhibit 1: Brief content on the report of Sustainable Development Goals (SDG) Indicators, Malaysia, 2018

A total of 108 tables encompassing 99 indicators under 17 goals have been compiled as important references for government, private sectors, academicians, Non-Government Organisations (NGOs), Civil Society Organisation (CSO) and individuals. The indicators can be used as an input for research, policy formulation as well as monitoring and evaluating the effectiveness of the national development programmes.
