

**NOT A PART OF RECENT CENSUS EXERCISE (THE STAR, 27 AUGUST 2010,
PAGE N58)**

Based on our records, we found that there are nine enumeration blocks (EB) in Taman Kerjasama, Bukit Beruang area. Each EB consists on average 80 to 120 living quarters and will be enumerated within 2 weeks by an enumerator during the census period. For the whole census operation, each enumerator is given 3 EBs. To ensure that all residence has been enumerated, the assistant commissioner, district superintendent and supervisor will review/check the field operation for the completeness in terms of coverage and documentation.

As the Population and Housing Census, Malaysia, 2010 enumeration was officially over on the 22 August 2010, the mopping up process being carried out until 3 September 2010. In cases where the respondents are missed out from being enumerated, respondents are advised to contact the call centre or nearest Department of Statistics office at their area for further action. However, for the incidence that took place at complainant residence, our officer has visited and interviewed the complainant on 24 August 2010.

We appreciate the effort of the complainant in highlighting the issues and we thank him for his support for the Population and Housing Census, Malaysia, 2010.

ISMAIL YUSOFF

Deputy Commissioner

for Commissioner

Population and Housing Census, Malaysia 2010
