

## **'Census info key to govt planning'**

Monday, 21 Sep 2020

ENUMERATORS, involved in the Malaysian Population and Housing Census 2020, for Klang District, will visit households where the occupants will be asked to answer questions that will influence the Government's planning and policies for the next decade.

Klang Municipal Council (MPK) president Dr Ahmad Fadzli Ahmad Tajuddin said a few hundred enumerators would knock on doors of households in the district with the aim to get a complete and accurate count of the population along with other important information.
