Malaysia's economy expanded 5.2 per cent in 2025

- **Malaysia's economy expanded 5.2 per cent in 2025**, sustaining the growth recorded in the preceding year. The expansion was mainly underpinned by the Services and Manufacturing sectors, which contributed 82.5 per cent of the total Gross Domestic Product (GDP). Private final consumption expenditure remained the main contributor on the demand side, accounting for 60.5 per cent of GDP in 2025.

- Malaysia’s GDP in 2025 stood at RM2.03 trillion at current prices and RM1.74 trillion at constant prices. Hence, Gross National Income per capita increased to RM57,200 as compared to RM54,870 in 2024.

- The Services sector expanded by 5.4 per cent in 2025, maintaining the same growth as in 2024. The expansion was attributed by a positive growth across all major sub-sectors.

- The Manufacturing sector increased 4.5 per cent (2024: 4.2%) in 2025. The growth was supported by improvements across major sub-sectors, particularly Electronic components, communication equipment and consumer electronics, which increased by 9.9 per cent (2024: 4.0%).

- The Agriculture sector grew at 2.2 per cent in 2025 as compared to 3.4 per cent in 2024. The performance was primarily supported by the Oil palm sub-sector, which rose to 4.7 per cent (2024: 5.1%).

- The Mining and quarrying sector increased marginally at 0.6 per cent as against 1.2 per cent in 2024. The growth was driven by the Natural gas sub-sector, which grew at 0.5 per cent (2024: 2.3%).

- The Construction sector posted a double-digit growth of 12.2 per cent in 2025 as compared to 17.6 per cent in the previous year. The performance was supported by positive growth across all segments, particularly the Non-residential buildings which expanded by 16.6 per cent (2024: 13.9%).
